Rachel Carson Preserving A Sense Of Wonder:

Rachel Carson Thomas Locker, 2009 Rachel Carson Joseph Bruchac, Thomas Locker, 2009-04 A biography of Rachel Carson interspersed with her own memorable quotes *More Picture-perfect Science Lessons* Karen Rohrich Ansberry, Emily Rachel Morgan, 2007 Teacher's handbook for teaching science **Rachel Carson** Mary Ellen Snodgrass, 2021-04-02 Rachel Carson was a marine biologist credited with the founding of the ecology movement and the rise in ecofeminism One of her most popular works was *Silent Spring* which challenged the use of DDT an insecticide infamous for its negative environmental effects and questioned the claims of modern industry Carson also wrote essays reviews articles and speeches to educate the public about the impacts of chemical pollutants on both the environment and the human body This literary companion provides readers with Carson's key messages via an A to Z index of topics discussed in her works including carcinogens endangered species and radioactivity **Wonder and Wisdom** Celia Deane-Drummond, 2006 What has wonder that apparently innocent feeling of amazement so common in little children to do with wisdom often thought to be the privilege of those who are old What has theology and religious experience to do with scientific investigation of the natural world Professor Celia Deane Drummond's exploration of these themes expands the dialogue between science and religion She begins her study with reflections on the emotion of wonder tracing the history of its meaning from its Indo European roots to the present focusing on the experience of the natural world including that described by contemporary cosmology Incorporating insights from both Eastern and Western religious traditions as well as African spirituality she segues to a discussion of wisdom She considers natural wisdom looking at evolutionary convergence and design in the natural world and how it might mesh with theological understanding of natural wisdom human identity and the notion of God as wisdom She also discusses the origin of the cosmos and the role of God as creator as well as whether there is wisdom in nature and what the role if any of neuroscience in wisdom as a facet of human nature might be Returning to the theme of wonder she muses on wonder as it relates to the wisdom of God and the wisdom of the cross She shows that by weaving wonder and wisdom together a deeper spirituality can surface that integrates theology and science If wisdom is the voice for theology at the boundary of science so wonder reminds theology that science too offers its own wisdom that needs to be taken into account she concludes **Preserving Yellowstone's Natural Conditions** James A. Pritchard, 2022-10-05 In this new edition James A Pritchard has added a summary of recent developments in wildlife science and management and discusses historical continuities in the role of Yellowstone Park as a wildlife refuge and conservator Peace, Love, Action! Tanya Zabinski, 2019-08-27 An invitation to young readers to roll up their sleeves get inspired and take action to build a sustainable just and loving world Peace Love Action is an illustrated illuminated A Z of everyday actions that directly make a peaceful fun and vibrant world With original artworks bringing each action to life make friends go local cooperate forgive seemingly small deeds can really add up Illustrated by Tanya Zabinski in her characteristic earthy style each action comes

with an inspirational mini bio of a real hero who exemplifies that action from Thich Nhat Hanh breathe to Wangari Maathai plant and follows with a set of What You Can Do prompts With a foreword by singer songwriter and activist legend Ani DiFranco The Power of Pictures Beth Olshansky,2008-04-18 In The Power of Pictures book and companion DVD Beth Olshansky introduces teachers to her innovative art based approach to literacy instruction Widely practiced in classrooms across the country the model has been proven by research to improve literacy achievement with a wide range of learners especially those who struggle with verbal skills At the heart of her approach is the Artists Writers Workshop Through study of quality picture books and hands on art experiences students learn to visualize paint pictures with words and ultimately create their own extraordinary artistic and literary work The book and DVD explain how any teacher can successfully use this process to enable all students particularly low performers to make dramatic gains in both reading and writing **Expect More: Children Can Do Remarkable Things** Anne Grall Reichel, Ed.D.,2010-09-22 This book encourages teachers parents grandparents and volunteers who work with children to expect more It focuses on the skills children will need to compete in a highly competitive global economy From systems thinking to interpreting complex visual images to integrative thinking our children need a whole new skill set For too long science and social studies have been moved to the back burner Ironically these subjects hold great interest and opportunity to investigate concepts in depth We need to bring them to center stage Throughout the book the author provides many concrete examples of ways for teachers and parents to engage children in meaningful conversation and problem solving Somewhere along the way we seem to have stopped challenging children and started enabling them instead Perhaps this is through no fault of our own As teachers and parents we genuinely care about children We feel for them when they are sick when they are bullied or when they are struggling Quite simply it is our nature to protect With the best of intentions we tend to try and eliminate the struggle But the struggle is essential to growth and a personal sense of accomplishment As children work their way through challenges they build the confidence and habits of mind needed to embrace the next challenge that comes along This book is an invitation to adults to expect more of themselves and of the children they care about The invitation is yours to accept *Think Green, Take Action* Daniel A. Kriesberg,2010-08-16 This book provides an annotated bibliography of age appropriate literature and activities showing children the importance of environmental issues and teaching them the skills to take action In past years teaching children about conservation and environmental issues might have been an optional side topic to complement an earth science curriculum but in today s educational climate being green is a subject with great relevance and importance This book combines a wide variety of techniques to help students understand environmental issues and gain the skills needed to take action The children s literature and classroom activities suggested in Think Green Take Action Books and Activities for Kids are appropriate for elementary school students from grades three through seven covering three major environmental issues endangered species resource depletion and pollution After students have a grasp of the causes of these environmental

