Situates the linkage between race and the death penalty in the history of the U S Since 1976 over forty percent of prisoners executed in American jails have been African American or Hispanic This trend shows little evidence of diminishing and follows a larger pattern of the violent criminalization of African American populations that has marked the country s history of punishment In a bold attempt to tackle the looming question of how and why the connection between race and the death penalty has been so strong throughout American history Ogletree and Sarat headline an interdisciplinary cast of experts in reflecting on this disturbing issue Insightful original essays approach the topic from legal historical cultural and social science perspectives to show the ways that the death penalty is racialized the places in the death penalty process where race makes a difference and the ways that meanings of race in the United States are constructed in and through our practices of capital punishment From Lynch Mobs to the Killing State not only uncovers the ways that race influences capital punishment but also attempts to situate the linkage between race and the death penalty in the history of this country in particular the history of lynching In its probing examination of how and why the connection between race and the death penalty has been so strong throughout American history this book forces us to consider how the death penalty gives meaning to race as well as why the racialization of the death penalty is uniquely American      **Women and Capital Punishment in the United States** David V.

Baker, 2015-11-26 The history of the execution of women in the United States has largely been ignored and scholars have given scant attention to gender issues in capital punishment This historical analysis examines the social political and economic contexts in which the justice system has put women to death revealing a pattern of patriarchal domination and female subordination The book includes a discussion of condemned women granted executive clemency and judicial commutations an inquiry into women falsely convicted in potentially capital cases and a profile of the current female death row population **Racial and Geographic Disparities in the Federal Death Penalty System** United States. Clubb, 2009-01-01 In *Race Class and the Death Penalty* Howard W. Allen and Jerome M. Clubb examine historical trends in the use of capital punishment in the United States Employing empirical data the authors explore how frequently the death penalty has been used and how its frequency of use has changed where the death penalty was used most often the offenses charged and the characteristics of the executed Not surprisingly their findings indicate that minority groups particularly African Americans and those of lower social and economic status in general have been executed in disproportionate numbers The authors conclude that while the use of the death penalty has progressively declined and the range of capital offenses has narrowed disparities in the use of capital punishment between social groups and regions that appeared in the colonial period have persisted into the twenty first century Encyclopedia of Capital Punishment in the United States, 2d ed. **Racist America** Joe R. Feagin, Kimberley Ducey, 2025-07-04 The fifth edition of Racist America is thoroughly revised and updated focusing on systemic racism and antiracism issues especially those arising since the fourth edition 2019 Expanding the discussion on racialized intersectionality as well as on the white racial frame elite white male dominance system and antiracist action this book details how these racism realities continue to impact black Latino Asian Indigenous and white Americans The book explains how and why the Black Lives Matter movement and other antiracist protests have erupted how and why Latino Asian and Indigenous Americans have responded to expanding racist discrimination and how and why a

diverse array of Americans has demanded major societal responses to dismantle entrenched white racism *Killing with Prejudice* R.J. Maratea, 2019-03-26 A history of the McCleskey v Kemp Supreme Court ruling that effectively condoned racism in capital cases In 1978 Warren McCleskey a black man killed a white police officer in Georgia He was convicted by a jury of 11 whites and 1 African American and was sentenced to death Although McCleskey's lawyers were able to prove that Georgia courts applied the death penalty to blacks who killed whites four times as often as when the victim was black the Supreme Court upheld the death sentence in McCleskey v Kemp thus institutionalizing the idea that racial bias was acceptable in the capital punishment system After a thirteen year legal journey McCleskey was executed in 1991 In *Killing with Prejudice* R J Maratea chronicles the entire litigation process which culminated in what has been called the Dred Scott decision of our time Ultimately the Supreme Court chose to overlook compelling empirical evidence that revealed the discriminatory manner in which the assailants of African Americans are systematically undercharged and the aggressors of white victims are far more likely to receive a death sentence He draws a clear line from the lynchings of the Jim Crow era to the contemporary acceptance of the death penalty and the problem of mass incarceration today The McCleskey decision underscores the racial socioeconomic and gender disparities in modern American capital punishment and the case is fundamental to understanding how the death penalty functions for the defendant victims and within the American justice system as a whole

**White Supremacy and Racism in the Post-civil Rights Era** Eduardo Bonilla-Silva, 2001 Is a racial structure still firmly in place in the United States White Supremacy and Racism answers that question with an unequivocal yes describing a contemporary system that operates in a covert subtle institutional and superficially nonracial fashion Assessing the major perspectives that social analysts have relied on to explain race and racial relations Bonilla Silva labels the post civil rights ideology as color blind racism a system of social arrangements that maintain white privilege at all levels His analysis of racial politics in the United States makes a compelling argument for a new civil rights movement rooted in the race class needs of minority masses multiracial in character and focused on attaining substantive rather than formal equality Racial Issues in Criminal Justice Marvin D. Free, 2003-09-30 Almost a third of all African American men in their twenties in the United States are in jail or prison or on probation or parole African Americans who comprise approximately 13% of the general population make up about half of the prison population Between 1980 and 2000 38 states added more African American men to their prison systems than were added to their respective systems of higher education However these statistics fail to tell the entire story To understand how the dynamics of disproportionate minority confinement came to exist one must examine the historical and cultural antecedents that affected and continue to affect this group Examining proposed solutions and providing alternative perspectives this volume addresses the overrepresentation of African Americans in the criminal justice system by critically examining the significance of race in American society and criminal justice responses to crime and African Americans Offering a critical examination of the issues this collection begins with a discussion of the marginalization of African

Americans in the academic discipline of criminal justice and in the larger society an assessment of the impact of the legacy of slavery on private prisons and mass imprisonment and an empirical examination of the depiction of African Americans in prime time television crime programs Part II looks at racial profiling the underrepresentation of African Americans in hate crime victimization research the impact of race on presentencing the trend toward trying juveniles in adult court and the discriminatory treatment of African Americans in capital eligible cases Finally Part III discusses the impact of African American police officers on the profession analyzes black juror nullification proposes an increase in the presence of African American jurors and assesses the potential ameliorative impact of restorative justice on the current racial imbalance in the criminal justice system      **The Political Roots of Racial Tracking in American Criminal Justice** Nina M.

Moore,2015-01-26 The race problem in the American criminal justice system persists because we enable it The tendency of liberals to point a finger at law enforcement racial conservatives the War on Drugs is misguided Black as well as white voters Democrat as much as Republican lawmakers President Obama as much as Reagan both Congress and the Supreme Court alike all are implicated We all are The Man Whether the problem is defined in terms of blacks overrepresentation in prisons or in terms of the disproportional use of deadly police force against blacks not enough of us demand that something be done The Political Roots of Racial Tracking in American Criminal Justice is the story of how the race problem in criminal justice is continually enabled in the national crime policy process and why      *Congressional Record* United States. America Without the Death Penalty John F. Galliher,Larry W. Koch,David Patrick Keys,Teresa J. Guess,2005 In 2000 Governor George Ryan of Illinois a Republican and a supporter of the death penalty declared a moratorium on executions in his state In 2003 he commuted the death sentences of all Illinois prisoners on death row Ryan contended that the application of the death penalty in Illinois had been arbitrary and unfair and he ignited a new round of debate over the appropriateness of execution Nationwide surveys indicate that the number of Americans who favor the death penalty is declining As the struggle over capital punishment rages on twelve states and the District of Columbia have taken bold measures to eliminate the practice This landmark study is the first to examine the history and motivations of those jurisdictions that abolished capital punishment and have resisted the move to reinstate death penalty statutes      *Machinery of Death* David R.
