Race, Class, and Power in the Alabama Coalfields, 1908-21 Brian Kelly, 2001 In this lucid and supremely readable study Brian Kelly challenges the prevailing notion that white workers were the main source of resistance to racial equality in the Jim Crow South Kelly explores the forces that brought the black and white miners of Birmingham Alabama together during the hard fought strikes of 1908 and 1920 He examines the systematic efforts by the region s powerful industrialists to foment racial divisions as a means of splitting the workforce preventing unionization and holding wages to the lowest levels in the country He also details the role played by Birmingham s small but influential black middle class whose espousal of industrial accommodation outraged black miners and revealed significant tensions within the African American community

Hugo Black of Alabama Steve Suits, 2017-03-01 Decades after his death the life and career of Supreme Court Justice Hugo L Black continue to be studied and discussed This definitive study of Black s origins and early influences has been 25 years in the making and offers fresh insights into the justice s character thought processes and instincts Black came out of hardscrabble Alabama hill country and he never forgot his origins He was further shaped in the early 20th century politics of Birmingham where he set up a law practice and began his political career eventually rising to the U S Senate from which he was selected by FDR for the high court Black s nomination was opposed partly on the grounds that he had been a member of the Ku Klux Klan One of the book s conclusions that is sure to be controversial is that in the context of Birmingham in the early 1920s Black s joining of the KKK was a progressive act This startling assertion is supported by an examination of the conflict that was then raging in Birmingham between the Big Mule industrialists and the blue collar labor unions Black of course went on to become a staunch judicial advocate of free speech and civil rights thus making him one of the figures most vilified by the KKK and other white supremacists in the 1950s and 1960s *Bridgeport's Socialist New Deal, 1915-36*

Cecelia Bucki, 2001 A backdrop to the evolving national developments of the New Deal this study stands at the intersection of political labor and ethnic history and provides a new perspective on how working people affected urban politics in the interwar era **BOOK JACKET** *Shadow of the Racketeer* David Scott Witwer, 2009 A detailed account of labor corruption in the 1930s and the zealous journalist who railed against it *Labor's Cold War* Shelton Stromquist, 2008 How the Cold War

affected local level union politics **Smokestacks in the Hills** Lou Martin, 2015-10-15 Long considered an urban phenomenon industrialization also transformed the American countryside Lou Martin weaves the narrative of how the relocation of steel and pottery factories to Hancock County West Virginia created a rural and small town working class and what that meant for communities and for labor As Martin shows access to land in and around steel and pottery towns allowed residents to preserve rural habits and culture Workers in these places valued place and local community Because of their belief in localism an individualistic ethic of making do and company loyalty they often worked to place limits on union influence At the same time this localism allowed workers to adapt to the dictates of industrial capitalism and a continually changing world on their own terms and retain rural ways to a degree unknown among their urbanized peers Throughout Martin ties these themes to illuminating discussions of capital mobility the ways in which changing work experiences defined gender roles and the persistent myth that modernizing forces bulldozed docile local cultures Revealing and incisive **Smokestacks in the Hills** reappraises an overlooked stratum of American labor history and contributes to the ongoing dialogue on shifts in national politics in the postwar era **The Tribe of Black Ulysses** William Powell Jones, 2005 The lumber industry employed more African American men than any southern economic sector outside agriculture yet those workers have been almost completely ignored by scholars Drawing on a substantial number of oral history interviews as well as on manuscript sources local newspapers and government documents **The Tribe of Black Ulysses** explores black men and women's changing relationship to industrial work in three sawmill communities Elizabethtown South Carolina Chapman Alabama and Bogalusa Louisiana By restoring black lumber workers to the history of southern industrialization William P Jones reveals that industrial employment was not incompatible as previous historians have assumed with the racial segregation and political disfranchisement that defined African American life in the Jim Crow South At the same time he complicates an older tradition of southern sociology that viewed industrialization as socially disruptive and morally corrupting to African American social and cultural traditions rooted in agriculture William P Jones is an assistant professor of history at the University of Wisconsin Milwaukee Barrett Alice Kessler Harris David Montgomery and Nelson Lichtenstein

