*Something Magic This Way Comes* Martin H. Greenberg,Sarah A. Hoyt,2008-03-04 In the earliest days of humankind everything in the world seemed magical Gods and demons spirits and sprites were considered to be responsible for everything from life and death to the turning of the seasons to the abundance or failure of crops Today much that was once attributed to magic has been explained by science and in our technologically driven world the question is whether there is still a place for magic For twenty of fantasy s finest imaginers the answer is obviously Yes So welcome to visionary modern day realms of magic where surprising things can still happen From a Gypsy fortune teller s transforming prophecy to a troubled teen seeking a haven from his family woes to a mysterious gathering of cats at Cape Canaveral and a kid out to spook his best friend into believing that werewolves are real here are stories that will amuse you or send chills down your spine or have you looking wistfully around the next corner hoping to find a bit of magic all your own

[The Coloniality of Animal Monstrous Othering in Children's Books, Films, and Toys](#) Donna Varga,2024-08-19 The Coloniality of Animal Monstrous Othering in Children s Books Films and Toys examines how the portrayal of animals as physically distorted behaviorally depraved and intellectually defective serves to justify their debasement violation and destruction in materials

directed toward young consumers The author argues that this animal monstrous Othering arises from the Eurocentric belief in humans natural superiority over animals and the right to categorize animals in accordance with a scale of worthiness that parallels the subjugation of racialized persons The chapters examine a variety of canonical figures like the dissolute wolf of Red Riding Hood stories and the disfigured titular character of the Wonky Donkey picture book alongside non canonical animals including reprobate pigs degenerate sharks self centered flamingos and wicked piranhas To counter this animal debasement Varga juxtaposes these readings with an examination of materials that articulate harmonious animal human interrelationships without dependence on styles of anthropomorphism that diminish animality The Horn Book Guide to Children's and Young Adult Books, 2004 In Review, 1981 A to Zoo Rebecca L.
