The Encyclopedia of Libertarianism Ronald Hamowy, 2008-08-15 As a continuation of the older tradition of classical liberalism libertarian thinking draws on a rich body of thought and scholarship Contemporary libertarian scholars are continuing that tradition by making substantial contributions to such fields as philosophy jurisprudence economics evolutionary psychology political theory and history in both academia and politics With more than 300 A to Z signed entries written by top scholars The Encyclopedia of Libertarianism is purposed to be a useful compilation of and introduction to libertarian scholarship The Encyclopedia starts with an introductory essay offering an extensive historical and thematic overview of key thinkers events and publications in the development of libertarian thought The Reader's Guide groups content for researchers and students alike allowing them to study libertarianism topically biographically and by public policy issues Key Features Entries conclude with bibliographies and references for further reading and cross references to related entries Each entry provides an introduction to a topic or policy question relevant to libertarianism or a biography of a person who has had an impact on libertarianism Editors take special care to ensure entries clearly explain libertarian approaches to issues do not take sides on disputed matters or engage in polemics and represent the views of all sides fairly and accurately

Health Equity in a Globalizing Era Ronald Labonté, Arne Ruckert, 2019-03-14 Why do some countries and populations suffer from poverty and ill health whilst others are more prosperous and healthy What are the inherently global trans border issues that affect inequities in disease burden and health opportunities for individuals and nations Traditionally the focus of global health has been international health the concern for high burdens of disease in generally low income countries To answer these questions however we need to modernise our understanding of globalization as a phenomenon *Health Equity in a Globalizing Era* Past Challenges Future Prospects examines how globalization processes since the onset of neoliberalism affect equity in global health outcomes and emphasises access to important social determinants of health With a basis in political economy the book covers key globalization concepts and theory and presents a thorough background to the field Case studies illustrations and new research all combine to make this title a comprehensive and current discussion of the various pathways that connect globalization to health equity outcomes It looks at changes in migration labour markets trade and investment rules international development assistance health systems infectious and non communicable disease risks environmental health and gendered aspects of globalization's health dialectic In addition it argues for a reform of the global governance structure the significant role of human rights and the importance of a strong civil society in achieving greater social justice in health Ideal for senior undergraduate and graduate students in global health programs global health scholars and practitioners in government policy and health development NGOs *Health Equity in a Globalizing Era* Past Challenges Future Prospects is a significant contribution to our new

understanding of globalization and global public health The Fullness of Time in a Flat World Scott Waalkes, 2010-01-01 Best selling author Thomas Friedman says that globalization has made the world flat and that we cannot stop the process But while it is right to say that globalization tends to flatten our world it is wrong to say that there are no alternatives to current patterns of economic ecological political and cultural integration This book argues that the Christian liturgical calendar provides a constructive alternative to the globalization of economics ecologies politics and cultures It does so by incorporating the church into the fullness of time in the gospel narrative thereby helping us escape from the dead end of Friedman s flat world so that we can improvise healthier ways of being globally integrated **The Routledge Handbook of Poverty in the Global South** Rajendra Baikady, John Gal, Varoshini Nadesan, Sajid S.M., Gao Jianguo, 2023-12-01 This handbook initiates fresh debates on poverty and its impact in a constantly changing Global South society It studies the concept theories and causes of poverty as well as the design and delivery of social welfare policies related to specific groups such as women children and the elderly The chapters are theoretical evidence based and empirical in nature and bring together a holistic understanding of social problems and issues in developing countries The volume brings together researchers educators and practitioners from across the globe to develop a hands on reference work that will be requisite for several social science disciplines concerned with poverty and the welfare of poor people The first of its kind the handbook will be indispensable for scholars and researchers of development studies economics social work political studies poverty studies population and demographic studies sociology social anthropology public policy and political economy especially those concerned with the Global South **Animals in International Law** Anne Peters, 2021-05-25 The plight of animal individuals and species inflicted on them by human activity is a global problem with detrimental repercussions for all humans and for the entire planet This book gives an overview of the most important international legal regimes that directly address and indirectly affect animals It covers species conservation treaties notably the international whaling regime the farm animal protection rules of the EU international trade law and the international law of armed conflict It also analyses the potential for an international regime of animal rights Finding that international law creates more harm than good for animals the author suggests progressive treaty interpretation treaty making and animal interest representation to close the animal welfare gap in international law A body of global animal law needs to be developed accompanied by critical global animal studies *The Political Impossibility of Modern Counterinsurgency* M.L.R. Smith, David Martin Jones, 2015-05-19 The counterinsurgency COIN paradigm dominates military and political conduct in contemporary Western strategic thought It assumes future wars will unfold as low intensity conflicts within rather than between states requiring specialized military training and techniques COIN is understood as a logical effective and democratically palatable method for confronting insurgency a discrete set of practices that through the actions of knowledgeable soldiers and under the guidance of an expert elite creates lasting results Through an extensive investigation into COIN s theories methods and outcomes this book undermines enduring claims about

