Transforming Malaysia Anthony Milner, Abdul Rahman Embong, Tham Siew

Yean, 2014-02-28 In the wake of Malaysia's 13th General Election some commentators speak of a sharpening of ethnic politics

with Prime Minister Najib blaming a Chinese tsunami for his government's polling setbacks others are optimistic about the arrival of a new non racialized form of politics and the emergence of transethnic solidarity This book which engages with both the race paradigm and its opponents warns that change is likely to come slowly but is not impossible Malaysia's race paradigm is a man made ideological construct one that has been contested in the past and could realistically be contested in the future In confronting the continuing challenge of globalization Malaysians should not neglect the history of ideas and ideology as they search for new options

Authoritarian Populism in Malaysia A. Munro-Kua, 1996-11-13 Socio economic and political issues are dealt with selectively within a chronological historical framework covering the dramatic colonial impact of 1940-60 until the present day The state is examined from the point of view of social class as well as communalism to explain the dominance of the ruling coalition over the 37 years since independence The author argues that authoritarian populism is the concept that best fits the apparent paradox of an enduring regime via the ballot box and the extensive restrictions on the scope of democracy particularly through the repressive apparatus of detention without trial The underlying theme is a critique and explanation of Malaysia's human rights record

The Roots of Resilience Meredith L. Weiss, 2020-08-15 In The Roots of Resilience Meredith L. Weiss examines governance from the ground up in the world's two most enduring electoral authoritarian or hybrid regimes Singapore and Malaysia where politically liberal and authoritarian features blend evading substantive democracy Weiss explains that while key attributes of these regimes differ affecting the scope character and balance among national parties and policies local machines and personalized linkages the similarity in the overall patterns in these countries confirms the salience of those dimensions The Roots of Resilience shows that high levels of authoritarian acculturation amplifying the political payoffs of what parties and politicians actually provide their constituents explain why electoral turnover alone is insufficient for real regime change in either state

The Cauldron of Ethnicity in the Modern World Manning Nash, 1989 The melting pot metaphor conveys an image of individuals from varied origins blending imperceptibly together But when such ingredients as inequality nationalism or perceived injustice are added to the mix the

melting pot can become a seething cauldron Manning Nash's examination of ethnicity in the postcolonial world offers insights into the ways that ethnic tensions are engendered and sustained Ethnicity Nash suggests is formed by historical processes based on preexisting elements of society and culture Notions of ethnicity have at their core the recursive metaphor of blood bed and cult body substance kinship and religious belief When individuals who perceive themselves bound by these ties are threatened in some way ethnicity becomes a unifying call to action Nash identifies a number of concepts political self rule economic opportunity cultural identity religious freedom that have been rallying cries for ethnic struggles in the twentieth century He offers a novel analysis of the ways that ethnic groups identify themselves and maintain boundaries and he assesses the circumstances under which ethnicity may be relevant or nearly irrelevant to political economic and cultural dynamics Nash presents three case studies that highlight the multifaceted nature of ethnicity and that each demonstrate a particular mode of comparative method He compares a situation of conquest Ladino and Maya in Mexico and Guatemala a new excolonial nation with nearly equally sized groups Chinese and Malays in Malaysia and a small immigrant group in a large nation Jews in the United States pointing out the many possible combinations of political economic or cultural struggles in ethnic conflicts Even in nations where such conflict is minimal Nash warns ethnicity remains a reservoir of turbulence in a world where power wealth and dignity are unevenly and illegitimately distributed

Malaysia Official Year Book ,1975 Radicals Syed Aljunied, 2015-05-29 Radicals tells the story of a group of radical Malay men and women from ordinary social backgrounds who chose to oppose foreign rule of their homeland knowing full well that by embarking on this path of resistance they would risk imprisonment or death Their ranks included teachers journalists intellectuals housewives peasants preachers and youths They formed led and contributed to the founding of political parties grassroots organizations unions newspapers periodicals and schools that spread their ideas across the country in the aftermath of the Great Depression when colonialism was at its height and evident in all areas of life in their country But when their efforts to uproot foreign dominance faltered in the face of the sanctions the state imposed upon them some of these radicals chose to take up arms

while others engaged in aggressive protests and acts of civil disobedience to uphold their rights. While some died fighting and hundreds were incarcerated, many lived to resist colonialism until their country attained its independence in August 1957. All of these Malay radicals were devoted to becoming free men and women and to claiming their right to be treated as equals in a world riddled with prejudice and contradictions. Syed Muhd Khairudin Aljunied's innovative study brings to light the less charted and unanalyzed terrain of the radical experience becoming and being radical. He argues that the experiences and histories of radicals in colonial Malaya can be elucidated in a more nuanced way by interrogating them alongside evolving local and global circumstances and by analyzing them through the lenses of a set of overarching and interconnected mobilizing concepts: a set of ideas, visions, and notions that the radicals used to reason and justify their advent that were internalized, lived, and utilized in the course of their activism. These mobilizing concepts were their weapons and armor employed to organize, strategize, protect, and consolidate themselves when menaced by the tentacles of the colonial state as they embarked upon the agonizing path towards independence. Those interested in Malaysian history, colonial history, radical movements, and resistance groups will enjoy this fascinating study. **Area Handbook for Malaysia** Nena Vreeland, 1977

Islam, Modernity and Entrepreneurship among the Malays P. Sloane, 1998-11-23. The book is based on original research on the entrepreneurial leaders in the Malay community and on the author's own participation in Malay business ventures. Sloane draws on her experience of working in Wall Street to analyse the ironies and contradictions in both the prevailing Western Asian and Malay definitions of entrepreneurship and the heroes of competing styles of capitalism.
