The Monuments of the Hellenistic-Roman Period from Egypt G. J. F. Kater-Sibbes, M. J. Vermaseren, 2015-08-24 Preliminary material AEGYPTUS MEMPHIS AEGYPTUS GENERAL INDEX ACKNOWLEDGEMENTS OF THE PHOTOGRAPHS PLATES **Montreal Museum of Fine Arts, Collection of Mediterranean Antiquities, Vol. 3, The Metal Objects and the Gems** Beaudoin Caron, John M. Fossey, 2018-11-26 This is the third out of eight projected volumes making available to the public the contents in the collection of Greek and Roman Antiquities in one of Canada's most prestigious museums. Here are presented a variety of metal objects mostly bronze figurines, medical instruments, brooches, weaponry and a lead sarcophagus, the small collection of jewelry and the ancient gems and seal stones, mainly Roman, some still set in rings. Ce volume est le troisième de la série de huit volumes projetés qui vise publier la collection des antiquités grecques et romaines d'un des grands musées canadiens. Nous présentons ici des objets métalliques très variés, surtout des statuettes de bronze, des instruments médicaux, des piques des armes et un sarcophage de plomb, un petit nombre de bijoux et de gemmes anciennes, surtout romaines, certaines encore serties dans une bague. Rabbinisme et Paganisme en Palestine romaine E. Friedheim, 2006-07-01 This study deals essentially with the knowledge of the Palestinian Rabbis concerning paganism in the days of Mishna and Talmud. The late Professor Saul Lieberman wrote that many isolated items on idolatry and idol worshippers are scattered all over rabbinic literature. It would require a large volume to treat this topic. This valuable and exhaustive study proves methodically that the Rabbis had deeper knowledge about Syrian, Arabian, Anatolian and Graeco-Roman Pagan cults than is commonly believed. Clear, accessible and displaying considerable scholarship, this work will undoubtedly provide an important challenge to both historians, archaeologists and scholars of Rabbinic texts. Cette étude traite essentiellement du niveau de connaissances des Rabbins de Judée et de Galilée concernant les cultes païens dans le sens le plus large du terme. Le professeur Saul Lieberman affirmait que de nombreux items isolés sur l'idolâtrie et les idolâtres sont dispersés dans toute la littérature rabbinique. Il faudrait un grand volume pour traiter ce sujet. Ce travail exhaustif traverse l'ensemble du corpus talmudique et, au regard de la réalité historique propre à la Palestine romaine, montre méthodiquement que les connaissances des Sages, tant sur les divinités du paganisme que sur des rites syriens, arabes, anatoliens voire gréco-romains, étaient bien plus vastes et approfondies que ce qu'il est communément admis aujourd'hui par la recherche historique. De par sa clarté et son accessibilité, ce livre intéressera aussi bien les historiens du peuple juif que ceux des religions antiques. Les archéologues, les historiens du Levant, l'époque romaine ainsi que les spécialistes de la littérature talmudique y trouveront également un vif intérêt en vertu de son aspect extrêmement novateur. Autopsy in Athens Margaret

M. Miles,2015-07-24 This is an exciting time to study in Athens The rescue excavations of recent years conducted during construction of the Metro system and in preparation for the 2004 Olympics Games combined with major restoration projects and a new enthusiasm for fresh examination of old material using new techniques and applications brings new perspectives and answers on many aspects of the ancient city of Athens and life politics and religion in Attica The 15 papers presented here contribute new findings that result from intensive firsthand examinations of the archaeological and epigraphical evidence They illustrate how much may be gained by reexamining material from older excavations and from the methodological shift from documenting information to closer analysis and larger historical reflection They offer a variety of perspectives on a range of issues the ambiance of the ancient city for passersby filled with roadside shrines techniques of architectural construction and sculpting religious expression in Athens including cults of Asklepios and Serapis the precise procedures for Greek sacrifice how the borders of Attica were defined over time and details of its road system In presenting this volume the contributors are continuing in a long tradition of autopsy in the sense of personal observation in Athens that began even in the Hellenistic period and has continued through the writings of centuries of travelers and academics to the present day *Inventaire bibliographique des Isiaca (IBIS)* Leclant,Clerc,2015-11-16 Preliminary material J Leclant

What Did Jesus Look Like? Joan E. Taylor,2018-02-08 Jesus Christ is arguably the most famous man who ever lived His image adorns countless churches icons and paintings He is the subject of millions of statues sculptures devotional objects and works of art Everyone can conjure an image of Jesus usually as a handsome white man with flowing locks and pristine linen robes But what did Jesus really look like Is our popular image of Jesus overly westernized and untrue to historical reality This question continues to fascinate Leading Christian Origins scholar Joan E Taylor surveys the historical evidence and the prevalent image of Jesus in art and culture to suggest an entirely different vision of this most famous of men He may even have had short hair *Religion in Roman Britain* Mr Martin Henig,2003-09-02 Apart from Christianity and the Oriental

Cults religion in Roman Britain is often discussed as though it remained basically Celtic in belief and practice under a thin veneer of Roman influence Using a wide range of archaeological evidence Dr Henig shows that the Roman element in religion was of much greater significance and that the natural Roman veneration for the gods found meaningful expression even in the formal rituals practised in the public temples of Britain *The Archaistic Style in Roman Statuary* M.D.

