**The New Age in Glastonbury** Ruth Prince, David Riches, 2001-01-01 The New Age movement is a twentieth century socio cultural phenomenon in the Western world with Glastonbury as one of its major centers Through experimenting with a number of ways of analyzing this movement the authors were able to develop a novel theory of social religious movements of broad applicability Based around contradictions relating to such central anthropological concepts as *communitas* egalitarianism individualism holism and autonomy it reveals the processes by which having abandoned a mainstream lifestyle people come to build up a counter culture way of life Drawing on their own work on tribal shamanistic religions the authors are able to point out interesting similarities between the latter and the Glastonbury New Age movement Not only that their model allows them to explain such wide ranging social and religious movements as the Hutterites the Kibbutz and Green communes In fact the authors argue these movements may be regarded as variations of the Glastonbury type

Lewis, 2004-08-30 In the late 1980s the New Age movement became the focus of both media attention and widespread ridicule as some of the more outlandish aspects of the movement such as channeling and the use of crystals for healing briefly piqued the public's curiosity While the movement was at its height scholars of religion generally sneered at what was perceived to be a daffy shallow craze and ignored it as a subject of serious study Professor James R Lewis was among the first to examine this growing religious phenomenon scientifically In previous books he has investigated the New Age as the most visible manifestation of a significant spiritual subculture the roots of which reach back to Theosophy Spiritualism and New Thought The present collection pursues this theme bringing together some of the best recent scholarship on new religions Since the height of its popular influence the New Age has declined in strength but has given rise to a plethora of new denominations all shaped by New Age ideas and spirituality Reflecting the emergence of this new denominational structure the core chapters of this book focus on specific groups Other chapters examine the movement's historical roots A unique feature of Dr Lewis's work is his inclusion of extensive selections from New Age literature thus allowing readers to experience firsthand the unusual perspectives of the various groups This is a fascinating examination of a significant and

persistent religious and social phenomenon      **Walter Sickert** Walter Sickert,2002 Walter Richard Sickert 1860 1942 was a major European artist and critic of the late nineteenth and early twentieth century whose statements on art from the 1880s to the 1930s have been used by artists and writers for more than half a century Containing over 400 entries this collection offers new insight into Sickert as an artist and provides valuable information about other British artists of the late nineteenth and early twentieth centuries      **“Not Afraid to Tell the Truth”** Ken M.
