Race, Recognition and Retribution in Contemporary Youth Justice Esmorie Miller, 2021-12-30 Race Recognition and Retribution in Contemporary Youth Justice provides a cross national sociohistorical investigation of the legacy of racial discrimination which informs contemporary youth justice practice in Canada and England The book links racial disparities in youth justice especially exclusion from ideologies of care and notions of future citizenship with historical practices of exclusion Despite the logic of care found in both rehabilitative and retributive forms of youth justice Black inner city youth remain excluded from lenience and social welfare considerations This

exclusion reflects a historical legacy of racial discrimination apparent in the harsher sanctions levied against Black innercity youth In exploring race s role in this arrangement the book asks To what extent were Black youth excluded from historic considerations of the lenience and social care built into the logic of youth justice in England and Canada To what extent are the disproportionately high incarceration rates for Black inner city youth in the contemporary system a reflection of a historic exclusion from considerations of lenience and social care How might contemporary justice efforts be reoriented to explicitly prioritize considerations of lenience and social care ahead of penalty for Black inner city youth Examining the entrenched structural continuities of racial discrimination the book draws on archival and interview data with interviewees including professionals who work with inner city youth In concert with the archival and interview data the book offers the intractability malleability I M thesis an integrated social theoretical logic with the capacity to expand the customary analytical scope for understanding the contemporary entrenched normalization of racialized youth as punishable The aim is to advance a historicized account exploring youth s positioning as constitutive of a continuity of racialized peoples in general and youth s in particular historic exclusion from the benefits of modern rights including lenience and care The I M logic takes its analytical currency from a combined critical race theory CRT and recognition theory The book argues that a truly progressive era of youth justice necessitates cultivating policy and practice which explicitly prioritizes considerations of lenience and social care ahead of reliance on penalty This multidisciplinary book is valuable reading for academics and students researching criminology sociology politics anthropology critical race studies and history It will also appeal to practitioners in the field of youth justice policymakers and third sector organizations

A Theory of African American

Offending James D. Unnever, Shaun L. Gabbidon, 2011-03-01 A little more than a century ago the famous social scientist W E B Du Bois asserted that a true understanding of African American offending must be grounded in the real conditions of what

it means to be black living in a racial stratified society Today and according to official statistics African American men about six percent of the population of the United States account for nearly sixty percent of the robbery arrests in the United States To the authors of this book this and many other glaring racial disparities in offending centered on African Americans is clearly related to their unique history and to their past and present racial subordination Inexplicably however no criminological theory exists that fully articulates the nuances of the African American experience and how they relate to their offending In readable fashion for undergraduate students the general public and criminologists alike this book for the first time presents the foundations for the development of an African American theory of offending