Fullerton,2018-07-17 This book deals with the use of archaistic stylistic elements i e those which revive or imitate features of Greek Archaic art in free standing statuary dating from the second century B C to the third century A C The main objective of the study is to determine how the archaistic style was used what prototypes were imitated what subjects were represented how the replicas of statue types were distributed how these statues were displayed and what prompted such stylistic anachronism The introductory chapter deals with general problems of archaism in ancient art and the specific questions

pertaining to statuary in the round The body of material nearly three hundred pieces in all is organized by type on the basis of pose and garment arrangement In a concluding chapter evidence from the body of the study is collected and possible answers are suggested for the questions outlined above This study contributes to the currently widespread scholarly interest in stylistic revivals especially classicism and archaism which occurred not only in Roman times but in earlier and later periods as well Ascending and descending the Acropolis Wiebke Friese, Søren Handberg, Troels Myrup

Kristensen, 2019-01-28 *Ascending and Descending the Acropolis* Mobility in Athenian Religion provides new perspectives on religious mobilities within the geographically limited region of Attica in Greece from the Late Bronze Age to the second century AD Attica is a particularly fruitful region to study these forms of mobility as it provides rich evidence across a range of material and textual sources for a variety of different mobile situations both inside the city of Athens itself such as on and circumnavigating the Acropolis and to sanctuaries in its hinterland for example those of Demeter and Kore at Eleusis and that of Artemis at Brauron as well to as more distant sanctuaries such as Delphi Boiotia in Antiquity Albert

Schachter, 2016-05-16 Boiotia was next to Athens and Sparta one of the most important regions of ancient Greece Albert Schachter a leading expert on the region has for many decades pioneered and fostered the exploration of it and its people through his research His seminal publications have covered all aspects of its history institutions cults and literature from late Mycenaean times to the Roman Empire revealing a mastery of the epigraphic evidence archaeological data and the literary tradition This volume conveniently brings together twenty three papers two previously unpublished others revised and updated which display a compelling intellectual coherence and a narrative style refreshingly immune to jargon All major topics of Boiotian history from early Greece to Roman times are touched upon and the book can be read as a history of Boiotia in pieces A History of Research Into Ancient Egyptian Culture in Southeast Europe Mladen Tomorad, 2015-02-26

This book will try to give a review of the history of the studies of Ancient Egypt done in Southeast Europe and present some of the latest research The book comprises a selection of papers in which scholars from various institutions of the region reviewed the different aspects of past studies along with recent research in the field Marble Statuettes of the Roman Period Brian Martens, 2025-07-18 The excavations of the Athenian Agora have played a major role in bringing to light the rich sculptural legacy of ancient Athens The project's storerooms boast one of the most important bodies of sculpture from classical antiquity covering the complete range and history of output in a storied center of artistic production This volume presents for the first time the marble statuettes and statuette fragments carved between the 1st century BCE and the 4th century CE that have been excavated from the Agora since 1931 Comprising one in six figural sculptures found at the site these works are testament to a thriving demand for small divine images in Roman period Greece that has been insufficiently recognized until now Among these broken and battered figures are the portraits of polytheistic Athens naked Aphrodite at her bath winged Eros assisting his mother tired Herakles after a labor teenage Artemis aiming her bow attentive Asklepios

dispatching cures The author marshals a detailed and heavily illustrated catalogue of 672 objects to offer new data to the study of Greek iconography and sculptural production Taken as a collective whole the statuettes document the vibrant religion society and art of Athens and beyond Egypt in Croatia: Croatian Fascination with Ancient Egypt from Antiquity to Modern Times Mladen Tomorad,2019-11-20 Elements from Ancient Egypt have been present in Croatia ever since Antiquity Egypt in Croatia considers artefacts discovered in present day Croatia 16th 20th century travellers Egyptian collections and early collectors 1820s 1950s the development of Egyptology as a field of study as well as the various elements of Egyptomania *Water in the Cultic Worship of Isis and Sarapis* Robert Wild,2015-09-01 Preliminary material

Mediterranean cultures have been examined primarily in relation to the topos of the male dragon slayer This book analyzes artistic images of women and dragons over an extensive period from Classical Greece and Rome with forays to Egypt and Mesopotamia to the early modern period in Western Europe The unique methodology employed in the study of this motif reveals its sacred core as well as its relationship to rituals of fertility and oracular knowledge to the liminal realm between life and death and to the symbolism of Great Mother goddesses At the same time the images explored throughout expose stereotypes and biases against women in unusual positions of power which were embedded in the motif and persisted in Western European art

The City in Roman and Byzantine Egypt Richard Alston, 2002-09-11 For those wishing to study the Roman city in Egypt the archaeological record is poorer than that of many other provinces Yet the large number of surviving texts allows us to reconstruct the social lives of Egyptians to an extent undreamt of elsewhere We are not therefore limited to a history of the public faces of cities their inscriptions and the writings of their elites but can begin to understand what the transformations of the city meant for ordinary people and to uncover the forces that shaped the everyday lives of city dwellers After Egypt became part of the Roman Empire in 30 BC Classical and then Christian influences both made their mark on the urban environment This book examines the impact of these new cultures at every level of Egyptian society The result is a new and fascinating insight into the creation of a specific urban society in the Roman Empire as well as a case study for the model of urban development in antiquity
