A Race's Redemption John Leard Dawson, 1912 *Race in American Science Fiction* Isiah Lavender (III.), 2011-02-08
Noting that science fiction is characterized by an investment in the proliferation of racial difference Isiah Lavender III argues that racial alterity is fundamental to the genre's narrative strategy *Race in American Science Fiction* offers a systematic classification of ways that race appears and how it is silenced in science fiction while developing a critical vocabulary designed to focus attention on often overlooked racial implications These focused readings of science fiction contextualize race within the genre's better known master narratives and agendas Authors discussed include Isaac Asimov Ray Bradbury Philip K Dick and Ursula K Le Guin among many others *Running to Win the Race* Jesten Peters, 2012-07-23 In Jestens study from Bible college to seminary and serving in local churches and ministries for over forty years she has observed many Christians who have not been able to grow in their faith and walk with the Lord This book is a call back to the basics of Christian life Jesten begins by laying a foundation of the Word precept upon precept and line upon line which she calls connecting the dots Jesten also covers how we can get our hearts and minds ready to receive the Word And finally she teaches on taking the keys of the Word and applying them in our everyday lives **Race of Aces** John R Bruning, 2020-01-14
The astonishing untold story of the WWII airmen who risked it all in the deadly race to become the greatest American fighter pilot In 1942 America's deadliest fighter pilot or ace of aces the legendary Eddie Rickenbacker offered a bottle of bourbon to the first U S fighter pilot to break his record of twenty six enemy planes shot down Seizing on the challenge to motivate his men General George Kenney promoted what they would come to call the race of aces as a way of boosting the spirits of his war weary command What developed was a wild three year sprint for fame and glory and the chance to be called America's greatest fighter pilot The story has never been told until now Based on new research and full of revelations John Bruning's brilliant original book tells the story of how five American pilots contended for personal glory in the Pacific while leading Kenney's resurgent air force against the most formidable enemy America ever faced The pilots Richard Bong Tommy McGuire Neel Kearby Charles MacDonald and Gerald Johnson riveted the nation as they contended for Rickenbacker's crown As their scores mounted they transformed themselves from farm boys and aspiring dentists into artists of the modern dogfight But as the race reached its climax some of the pilots began to see how the spotlight warped their sense of duty They emerged as leaders beloved by their men as they chose selfless devotion over national accolades Teeming with action all across the vast Pacific theater *Race of Aces* is a fascinating exploration of the boundary between honorable duty personal glory and the complex landscape of the human heart Brings you into the cockpit of the lethal fast paced world of fighter pilots Fascinating Sara Vladic Extraordinary a must read US Navy Captain Dan Pedersen A heart pounding narrative of the courage sacrifice and tragedy of America's elite fighter pilots James M Scott Vivid and gripping Confirms Bruning's status as the premier war historian of the air Saul David **The Space Race** Alex Latimer, 2013-09-01 Vast Our very own nuclear

testing site so far into the desert that the Russians and the Americans don't even have a clue about it. You don't mess with an Afrikaner, not if you don't want to get a proper klap. An unauthorised nuclear blast beyond belief at Vastrap Airbase outside Uppington not only winds up the Americans but also launches Africa's first spacecraft. Propelled by an engine harnessing the power of a nuclear bomb never disarmed in the eighties, the rocket leaves Earth without its pilot or crew. But how did this spaceship, designed by the previous government to extend the Afrikaner's history as a nation of pioneers, survive? And more pressingly, who's working its joystick? Small time journalist Greg Hall sets out to uncover the details of the ship that has captured the world's imagination. In the wreckage of the blast, he discovers a man badly burnt and almost dead. A man who has an alarming story to tell and a frightening plan of his own. Funny and thrilling. *The Space Race* twinkles with its author's humour and trademark irony.
