Caravans Hege Høyer Leivestad,2020-05-19 In Caravans Hege Høyer Leivestad opens the caravan door to understand how daily life is organised among Britons and Swedes who have relocated either seasonally or permanently to mobile homes Leivestad investigates how

the caravan and campsite come to fit and challenge conventional domestic ideals and how the static mobile caravan can nurture ideas of freedom even when it is standing still With sensitivity and an awareness of the humour and pathos of the lives of her subjects Leivestad closely examines the shaping of the European camping phenomenon and its day to day pleasures and pains ranging from friendships ties to conflictive bingo nights from nosy and noisy neighbours to fake fireplaces and rotten awning floors As the first ethnographic study of caravan life in Europe Caravans offers a refreshing take on contemporary mobility debates showing how movement can best be understood by taking a detailed look at certain specific mundanities in material culture This rich and topical ethnography is a must read for students of anthropology human geography and architecture and for those with an interest in the possibilities and perils of a life on wheels **The Caravan Handbook - Second Edition** Sammy Faircloth,2023-10-24 The Caravan Handbook contains invaluable advice for current owners newbies or anyone thinking about buying a caravan Presented in a colourful easy to follow A5 format this 334 page handbook covers topics related to buying and storing servicing and maintaining towing and pitching accessories winter lay up and much more The options are simple find a helpful person and take them everywhere you go join lots of groups and spend hours searching for the right answer or buy this book and turn to the right page The Caravan Handbook seeks to answer all the questions you might ask about choosing buying using and maintaining a caravan **The A to Z of the Gypsies (Romanies)** Donald Kenrick,2010-04-09 Originating in India the Gypsies arrived in Europe around the 14th century spreading not only across the entirety of the continent but also immigrating to the Americas The first Gypsy migration included farmworkers blacksmiths and mercenary soldiers as well as musicians fortune tellers and entertainers At first they were generally welcome as an interesting diversion to the dull routine of that period Soon however they attracted the antagonism of the governing powers as they have continually done throughout the following centuries The A to Z of the Gypsies Romanies seeks to end such prejudice by clarifying the facts about this nomadic people Through a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on significant persons places events institutions and aspects of culture society economy and politics the history of the Gypsies and their culture is told **The Heritage of the Kingdom of Saudi Arabia** Wahbi Hariri-Rifai,Mokhless Hariri-Rifai,1990 **On Trans-Saharan Trails** Ghislaine Lydon,2009-03-02 This study examines the history and organization of trans Saharan trade in western Africa using original source material **The Knights Hospitaller of the English Langue 1460-1565** Gregory O'Malley,2005-09-22 The Knights of St John of Jerusalem also known as the Hospitallers were a military religious order subject to monastic vows and discipline but devoted to the active defence of the Holy Land After evacuating the Holy Land at the beginning of the fourteenth century they occupied Rhodes which they held into the sixteenth century when their headquarters moved to Malta Branches of the order existed throughout Europe and it is the English branch in the fifteenth and sixteenth centuries that is examined here Among the major subjects researched by O Malley are the recruitment of members of the Hospital and their

family ties the operation of the order's career structure the administration of its estates its provision of spiritual and charitable services and the publicity and logistical support it provided for the holy war carried on by its headquarters against the Ottoman Turks It is argued that the English Hospitallers in particular took their military and financial duties to the order very seriously making a major contribution to the Hospital's operations in the Mediterranean as a result They were able to do so because they were wealthy had close family and other ties with gentle and mercantile society and above all because their activities had royal support Where this was lacking or ineffective as in Ireland the Hospital might become the plaything of local interests eager to exploit its estates and its wider functions might be neglected Consequently the heart of the book lies in an extended discussion of the relationship between senior Hospitaller officers and the governing authorities of Britain and Ireland It is concluded that rulers were generally supportive of the order's activities but within strict limits particularly in matters concerning appointments the size of payments to the east and the movement and foreign allegiances of senior brethren When these limits were breached or at times of political or religious sensitivity such as the 1460s and 1530s the Hospital's personnel and estates would suffer In addition more general areas of historical debate are illuminated such as those concerning the relationship between late medieval societies and the religious orders British attitudes to Christendom and holy war and the rights of rulers over their subjects This is the first such book to be based on archival records in both Britain and Malta and will make a major contribution to understanding the order's European network its place in the ordering of Latin Christendom and in particular its role in late medieval British and Irish society

Early Islam and the Birth of Capitalism Benedikt Koehler, 2014-06-17 Early Islam and the Birth of Capitalism proposes a strikingly original thesis that capitalism first emerged in Arabia not in late medieval Italian city states as is commonly assumed Early Islam made a seminal but largely unrecognized contribution to the history of economic thought it is the only religion founded by an entrepreneur Descending from an elite dynasty of religious civil and commercial leaders Muhammad was a successful businessman before founding

Islam As such the new religion had much to say on trade consumer protection business ethics and property As Islam rapidly spread across the region so did the economic teachings of early Islam which eventually made their way to Europe Early Islam and the Birth of Capitalism demonstrates how Islamic institutions and business practices were adopted and adapted in Venice and Genoa These financial innovations include the invention of the corporation business management techniques commercial arithmetic and monetary reform There were other Islamic institutions assimilated in Europe charities the waqf inspired trusts and institutions of higher learning the madrasas were models for the oldest colleges of Oxford and Cambridge As such it can be rightfully said that these essential aspects of capitalist thought all have Islamic roots Tourism
