**Race and Class Struggles in a Colonial State** Kelvin Singh, 1994 The political social and economic evolution of pre independent Trinidad was shaped by constant shifts in British colonial policy between the two World Wars Singh reveals the subtleties and complexities of day to day life in a truly multi racial society where the whites the blacks and the East Indians were not the only ethnics involved in the political social and economic dynamics of colonial Trinidad on the eve of internal self government and ultimately its independence in 1962 Singh examines the relationships between capital and labour racial groups and classes the policies of the imperial and local government the rise of protest against and accommodation to those policies and prejudices by individuals fledgling trade unions and political groups in this book about the twentieth century awakening of political consciousness in the British Caribbean colony

**Caliban and the Yankees** Harvey R. Neptune, 2009-11-30 In a compelling story of the installation and operation of U S bases in the Caribbean colony of Trinidad during World War II Harvey Neptune examines how the people of this British island contended with the colossal force of American empire building at a critical time in the island s history The U S military occupation between 1941 and 1947 came at the same time that Trinidadian nationalist politics sought to project an image of a distinct independent and particularly un British cultural landscape The American intervention Neptune shows contributed to a tempestuous scene as Trinidadians deliberately engaged Yankee personnel paychecks and practices flooding the island He explores the military based economy relationships between U S servicemen and Trinidadian women and the influence of American culture on local music especially calypso fashion labor practices and everyday racial politics Tracing the debates about change among ordinary and privileged Trinidadians he argues that it was the poor the women and the youth who found the most utility in and moved most avidly to make something new out of the American presence Neptune also places this history of Trinidad s modern times into a wider Caribbean and Latin American perspective highlighting how Caribbean peoples sometimes wield America and American ways as part of their localized struggles

**Race, Class, and Nationalism in the Twenty-First-Century Caribbean** Scott Timcke, Shelene Gomes, 2024-11

This collection of more than a dozen essays focuses on the political dynamics of race class and nationalism in the contemporary Caribbean Despite the plethora of studies on nationalism in the Caribbean few have attempted to look at the phenomenon as a political invention that does not and cannot serve the interests of all how essentialist reductive overdetermining nationalism is a political and conceptual confusion that forever stalls the project of universal human emancipation Editors Scott Timcke and Shelene Gomes gather and frame chapters that in their collective expression help trace the process of race class and nationalism through the contours of a broader political economic and social geography These chapters argue that notions of racial identity have changed over time but those reformations are not independent of class rule or nationalism By using several case studies that span the Anglo Dutch French

and Spanish Caribbean and focus on the development of political organizations hardships and ideology each of these essays continues the struggle for liberation against elite entrenchment

**Race, Nation, and West Indian Immigration to Honduras, 1890-1940** Glenn A. Chambers, 2010-05-24 Glenn A Chambers examines the West Indian immigrant community in Honduras through the development of the country's fruit industry revealing that West Indians fought to maintain their identities as workers Protestants blacks and English speakers in the midst of popular Latin American nationalistic notions of mestizaje or mixed race identity

**Immigration and the Political Economy of Home** Rachel Buff, 2001-03-25 Rachel Buff's innovative study of festivals in two American communities launches a substantive inquiry into the nature of citizenship race and social power Drawing on ethnographic fieldwork as well as archival research Buff compares American Indian powwows in Minneapolis with the West Indian American Day Carnival in New York She demonstrates the historical theoretical and cultural links between two groups who are rarely thought of together and in so doing illuminates our understanding of the meaning of home and citizenship in the post World War II period The book also follows the history of federal Indian and immigration policy in this period tracing the ways that migrant and immigrant identities are created by both national boundaries and transnational cultural memory In addition to offering fascinating discussions of these lively and colorful festivals Buff shows that their importance is not just as a form of performance or entertainment but also as crucial sites for making and remaking meanings about group history and survival Cultural performances for both groups contain a history of resistance to colonial oppression but they also change and creatively respond to the experiences of migration and the forces of the global mass culture industry Accessible and engaging *Immigration and the Political Economy of Home* addresses crucial contemporary issues Powwow culture and carnival culture emerge as vital dynamic sites that are central not only to the formation of American Indian and West Indian identities but also to the understanding modern America itself the history of its institution of citizenship its postwar cities and the nature of metropolitan culture

