Constructing Race on the Borders of Europe Marsha Morton, Barbara Larson, 2021-03-25

Constructing Race on the Borders of Europe investigates the visual imagery of race construction in Scandinavia Austro Hungary Germany and Russia It covers a period when historic disciplines of ethnography and anthropology were expanding and theorists of race were debating competing conceptions of biological geographic linguistic and cultural determinants Beginning in 1850 and extending into the early 21st century this book explores how paintings photographs prints and other artistic media engaged with these discourses and shaped visual representations of subordinate ethnic populations and material cultures in countries associated with theorizations of white identity The chapters contribute to postcolonial research by documenting the colonial style treatment of minority groups by exploring the anomalies and complexities that emerge when binary systems

are seen from the perspective of the fine and applied arts and by representing the voices of those who produced images or objects that adopted altered or critiqued ethnographic and anthropological information In doing so *Constructing Race on the Borders of Europe* uncovers instances of unexpected connections establishes the fabricated nature of ethnic identity and challenges the certainties of racial categorization *The Races and Peoples of Europe* Bertil Lundman,1977 *The Races of Europe, a Sociological Study...* by William Z. (Repr.)* Carleton Stevens Coon,1948 *The Idea of Europe* Shane Weller,2021-06-03 There is an increasingly widespread sense that Europe is in crisis Notions of a shared European identity and a common European culture appear to be losing their purchase This crisis is often seen as a conflict between a cosmopolitan and a nationalist idea of Europe The reality is however considerably more complex as the long history of the idea of Europe reveals In *The Idea of Europe A Critical History* Shane Weller explores that history from its origins in classical antiquity to the present day Drawing on a wide range of sources he demonstrates that all too often seemingly progressive ideas of Europe have been shaped by Eurocentric culturally supremacist and even racist assumptions Seeking to break with this troubling pattern Weller calls for an idea of Europe shaped by a spirit of self critique and by an openness to those cultures that have for so long been dismissed as non European
