*Non-Vicious Circle* Aimé Césaire, 1984 The twenty poems in this book presented in French with facing English translations have been chosen to illustrate fundamental aspects of Césaire's thought imagery and style as these crystallized into a single coherent system in the late 1940s and the 1950s The work aims to assist both nonspecialist reader and scholar to a deeper comprehension of the poems and their formidable linguistic difficulties Lyric and Dramatic Poetry, 1946-82 Aimé Césaire, 1990 over emergent literature and will show him to be a major figure in the conflict between tradition and contemporary cultural identity **Homer in the Twentieth Century** Barbara Graziosi, Emily Greenwood, 2010-07-29 This collection of essays explores the crucial place of Homer in the shifting cultural landscape of the twentieth century It argues that Homer was viewed both as the founding father of the Western literary canon and as sharing important features with poems performances and traditions which were often deemed neither literary nor Western the epics of Yugoslavia and sub-Saharan Africa the keening performances of Irish women the spontaneous inventiveness of the Blues The book contributes to current debates about the nature of the Western literary canon the evolving notion of world literature the relationship between orality and the written word and the dialogue between texts across time and space Homer in the Twentieth Century contends that the Homeric poems play an important role in shaping those debates and conversely that the experiences of the twentieth century open new avenues for the interpretation of Homer's much travelled texts **Aimé Césaire** Janis L. Pallister, 1991 A pioneer of the negritude movement the French Caribbean poet playwright and essayist Aime Césaire invested even his most lyrical writing with a call for revolution and change in a prejudiced and flawed world The narrator of his landmark work the 1939 epic poem *Cahier d'un retour au pays natal* bitterly confronts the squalor and spiritual deprivation of his homeland Martinique In this intense often hermetic poem the cosmopolitan protagonist's search for identity leads him back to his origins and to a revalorization of black pride Césaire's equally engaging plays focus on decolonization primarily the point at which black progressive leaders face reactionary opposition among the newly autonomous black people Césaire's preoccupation with the ideal black man the culture hero prompted his dramatic retelling of the stories of such tragic figures as the Haitian revolutionary Toussaint Louverture the Haitian king Henri Christophe and the Congolese leader Patrice Lumumba all of whom experienced an eminent rise to power and then a sudden fall In this first English language study of Césaire's poetry collections plays and notable essays Janis L. Pallister looks at the author in the context of the groundbreaking negritude and surrealism movements to which most of his writing adheres Approaching Césaire's work chronologically and assuming little or no knowledge of French on the part of the reader Pallister examines the two dominant themes of Césaire's work the need for revolution and the paradoxes of decolonization and explores Césaire's struggle to reconcile his art with the demands of a political agenda he has been mayor of Fort de France and a deputy to the French National Assembly Pallister analyzes Césaire's works as products of a particular human condition both in a historical

context and in that of the twentieth century social cultural and political milieu to which they pertain and assesses the critical trends that have arisen in connection with this influential poet journal editor and politician For the student seeking a comprehensive introduction to Césaire or the seasoned scholar in want of a handy reference this study should prove invaluable