**Intersectional Class Struggle** Michael Beyea Reagan, 2021-06-15 This innovative study explores the relevance of class as a theoretical category in our world today arguing that leading traditions of class analysis have missed major elements of what class is and how it operates It combines intersectional theory and materialism

to show that culture economics ideology and consciousness are all factors that go into making class meaningful Using a historical lens it studies the experiences of working class peoples from migrant farm workers in California s central valley to the factory girls of New England and black workers in the South to explore the variety of working class experiences It investigates how the concepts of racial capitalism and black feminist thought when applied to class studies and popular movements allow us to walk and chew gum at the same time to recognize that our movements can be diverse and particularistic as well as have elements of the universal experience shared by all workers Ultimately it argues that class is made up of all of us it is of ourselves in all our contradiction and complexity      *The Dilemmas of Ethnic Policy* John Gaffar La Guerre,2017-01-03 The Dilemmas of Ethnic Policy A Global Perspective argues that ethnic conflict increases or decreases in relation to changes in the social structure and the location and distribution of political power Ethnic grievances derive from lack of access to valued resources and elites play a crucial role in allocating those resources This book examines the experiences of five countries with a history of ethnic conflict former Yugoslavia Bosnia Herzegovina Guyana Trinidad and Tobago and the United States It finds that in many cases solutions adopted to mitigate ethnic conflict have unintended consequences Often supposed solutions confuse cause and effect and in fact worsen ethnic conflict Attempts to address identity issues by pandering to them often led to further ethnic demands This book argues that based on the experiences of the countries under examination the best course is to adopt policies that encourage alliances between and among ethnic groups      **Global Garveyism** Ronald J. Stephens,Adam Ewing,2024-10-15 Illuminating the global impact of Marcus Garvey s Black nationalist philosophy Arguing that the accomplishments of Jamaican activist Marcus Garvey and his followers have been marginalized in narratives of the Black freedom struggle this volume builds on decades of overlooked research to reveal the profound impact of Garvey s post World War I Black nationalist philosophy around the globe and across the twentieth century These essays point to the breadth of Garveyism s spread and its reception in communities across the African diaspora examining the influence of Garvey s Universal Negro Improvement Association UNIA in Africa Australia North America and the Caribbean They highlight the underrecognized work of many Garveyite women and show how the UNIA played a key role in shaping labor unions political organizations churches and schools In addition contributors describe the importance of grassroots efforts for expanding the global movement the UNIA trained leaders to organize local centers of power whose political activism outside the movement helped Garvey s message escape its organizational bounds during the 1920s They trace the imprint of the movement on long term developments such as decolonization in Africa and the Caribbean the pan Aboriginal fight for land rights in Australia the civil rights and Black Power movements in the United States and the radical pan African movement Rejecting the idea that Garveyism was a brief and misguided phenomenon this volume exposes its scope significance and endurance Together contributors assert that Garvey initiated the most important mass movement in the history of the African diaspora and they urge readers to rethink the emergence of modern Black politics with Garveyism

**Democracy's Foot Soldiers** Reena N. Goldthree, 2025-11-18 A captivating history of the Afro Caribbean soldiers who fought for the British Empire in World War I and their transnational campaign for equality Following the outbreak of World War I tens of thousands of men from the British Caribbean volunteered as soldiers to fight on behalf of the British Empire Despite living far from the bloody battlefields of Europe these men enlisted for a variety of reasons to affirm their masculine honor pursue economic mobility or enhance their standing as colonial subjects Democracy's Foot Soldiers offers a sweeping account of the British West Indies Regiment the military unit established in 1915 for Caribbean volunteers documenting their service during the war and their dramatic battles for racial equality and fair treatment in the armed forces and on the home front Drawing on previously overlooked archival sources in the Caribbean England and United States Reena Goldthree demonstrates how wartime military mobilization spurred

heightened demands for social economic and political reform in the colonial Caribbean She recovers the forgotten contributions of Afro Caribbean troops during the war following their harrowing journeys to military camps in Europe Africa and the Middle East Goldthree chronicles how after the war soldiers their families and their civilian allies launched their own war for democracy strategically using the rhetoric of imperial patriotism rather than the more militant language of anticolonial nationalism to fight for respect and equality Democracy s Foot Soldiers places these soldiers at the forefront of popular struggles over race labor and economic justice in the early twentieth century Caribbean showing that the war years were a crucial period of political ferment and mass mobilization in the region
