

A Model for Anti-Racism Training in Higher Education

By Ngoc H. Bui, James J. Garcia, Monique J. Williams, & Alexandra M. Burrell

Higher education's attempts at tackling the issue of anti-racism in its ivory towers may be facing an uphill battle. Strong opposition within and outside academia, in addition to perceptions of cultural competency training, force institutions to rethink the ways anti-racism training should be designed and delivered. In this article, we present several challenges to anti-racism training and rebuttals to those challenges. In addition, we suggest a multipronged model to increase investment and engagement in anti-racism training for faculty using the Participatory Action Learning and Action Research (PALAR) framework in the form of a colloquium.

Introduction

Racial tensions continue to rise in the U.S. and worldwide, as people protest the killings of unarmed Black people. Data from the National Violent Death Reporting System show that among 17 states that reported (2009–2012), Blacks were 2.8 times more likely to be killed by law enforcement than Whites (DeGue et al., 2016). Among those killed, Blacks were more likely to be unarmed (14.8%) than Whites (9.4%). Using the same database, Wertz et al. (2020) reported that between 2014 and 2015, among 27 states that indicated crimes classified as low threat, with the person being likely unarmed, Blacks made up the majority of deaths by law enforcement (35.4%), but were only 12% of the population of the states that reported data. Furthermore, the increase in White nationalism hate groups and rallies in the U.S. when President Trump took office in 2016, and upon his departure (Wilson, 2020), have resulted in violent and deadly confrontations with Black Lives Matters protestors and police (Signer, 2020). Thus, the importance of anti-racism education cannot be overstated at this moment in U.S. history.

Anti-Racism Movement and Higher Education

Racism, the belief that certain racial groups are inherently inferior to others (Smedley & Smedley, 2005), can manifest in overt (individual racism) and covert (institutional racism) ways (Carmichael & Hamilton, 1967). However, institutional racism is more insidious because it includes social, economic, and political systems that create barriers for Peo-

ple of Color, with few identifying these barriers as racist (Carmichael & Hamilton, 1967). Institutional racism has been a part of American history since its founding (Carew, 1988). This is evidenced by laws that include the Naturalization Act of 1790, which restricted U.S. citizenship to only White immigrants and their children (Fox, 2020), the 1896 Supreme Court decision of *Plessy vs. Ferguson*, which supported the constitutionality of racial segregation between Blacks and Whites (Hoffer, 2014), Executive Order 9066 in 1942, which ordered the mass incarceration of 120,000 Japanese Americans (Kamp-Whittaker, 2020), and the U.S.A. Patriot Act of 2001, which detained suspected “terrorists” (mostly profiled as Arab, Muslim, and South Asian men) indefinitely without legal representation (United States Congress, 2001).

Institutional racism has permeated higher education for many years in the form of unwelcoming campus climates and discrimination in promotion, tenure, and hiring practices (LaLand, 2020). American universities have made attempts to tackle these issues by introducing diversity training. A survey of 281 higher education administrators in the U.S. between 1996 and 1997 revealed that 70% implemented voluntary diversity workshops at their institutions, with only 5% requiring faculty to attend (McCauley et al., 2000). We argue that race-related training should go beyond diversity training because it only develops awareness of issues. Training should also focus on structural inequalities, systemic racism, power, and privilege (Hanover Research, 2020). Specifically, we contend

Envisioning a Critical Race Praxis in K-12 Education Through Counter-Storytelling Tyson E.J. Marsh, Natasha N. Croom, 2016-08-01 While critical race theory is a framework employed by activists and scholars within and outside the confines of education there are limited resources for leadership practitioners that provide insight into critical race theory and the possibilities of implementing a critical race praxis approach to leadership With a continued top down approach to educational policy and practice it is imperative that educational leaders understand how critical race theory and praxis can assist them in utilizing their agency and roles as leaders to identify and challenge institutional and systemic racism and other forms manifestations of oppression Stovall 2004 In the tradition of critical race theory we are charged with the task of operationalizing theory into practice in the struggle for and commitment to social justice Though educational leaders and leadership programs have been all but absent in this process given their influence and power educational leaders need to be engaged in this endeavor The objective of this edited volume is to draw upon critical race counter stories and praxis for the purpose of providing leaders in training and practicing K 12 leaders with tangible narratives that demonstrate how racism

and its intersectionality with other forms of oppression manifest within K 12 schooling An additional aim of this book is to provide leaders with a working knowledge of the central tenets of critical race theory and the tools that are required in recognizing how they might be complicit in the reproduction of institutional and systemic racism and other forms of oppression More precisely this edited volume intends to draw upon and center the lived experiences and voices of contributors that have experienced racism in K 12 schooling Through the use of critical race methodology and counter storytelling Sol rzano Yosso 2002 contributors will share and interrogate their experiences while offering current and future educational leaders insight in recognizing how racism functions within institutions and how they can address it The intended goal of this edited volume is to translate critical race theory into practice while emphasizing the need for educational leaders to develop a critical race praxis and anti racist approach to leadership

