**Race and Sex in Latin America** Peter Wade, 2009-09-07 Interracial sexual relations are often a key mythic basis for Latin American national identities but the importance of this has been under explored Peter Wade provides a pioneering overview of the growing literature on race and sex in the region covering historical aspects and contemporary debates He includes both black and indigenous people in the frame as well as mixed and white people avoiding the implication that race means black white relations [Race, Nation, and West Indian Immigration to Honduras, 1890-1940](#) Glenn A. Chambers, 2010-05-24 At the turn of the twentieth century Honduras witnessed the expansion of its banana industry and the development of the United Fruit Company and Standard Fruit into multinational corporations with significant political and economic influence in Latin America and the Caribbean These companies relied heavily on an imported labor force thousands of West Indian workers whose arrival in Honduras immediately sparked anti black and anti immigrant sentiment throughout the country Glenn A Chambers examines the West Indian immigrant community in Honduras through the development of the country's fruit industry revealing that West Indians fought to maintain their identities as workers Protestants blacks and English speakers in the midst of popular Latin American nationalistic notions of mestizaje or mixed race identity West Indians lived as outsiders in Honduran society owing to the many racially motivated initiatives of the Honduran government that defined acceptable immigration as white only As Chambers shows one unintended though perhaps predictable consequence of this political stance was the emergence of a clearly defined and separate West Indian enclave that proved to be antagonistic toward native Hondurans This conflict ultimately led to animosity between English speaking and Spanish speaking Hondurans as well as between West Indians and non West Indian peoples of African descent An all inclusive Afro Honduran identity never emerged in Honduras Chambers reveals Rather black identity developed through West Indians culture language and history Chambers moves beyond treatments of West Indian labor as an accessory to U S capitalist interests to explore the ethnic and racial dynamic of the interactions of the West Indian community with locals In [Race Nation and West Indian Immigration to Honduras 1890 1940](#) Chambers demonstrates the importance of racial identity in Honduran society as a whole and reveals the roles that culture language ethnicity and history played in the establishment of regional identities within the broader African diaspora **A New History of Modern Latin America** Lawrence A. Colombia Jamaica Cuba and Miami She analyzes blackface performance in the aftermath of the turn to multiculturalism in Latin America the emergence of modern blackness in Jamaica and the rise of Barack Obama in the United States showing how blackface remains embedded in cultural entertainment Contending that the Americas are linked by repeating nationalist fictions of postracialism colorblindness and myths of racial democracy Roper assesses how acts of impersonation mediate the ongoing power of these narratives and enable people to comprehend advancements and reversals in racial equality Rather than simply framing blackface as liberatory or oppressive Roper traces its emergence from a shared history of slavery and the varied politics of racial enjoyment throughout the hemisphere
