Understanding 'race' and ethnicity Craig, Gary, Atkin, Karl, 2012-02-22 Many welfare states are now struggling to deal with the issues and tensions raised by the growth of minority ethnic populations and increasing ethnic diversity The fact that most societies in the developed world are now multicultural raises many challenges for policy and for the delivery of welfare services which most states have yet to address retreating into forms of institutional racism to deny minorities the services they need Using the UK as an exemplary case study this much needed book combines historical and theoretical approaches to the issue of race and ethnicity within welfare provision including an examination of how minorities experience welfare in a range of service settings The book inspires new ways of approaching welfare and social policy in

Race Politics in Britain and France Erik Bleich,2003-05-26 Britain and France have developed substantially different policies to manage racial tensions since the 1960s in spite of having similar numbers of post war ethnic minority immigrants This book provides the first detailed historical exploration of race policy development in these two countries In this path breaking work Bleich argues against common wisdom that attributes policy outcomes to the role of powerful interest groups or to the constraints of existing institutions instead emphasizing the importance of frames as widely held ideas that propelled policymaking in different directions British policymakers framing of race and racism principally in North American terms of color discrimination encouraged them to import many policies from across the Atlantic For decades after WWII by contrast French policy leaders framed racism in terms influenced largely by their Vichy past which encouraged policies designed primarily to counter hate speech while avoiding the recognition of race found across the English Channel

Black Star Anandi Ramamurthy, 2013-09-05 *Black Star* documents the vibrant Asian Youth Movements in 1970s and 80s Britain who struggled against the racism of the street and the state Anandi Ramamurthy shows how they drew inspiration from Black Power movements as well as anti imperialist and workers struggles across the globe This book is populated by landmark events in anti racist struggle from the Grunwick strike to the Handsworth riots and the acquittal of the Bradford 12 Ramamurthy writes of the evolution of a politicised Asian youth in Britain focussing particularly on how the struggle to make Britain home led to the conception of a broad based identity inspiring unity amongst all those struggling against racism political blackness Ramamurthy documents how by the late 1980s this broad based black identity disintegrated as Islamophobia became a new form of racism and how in the process the legacy of the Asian Youth Movements has been largely hidden *Black Star* retrieves this history and demonstrates its importance for political struggles today **Class,**

Politics, and the Decline of Deference in England, 1968-2000 Florence Sutcliffe-Braithwaite, 2018-02-23 In late twentieth century England inequality was rocketing yet some have suggested that the politics of class was declining in significance while others argue that class identities lost little power Neither interpretation is satisfactory class remained important to ordinary people's narratives about social change and their own identities throughout the period 1968-2000 but in changing ways Using self narratives drawn from a wide range of sources the raw materials of sociological studies transcripts from oral history projects Mass Observation and autobiography the book examines class identities and narratives of social change between 1968 and 2000 showing that by the end of the period class was often seen as an historical identity related to background and heritage and that many felt strict class boundaries had blurred quite profoundly since 1945 Class snobberies went underground as many people from all backgrounds began to assert that what was important was authenticity individuality and ordinariness In fact Sutcliffe Braithwaite argues that it is more useful to understand the cultural changes of these years through the lens of the decline of deference which transformed people's attitudes towards class and towards politics The study also examines the claim that Thatcher and New Labour wrote class out of politics arguing that this simple and highly political narrative misses important points Thatcher was driven by political ideology and necessity to try to dismiss the importance of class while the New Labour project was good at listening to voters particularly swing voters in marginal seats and echoing back what they were increasingly saying about the blurring of class lines and the importance of ordinariness But this did not add up to an abandonment of a majoritarian project as New Labour reoriented their political project to emphasize using the state to empower the individual

[Black British Intellectuals and Education](#) Paul Warmington, 2014-02-24 Ask any moderately interested Briton to name a black intellectual and chances are the response will be an American name Malcolm X or Barack Obama Toni Morrison or Cornel West Yet Britain has its own robust black intellectual traditions and its own master teachers among them C L R James Claudia Jones Ambalavaner Sivanandan Stuart Hall and Paul Gilroy However while in the USA black public intellectuals are an embedded if often embattled feature of national life black British thinkers remain routinely marginalized Black British Intellectuals and Education counters this neglect by exploring histories of race education and social justice through the work of black British public intellectuals academics educators and campaigners The book provides a critical history of diverse currents in black British intellectual production from the eighteenth century through post war migration and into the post multicultural present focusing on the sometimes hidden impacts of black thinkers on education and social justice Firstly it argues that black British thinkers have helped fundamentally to shape educational policy practice and philosophy particularly in the post war period Secondly it suggests that education has been one of the key spaces in which the mass consciousness of being black and British has emerged and a key site in which black British intellectual positions have been defined and differentiated Chapters explore the early development of black British intellectual life from the slave narratives to the anti colonial movements of the early

twentieth century how African Caribbean and Asian communities began to organize against racial inequalities in schooling in the post Windrush era of the 1950s and 60s how from out of these grassroots struggles black intellectuals and activists of the 1970s 80s and 90s developed radical critiques of education youth and structural racism the influence of multiculturalism black cultural studies and black feminism on education current developments in black British educational work including post racial approaches Critical Race Theory and black social conservatism Black British Intellectuals and Education will be of key relevance to undergraduates postgraduates and academics engaged in research on race ethnicity education social justice and cultural studies The Oxford Textbook on Criminology Stephen Case, Steve Case, David Manlow, Philip Johnson, Kate Williams, Roger Smith, 2021 The Oxford Textbook on Criminology has been developed by a team of experts to equip you with the knowledge confidence skills and enthusiasm you need to achieve your full potential as a criminologist Back cover