COIN's success while revealing its hidden meanings and effects. Interrogating the relationship between counterinsurgency and war, the authors question the supposed uniqueness of COIN's attributes and try to resolve the puzzle of its intellectual identity. Is COIN a strategy, a doctrine, a theory, a military practice, or something else? Their analysis ultimately exposes a critical paradox within COIN: while it ignores the vital political dimensions of war, it is nevertheless the product of a misplaced ideological faith in modernization.

Challenges and Prospects in African Education Systems Soji Oni, 2013-11-14

Challenges and Prospects in African Education System The general idea this book is trying to disseminate is to inform readers about the compelling challenges and prospects in African system of education. As we all know, when issues of Africa's educational system are raised, the first set of thoughts that come to mind is decline in standards, deterioration of facilities, examination malpractices, cult crises, or school-based violence, shortage of teachers, underqualified teachers, and poor teachers' performance, which results in poor learning standards, lack of classroom discipline that is exacerbated by insufficient resources and inadequate infrastructure, failure of appropriate inspection and monitoring, and confusion caused by changing curricula without proper communication and training. All these have led to massive demoralization and disillusionment among teachers and a negative and worsening perception of African system of education. This therefore calls for in-depth analysis aimed at tutoring every stakeholder in education on how their action and inactions have individually and collectively contributed to the collapsing state of education in Africa. However, the prospect is that Africa's recovery and sustainable development can only be guaranteed through expansion and sustenance of both quantitative and qualitative aspects of the continent's stock of human capital through education. In order for education to realize its key role in development, it must be provided to the younger segments of African society as quickly as human and financial resources permit, with the ultimate goal of developing a comprehensive, meaningful, and sustainable system of education at all levels and for all age groups. This is the message that this book puts across in the six knitted sections.

Russia in Transition Feng-Yung Hu, 2014-07-08

Russia in Transition: Regional Integration, Media Censorship, and Culture Institutes is an attempt to discuss the context of transition in the period of the last two decades in Russia and give the panorama of Putin's ruling ideology in national and social development by examining his regional policy and media policy both diplomatically and domestically. Russia-China relations will be the crucial defining factor in terms of international security in the Asian Pacific region and as such are discussed in detail in this volume. The book is a result of a research program sponsored by the National Science Council, Ministry of Foreign Affairs, Yuan Ze University, Taiwan, ROC, and the Asian Studies Program at Georgetown University, DC, USA. The book is also attributed to the Major Research Project of the Center for China-Russia Creative Collaboration on Humanity and Social Science No. 2012ZD010, 2012ZD010, and to the project of 18th IAICS 2012 Annual Convention at YZU in Taiwan. This book is also the international co-project of YZU MGIMO Forum, the international research program of the Charhar Institute, the Program for Promoting Teaching Excellence of Universities, and Taiwan Foundation on Asian Pacific Peace Studies, APS R.

O C Social Change and the Global Environment Lynn Shields & Leslie Armstrong, 2018-08-22 Over the last two decades radical transformations have been taking place in the social and economic systems Through the process of globalization increased opportunities exist for some but disenfranchisement and social dislocations for the great majority are also increasing Globalization has produced tension between traditional bases of livelihood and emerging export oriented commercial production of non traditional items And finally globalization has contributed a great deal in deepening the distinction between work and leisure and defining the contours of leisure s activities Providing a number of empirical and historical studies of leisure from different cultures this will be of immense book to the students of social sciences and humanities It is useful for all those students social scientists and policy makers who are interested in analyzing social change in the light of this unstoppable process of globalization
