Brown Pelican Rien Fertel,2022-09-07 In this compelling book Rien Fertel tells the story of humanity s complicated and often brutal relationship with the brown pelican over the past century This beloved bird with the mythically bottomless belly to say nothing of its prodigious pouch has been deemed a living fossil and the most dinosaur like of creatures The pelican adorns the Louisiana state flag serves as a religious icon of sacrifice and stars in the famous parting shot of *Jurassic Park* but most significantly spotlights our tenuous connection with the environment in which it flies feeds and roosts the coastal United States In 1903 Theodore Roosevelt inaugurated the first national wildlife refuge at Pelican Island Florida in order to rescue the brown pelican among other species from the plume trade Despite such protections the ubiquity of synthetic agents of death most notably DDT in the mid twentieth century sent the brown pelican to the list of endangered species By the mid 1960s not one viable pelican nest remained in all of Louisiana Authorities declared the state bird locally extinct Conservation efforts including an outlandish but well planned birdnapping saved the brown pelican generating one of the great success stories in animal preservation However the brown pelican is once again under threat particularly along Louisiana s coast due to land loss and rising seas For centuries artists and writers have portrayed the pelican as a bird that pierces its breast to feed its young symbolizing saintly piety Today the brown pelican gives itself in other ways sacrificed both

by and for the environment as a bellwether bird an indicator species portending potential disasters that await Brown Pelican combines history and first person narrative to complicate deconstruct and reassemble our vision of the bird the natural world and ourselves

Writing Nature in Cold War American Literature Sarah Daw, 2018-05-31 Explores the neglected subject of Gothic B movies in the Americas Europe Asia and Africa

A More Perfect Union Linda Sargent Wood, 2012-09-01 In 1962 when the Cold War threatened to ignite in the Cuban Missile Crisis when more nuclear test bombs were detonated than in any other year in history Rachel Carson released her own bombshell Silent Spring to challenge society's use of pesticides To counter the use of chemicals and bombs the naturalist articulated a holistic vision She wrote about a web of life that connected humans to the world around them and argued that actions taken in one place had consequences elsewhere Thousands accepted her message joined environmental groups flocked to Earth Day celebrations and lobbied for legislative regulation Carson was not the only intellectual to offer holistic answers to society's problems This book uncovers a sensibility in post World War II American culture that both tested the logic of the Cold War and fed some of the twentieth century's most powerful social movements from civil rights to environmentalism to the counterculture The study examines important leaders and institutions that embraced and put into practice a holistic vision for a peaceful healthful and just world nature writer Rachel Carson structural engineer R Buckminster Fuller civil rights leader Martin Luther King Jr Jesuit priest and paleontologist Pierre Teilhard de Chardin humanistic psychologist Abraham Maslow and the Esalen Institute and its founders Michael Murphy and Dick Price Each looked to whole systems instead of parts and focused on connections interdependencies and integration to create a better world Though the 60s dreams of creating a more perfect world were tempered by economic inequalities political corruption and deep social divisions this holistic sensibility continues to influence American culture today

as a teenager he demanded that his name be removed from the New York Social Register he attended Yale and cut his teeth in postwar Paris co founding The Paris Review as he worked undercover for the CIA But then after a rebellious stint as a Long Island fisherman he escaped into a series of wild expeditions floating through the Amazon to recover a prehistorical fossil embedding with a tribe in Netherlands New Guinea swimming with sharks off the coast of Australia His novels inspired by his travels were unclassifiable meditations about Caymanian turtle hunters and frontier outlaws in the Florida Everglades Meanwhile his nonfiction became legendary nature books like Wildlife in America key parts of the canon of emergent environmental writing says Bill McKibben as well as advocacy journalism supporting Cesar Chavez Leonard Peltier and Native American land claims Underlying all Matthiessen s disparate pursuits was the same existential search to find a cure for deep restlessness This search was most profoundly articulated in The Snow Leopard his famous account of a 250 mile wildlife survey across the Himalayas In True Nature Lance Richardson reconstructs the full scope of a spiritual quest that ultimately led Matthiessen even as he inflicted great pain on his family to the highest ranks of Zen Drawing on rich primary sources and hundreds of interviews Richardson depicts Matthiessen s life with page turning immediacy while also illuminating how the writer s uncanny gifts enabled him to sense connections between ecological decline racism and labor exploitation to express eloquently and presciently that in a damaged human habitat all problems merge