Guest Workers and Resistance to U.S. Corporate Despotism Immanuel Ness, 2011-09-01 Political scientist Immanuel Ness thoroughly investigates the use of guest workers in the United States the largest recipient of migrant labor in the world Ness argues that the use of migrant labor is increasing in importance and represents despotic practices calculated by key U S business leaders in the global economy to lower labor costs and expand profits under the guise of filling a shortage of labor for substandard or scarce skilled jobs Drawing on ethnographic field research government data and other sources Ness shows how worker migration and guest worker programs weaken the power of labor in both sending and receiving countries His in depth case studies of the rapid expansion of technology and industrial workers from India and hospitality workers from Jamaica reveal how these programs expose guest workers to employers abuses and class tensions in

their home countries while decreasing jobs for American workers and undermining U S organized labor Where other studies of labor migration focus on undocumented immigrant labor and contend immigrants fill jobs that others do not want this is the first to truly advance understanding of the role of migrant labor in the transformation of the working class in the early twenty first century Questioning why global capitalists must rely on migrant workers for economic sustenance Ness rejects the notion that temporary workers enthusiastically go to the United States for low paying jobs Instead he asserts the motivations for improving living standards in the United States are greatly exaggerated by the media and details the ways organized labor ought to be protecting the interests of American and guest workers in the United States **On the Ground**

Making Capitalism Safe Donald Wayne Rogers,2009 Workplaces in the United States are safer today than they were a hundred and twenty years ago In this book Donald W Rogers attributes this improvement partly to the development in the Progressive Era of surprisingly strong state level work safety and health regulatory agencies a patchwork of commissions and labor departments that advanced safety law from common law negligence to the modern system of administrative regulation Rogers examines the Wisconsin Industrial Commission and compares it to arrangements in Ohio California New York Illinois and Alabama Connecting this history to the creation of the Occupational Safety and Health Administration in 1970 *Making Capitalism Safe* will revise historical understandings of state regulation compensation insurance and labor law politics issues that remain pressing in our time *A Renegade Union* Lisa Phillips,2012-12-30 Dedicated to organizing workers from diverse racial ethnic and religious backgrounds many of whom were considered unorganizable by other unions the progressive New York City based labor union District 65 counted among its 30 000 members retail clerks office workers warehouse workers and wholesale workers In this book Lisa Phillips presents a distinctive study of District 65 and its efforts to secure economic equality for minority workers in sales and processing jobs in small low end shops and warehouses throughout the city Phillips shows how organizers fought tirelessly to achieve better hours and higher wages for unskilled unrepresented workers and to destigmatize the kind of work they performed Closely examining the strategies employed by District 65 from the 1930s through the early Cold War years Phillips assesses the impact of the McCarthy era on the union s quest for economic equality across divisions of race ethnicity and skill Though their stories have been overshadowed by those of auto steel and electrical workers who forced American manufacturing giants to unionize the District 65 workers believed their union provided them with an opportunity to re value their work the result of an economy inclining toward fewer manufacturing jobs and more low wage service and processing jobs Phillips recounts how District 65 first broke with the CIO over the latter s hostility to left oriented politics and organizing agendas then rejoined to facilitate alliances with the NAACP In telling the story of District 65 and detailing community organizing efforts during the first part of the Cold War and under the AFL CIO umbrella *A Renegade Union* continues to revise the history of the left led unions of the Congress of Industrial

Organizations **Manhood on the Line** Stephen Meyer, 2016-04-15 Stephen Meyer charts the complex vagaries of men reinventing manhood in twentieth century America Their ideas of masculinity destroyed by principles of mass production workers created a white dominated culture that defended its turf against other racial groups and revived a crude hypersexualized treatment of women that went far beyond the shop floor At the same time they recast unionization battles as manly struggles against a system killing their very selves Drawing on a wealth of archival material Meyer recreates a social milieu in stunning detail the mean labor and stolen pleasures the battles on the street and in the soul and a masculinity that expressed itself in violence and sexism but also as a wellspring of the fortitude necessary to maintain one's dignity while doing hard work in hard world **Making the World Safe for Workers** Elizabeth McKillen, 2013-10-30 In this intellectually ambitious study Elizabeth McKillen explores the significance of Wilsonian internationalism for workers and the influence of American labor in both shaping and undermining the foreign policies and war mobilization efforts of Woodrow Wilson's administration McKillen highlights the major fault lines and conflicts that emerged within labor circles as Wilson pursued his agenda in the context of Mexican and European revolutions World War I and the Versailles Peace Conference As McKillen shows the choice to collaborate with or resist U S foreign policy remained an important one for labor throughout the twentieth century In fact it continues to resonate today in debates over the global economy wars in Iraq and Afghanistan and the impact of U S policies on workers at home and abroad **Man of Fire** Ernesto Galarza, 2013-05-15 Activist labor scholar and organizer Ernesto Galarza 1905-1984 was a leading advocate for Mexican Americans and one of the most important Mexican American scholars and activists after World War II This volume gathers Galarza's key writings reflecting an intellectual rigor conceptual clarity and a constructive concern for the working class in the face of America's growing influence over Mexico's economic system Throughout his life Galarza confronted and analyzed some of the most momentous social transformations of the twentieth century Inspired by his youthful experience as a farm laborer in Sacramento he dedicated his life to the struggle for justice for farm workers and urban working class Latinos and helped build the first multiracial farm workers union setting the foundation for the emergence of the United Farm Workers Union He worked to change existing educational philosophies and curricula in schools and his civil rights legacy includes the founding of the Mexican American Legal Defense Fund MALDEF and the National Council of La Raza NCLR In 1979 Galarza was the first U S Latino to be nominated for the Nobel Prize in Literature for works such as *Strangers in Our Fields* *Merchants of Labor* *Barrio Boy* and *Tragedy at Chualar* *Sweet Tyranny* Kathleen Mapes, 2010-10-01 In this innovative grassroots to global study Kathleen Mapes explores how the sugar beet industry transformed the rural Midwest by introducing large factories contract farming and foreign migrant labor Identifying rural areas as centers for modern American industrialism Mapes contributes to an ongoing reorientation of labor history from urban factory workers to rural migrant workers She engages with a full range of individuals including Midwestern family farmers industrialists Eastern European and Mexican immigrants

