Ermatinger (Jr.), Weber State University. Department of History, 1999 **Prelude to Pearl Harbor US Navy & the Far East** G E Wheeler, **Prelude to Pearl Harbor** Ray Wagner, 1991 This report describes the fighting that developed Japanese naval air power from 1937 to 1941 and the way American military aircraft were also changed by the war in China For the first time carrier based air strikes and long range bombing attempted to destroy an enemy air force at the beginning of a war The attacks did not succeed until land bases had been secured but the military goals of the Japanese Navy in 1937 were similar to our own in the Persian Gulf War of 1991 Also for the first time a fighter designed for carrier operations won air superiority in combat and success in 1937 led directly to the Zero fighter whose performance gave the Japanese Navy the belief it could control Pacific skies in 1941 The value of close support of ground troops the effects of sustained bombing of cities and the different results of bombing by day or by night were demonstrated American aircraft designers learned from the war in China the value of drop tanks pilot armor and heavy caliber guns as well as the best tactics for fighter pilots confronted by enemy planes with Zero s capabilities We invite the reader to learn how the Sino Japanese war of 1937 1941 pointed to the future of air warfare Documents in the San Diego Aerospace Museum archives some of them not published previously enable us to describe this air war more accurately than has been possible before **The Panay Incident : Prelude to Pearl Harbor** Hamilton Darby Perry, 1969 Operation Hawai'i Charles Francis Urbanowicz, California State University, Chico. Pacific War and the Importance of 'Magic' Keiichiro Komatsu,2018-10-24 Magic was the name given to the American decoding of the secret Japanese codes used in diplomatic communications before and during the Pacific War of 1941 45 This important new work presenting a Japanese perspective argues for the first time that in the final phase of the eight months of US Japan talks leading to the attack on Pearl Harbor serious mistranslations in Magic were a significant factor in the cumulative effect of mutual misunderstandings which grew between the two sides over a longer period In spite of the number of historians who take the opposite point of view the author argues that the efforts made by the participants on both sides to achieve a successful outcome and avert military conflict or at least delay the outbreak of the war until the following March 1942 might have been much closer to achieving success than generally believed The mistranslations of Magic which led to the crisis in 1941 were influenced by misunderstanding and misperception and the persistence of stereotypes and images among the parties involved The study of these kinds of phenomena has been an important part of the growth of the discipline of international relations since the Second World War The Sino-Japanese Conflict 1931-1941 ,1980
