On Race and Racism in America Roy Martinez, 2010 *On Race and Racism in America* offers a variety of perspectives on American Philosophy's relative blindness to issues of race.

Philosophy of Race Naomi Zack, 2023-04-27 *Philosophy of Race: An Introduction* provides plainly written access to a new subfield that has been in the background of philosophy since Plato and Aristotle. The second edition is updated to include contemporary developments such as digital racism, metaphysical othering, and metaphysical racism, and the rise of populist movements. Its focus has also been expanded to address non-white racial groups in the Americas, Europe, and beyond, such as the Roma and Uighur people. Part I provides an overview of ideas of race and ethnicity in the philosophical canon, egalitarian traditions, race in biology, and race in American and Continental Philosophy. Part II addresses race as it operates in life through colonialism and development, social constructions and institutions, racism, political philosophy, gender, and populist movements. This book constructs an outline that will serve as a resource for students, nonspecialists, and general readers in thinking, talking, and writing about philosophy of race.

Race Robert Bernasconi, 2001-02-08 This volume provides an introduction to the concept of race within philosophy. It gives an overview of the most important contributions by continental philosophers to the understanding of race, focusing on Kant, Du Bois, Senghor, Sartre, and Schutz, as well as presenting a general review of recent philosophical discussions.

Understanding Bonhoeffer Peter Frick,2017-05-23 How are we to understand Bonhoeffer In these essays Peter Frick attempts to answer this question by examining different aspects of Bonhoeffer s thought thus illuminating the hermeneutical philosophical theological and social dimensions of his writings All sixteen essays collected here were written between 2007 and 2014 some of them address the question of methodology others contribute to Bonhoeffer s intellectual formation and still others seek to connect with contemporary questions The aim of the volume is to present Bonhoeffer s key theological and philosophical ideas and to emphasize their contemporary relevance

The Browning of America and the Evasion of Social Justice Ronald R. Sundstrom,2008-10-09 This book considers the challenge that the so called browning of America poses for any discussion of the future of race and social justice In the philosophy of race there has been little reflection about how the rapid increase in the Latino Asian American and mixed race populations affects the historical demands for racial justice by Native Americans and African Americans Ronald R Sundstrom examines how recent demographic shifts bear upon central questions in race theory and social and political philosophy including color blindness interracial intimacy and the future of race Sundstrom cautions that rather than getting caught up in romantic reveries about the browning of America we should remain vigilant that longstanding claims for racial justice not be washed away

Michael Jackson and the Quandary of a Black Identity Sherrow O. Pinder,2021-08-01 In Michael Jackson and the Quandary of a Black Identity Sherrow O Pinder explores the ways in which the late singer s racial identification process problematizes conceptualizations of race and the presentation of blackness that reduces blacks to a bodily mark Pinder is particularly interested in how Michael Jackson simultaneously performs his racial identity and posits it against strict binary racial definitions neither black nor white While Jackson s self fashioning deconstructs and challenges the corporeal notions of natural bodies and fixed identities negative readings of the King of Pop fuel epithets such as weird or freak subjecting him to a form of antagonism that denies the black body its self determination Thus for Jackson racial identification becomes a deeply ambivalent process which leads to the fragmentation of his identity into plural identities Pinder shows how Jackson as a racialized subject is discursively confined to a third space a liminal space of ambivalence

Unruly Narrative Samira Spatzek,2022-09-06 This study deals with the formative powers of modern liberal ideas of private property The liberal subject emerged with the formations of European liberalism Atlantic slavery and settler colonial expansion in the New World Toni Morrison s A Mercy is thus identified as a key literary text that generates a fundamental critique of the connections between self making and private property at its 17th century scene

status that seems to have propelled the movement to its prominent place in American politics Remley uses Social Dominance Theory and the philosophical work of Jean Paul Sartre and Friedrich Nietzsche to look at how group formation and hierarchies have given rise to authoritarian leadership and how a tendency that can be best described and explained through Nietzsche's concept of resentment led to the anti foreign sentiment that rules American politics today **Re-Activating Critical Thinking in the Midst of Necropolitical Realities** Marina Gržinić, Jovita Pristovšek, 2022-03-09 This volume takes as its starting point the question of whether there is a pluriversal generation a younger group of scholars who do not necessarily collaborate or know each other but who are currently forming a radical structure that is viral in thought production and reflective on the current global recalibration of social relations brought about by the necropolitical and necrocapitalist governmentality emerging worldwide The 23 articles assembled in this volume transcend geographical boundaries conceive of the world as a single entity and develop strategies for radical change They are presented in five subchapters with two lines of demarcation one for entry invention and potentiality and the other for a grim threshold

"Into Life." Franz Rosenzweig on Knowledge, Aesthetics, and Politics, 2021-07-26 The articles collected in Into Life Franz Rosenzweig on Knowledge Aesthetics and Politics focus on the significance of Franz Rosenzweig's work far beyond the realms of theology and philosophy of religion They engage with a wide range of issues in philosophy and offer new insights both by presenting an array of unpublished and underestimated sources and by bringing Rosenzweig's thought into dialogue with new approaches and interlocutors such as Stanley Cavell William Alston Carl Schmitt and Martin Heidegger The result is a refreshing and original perspective on the work of one of the most significant thinkers of the twentieth century

Hegel, Freud and Fanon Stefan Bird-Pollan, 2014-12-22 Revolutionary theories from Marx onward have often struggled to unite the psychological commitments of individuals understood as ideological with the larger ethical or political goals of a social movement As a psychiatrist social theorist and revolutionary Frantz Fanon attempted to connect the ideological and the political Fanon's work gives both a psychological explanation of the origins of ideology and seeks to restore the individual to autonomy and political agency This book explores the deeper philosophical foundations of Fanon's project in order to understand the depths of Fanon's contribution to the theory of the subject and to social theory It also demonstrates how Fanon's model makes it possible to understand the political dimensions of Freudian psychoanalysis and the psychological dimensions of Hegel's social theory This is the first book to bring these two central dimensions of Fanon's thought into dialogue It uses Fanon's position to provide a deeper interpretation of key texts in Freud and Hegel and by uniting these three thinkers contributes to the creolization of all three thinkers Violence and the Philosophical Imaginary Ann V. Murphy, 2012-04-11 Images of violence enjoy a particular privilege in contemporary continental philosophy one manifest in the ubiquity of violent metaphors and the prominence of a kind of rhetorical investment in violence as a motif Such images have also informed constrained and motivated recent continental feminist theory In Violence and the Philosophical Imaginary

Ann V Murphy takes note of wide ranging references to the themes of violence and vulnerability in contemporary theory She considers the ethical and political implications of this language of violence with the aim of revealing other ways in which identity and the social bond might be imagined and encourages some critical distance from the images of violence that pervade philosophical critique