problems the final chapter presents ways to take easy action that can create ripples of change across the world Educators in museums and nature centers home schooled children and their parents comprise an appropriate secondary audience for this instructive text

Consecrating Science Lisa H. Sideris,2017-08-15 Debunking myths behind what is known collectively as the new cosmology a grand overlapping set of narratives that claim to bring science and spirituality together Lisa H Sideris offers a searing critique of the movement s anthropocentric vision of the world In Consecrating Science Sideris argues that instead of cultivating an ethic of respect for nature the new cosmology encourages human arrogance uncritical reverence for science and indifference to nonhuman life Exploring moral sensibilities rooted in experience of the natural world Sideris shows how a sense of wonder can foster environmental attitudes that will protect our planet from ecological collapse for years to come

Aesth/ethics in Environmental Change Sigurd Bergmann,Irmgard Blindow,Konrad Ott,2013 Can aesthetics and ethics be integrated for the good of habitats places and spaces How can the arts widen our perception of nature and deepen environmental ethics Should the political meaning of a landscape be defined solely in terms of its economic and ecological values Questions like these are explored from the angles of arts environmental ethics ecology religious studies theology art history and philosophy The book prompts discussion about

the aesthetic and spiritual dimension in the environmental humanities and it offers transdisciplinary insights into the challenge of sustainability and ongoing changes in society and the environment Series Studies in Religion and the Environment Studien zur Religion und Umwelt Vol 7 **At the End of Ridge Road** Joseph Bruchac,2005 A noted teller of the traditional tales of the Adirondacks and of Native peoples everywhere Joseph Bruchac has performed throughout the world That gift for narrative informs this revealing autobiography *Stepping Fully into Life* Lynn Goodwin,2024-08-08 We have a deep human desire to manifest a life for ourselves that is most aligned with who we are and who we are always evolving into We strive to outwardly express our uniqueness and creativity and contribute to life while also remaining close to our soul the source of our innermost joy Stepping Fully into Life explores the many ways you can come back to your Self and with that authentically create a life that you adore This guide invites you on a journey of self discovery to explore your human and spiritual nature By honoring and caring for both you can manifest a life led by your innermost Self During our lifetime there exists a constant conversation between these two aspects of our nature an ongoing relationship and learning We experience all of life through our human form and choose how to live and act in the world We also access limitless possibilities by connecting with our soul through ordinary life experiences We can create the conditions for remembering our Self and for living a meaningful life From a place of true inner bliss we can manifest a life where all our relationships work recreation pursuits and pleasures emerge from the most genuine reflections of who we are In this self inquiry guide Ayurvedic wisdom meets modern day poets and writers to empower and direct you toward connecting with your true nature and living the truest expression of yourself **Best Books for Children** Catherine Barr,2006 Contains more than 25 000 titles of books recommended for children in grades K 6 **Sustainability and the American Naturalist Tradition** Craig Thomas,2018-03-15 Humanity is failing at solving complex socio ecological problems like global climate change biodiversity loss and population growth The existing sustainable development paradigm and its reliance on trade offs between the three pillars of environment economics and equity is not robust enough to maintain global carrying capacity In this timely intervention Thomas argues that the holistic and transdisciplinary thinking of four iconic American naturalists Henry David Thoreau Aldo Leopold Rachel Carson and Edward O Wilson can instead help to solve our biggest twenty first century challenges by synthesizing values from four eras of cultural and environmental history **Towards Fairer Geo-Spiritual Ecosystems** S. Sergio Saleem Scatolini,2024-11-26 This edited book looks at society education language and spirituality through international multicultural and critical lenses As the elite now eye the colonisation of biology and outer space we must surmount narratives subservient to privilege and power which explains the book s decolonial agenda The rise of AI and biotechnologies has opened the door to a future where the place of humanity and human intelligence in the universe will be understood and experienced differently Evolution shall move beyond natural human intelligence and biology If we want more inclusive fair and sustainable futures we must articulate new narratives and spiritualities that can harmonise science

technology and religious wisdom But to re evaluate the human self and society and their intersection with the non human world we must recognise and neutralise the underlying currents of privilege and power in education language and religion