child laborers rural reformers Washington politicians and colonial interests Engagingly written *Sweet Tyranny* demonstrates that capitalism was not solely a force from above but was influenced by the people below who defended their interests in an ever expanding imperialist market The Great Black Migration Steven A. Reich, 2014-04-17 Treating broad themes as well as specific topics this guide to the Great Black Migration will introduce high school students to a touchstone critical to shaping the history of African Americans in the United States The movement of Southern blacks to the urban North and West over the course of the 20th century had a profound impact on black life affecting everything from politics and labor to literature and the popular arts This encyclopedia provides readers and researchers with a comprehensive reference work on this central topic of African American history exploring the breadth of the black migration experience from its origins in the agricultural economy of the post Civil War South to the return migration of the late 20th century Entries cover such topics as the destinations that attracted black migrants the impact of the Great Migration on black religion the relationship between migration and black politics and the patterns of discrimination and racial violence migrants encountered Unlike more general reference works on African American history each entry in the encyclopedia situates its subject within the context of black migration and articulates connections between the subject of the entry and the overall history of the migration **Banded Together** Jeremy Brecher, 2011-05 Chiefly concerned with 1980s and 1990s Workers in Hard Times Leon Fink, Joseph A. McCartin, Joan Sangster, 2014-02-15 Seeking to historicize the 2007 2009 Great Recession this volume of essays situates the current economic crisis and its impact on workers in the context of previous abrupt shifts in the modern day capitalist marketplace Contributors use examples from industrialized North America South America Europe Asia and Australia to demonstrate how workers and states have responded to those shifts and to their disempowering effects on labor Since the Industrial Revolution contributors argue factors such as race sex and state intervention have mediated both the effect of economic depressions on workers lives and workers responses to those depressions Contributors also posit a varying dynamic between political upheaval and economic crises and between workers and the welfare state The volume ends with an examination of today's Great Recession its historical distinctiveness its connection to neoliberalism and its attendant expressions of worker status and agency around the world A sobering conclusion lays out a likely future for workers one not far removed from the instability and privation of the nineteenth century The essays in this volume offer up no easy solutions to the challenges facing today's workers Nevertheless they make clear that cogent historical thinking is crucial to understanding those challenges and they push us toward a rethinking of the relationship between capital and labor the waged and unwaged and the employed and jobless Contributors are Sven Beckert Sean Cadigan Leon Fink Alvin Finkel Wendy Goldman Gaetan Heroux Joseph A. McCartin David Montgomery Edward Montgomery Scott Reynolds Nelson Melanie Nolan Bryan D. Palmer Joan Sangster Judith Stein Hilary Wainwright and Lu Zhang *Spirit of Rebellion* Jarod Roll, 2010-04-15 Winner of the Herbert G. Gutman Prize from the Labor and Working Class History Association In *Spirit of*

Rebellion Jarod Roll documents an alternative tradition of American protest by linking working class political movements to grassroots religious revivals He reveals how ordinary rural citizens in the south used available resources and their shared faith to defend their agrarian livelihoods amid the political and economic upheaval of the first half of the twentieth century On the frontier of the New Cotton South in Missouri s Bootheel the relationships between black and white farmers were complicated by racial tensions and bitter competition Despite these divisions workers found common ground as dissidents fighting for economic security decent housing and basic health ultimately drawing on the democratic potential of evangelical religion to wage working class revolts against commodity agriculture and the political forces that buoyed it Roll convincingly shows how the moral clarity and spiritual vigor these working people found in the burgeoning Pentecostal revivals gave them the courage and fortitude to develop an expansive agenda of workers rights by tapping into the powers of existing organizations such as the Socialist Party the Universal Negro Improvement Association the NAACP and the interracial Southern Tenant Farmers Union