Contextualizing Critical Race Theory on Inclusive Education from A Scholar-Practitioner Perspective Jose W. Lalas,Heidi Luv Strikwerda,2023-12-12 Race does not only resonate with the dichotomy of blackness and whiteness but also on its impact on non physical attributes this includes factors such as indigenous status social class religion language ethnicity class gender sexuality and immigration The intersection of these factors are key considerations on inclusive education

The Edge of Race Kalervo N. Gulson,Zeus Leonardo,David Gillborn,2017-10-02 The phrase the edge of race can be used both as a description and as a response to two key concerns The first of these is that while race is increasingly on the periphery of education policy with a growing disregard shown for racist inequities as education systems become dominated by market driven concerns it is important that we map the shifting relations of race in neoliberal politics and policies The second concern is that at this time within and outside the spaces of the academy even to mention race equity is to risk condemnation marginalization and ridicule The authors in this collection use the edge of race as a provocation in order to examine the concepts methodologies policies politics processes and practices associated with race and racism in education The chapters offer empirical examples of the perpetuation and perniciousness of racism that point to the continued salience of research about race Additionally the chapters make contributions to conceptual and methodological understandings of race and racism The contributors illustrate the contingency productivity and fragility of race as a concept and point to how educational research continues to be a contested site in and from which to study race and education This book was originally published as a special issue of Discourse Studies in the Cultural Politics of Education

Racism and Racial Equity in Higher Education Samuel D. Museus,María C. Ledesma,Tara L. Parker,2015-11-17 What does it means to work toward racial equity in higher education in the 21st century This monograph answers just that with a synthesis of theory research and evidence that illuminate the ways in which racism shapes higher education systems and the experiences of people who navigate them Higher education leaders must move beyond vague notions of diversity and do the difficult work of pursuing systemic transformation and creating more inclusive environments

in which racially diverse populations can thrive Such work necessitates a deep understanding of the historic and contemporary role of racism in shaping postsecondary access and opportunity This work will be of interest to those who recognize how advancing racial equity benefits all members of the campus community and larger society This is the 1st issue of the 42nd volume of the Jossey Bass series ASHE Higher Education Report Each monograph is the definitive analysis of a tough higher education issue based on thorough research of pertinent literature and institutional experiences Topics are identified by a national survey Noted practitioners and scholars are then commissioned to write the reports with experts providing critical reviews of each manuscript before publication

Cultivating Race Julia Tischler, 2025-02-17 Simultaneous to the rise of industrial capitalism agriculture still the mainstay of most human communities around the globe in the late nineteenth and early twentieth centuries underwent dramatic changes In many countries including most settler economies a large scale input heavy and increasingly mechanized commercial agricultural sector emerged while scores of struggling rural producers were squeezed off the land The same period saw the rise of a global colour line increasingly rigid social categorizations based foremost on skin colour By considering agricultural progressivism as both a Pan Africanist and white supremacist movement Julia Tischler here demonstrates how the agrarian question and the colour line intersected Taking a uniquely transnational and comparative approach the book explores these rural transformations through the lens of agricultural education including agricultural colleges extension services children s clubs and domestic training In so doing and by taking South Africa in the segregation period as its central case study an extreme example of both rapid agrarian change and state sanctioned racism the book offers important insights into global questions of rural reform and race politics addressing all scholars and students who seek to understand the intricate links between race knowledge and rural reform in the twentieth century

Racism in American Public Life Johnnetta Betsch Cole, 2021-02-16 For some in our society diversity is a threat Others feel society should be more inclusive if only out of fairness But as Johnnetta Cole argues in her new book embracing diversity and inclusiveness is more than a virtuous ideal it is essential to a healthy productive society Focusing on higher education and other arenas of cultural development Cole explores our institutions vulnerability to the influence of racism and the wider implications for American society At the core of Cole s argument is the belief that increasing the representation of historically marginalized groups on college campuses and in museums media and other institutions is like the liberal arts vitally important to social progress Accompanying Cole s urgent calls to implement social change are vividly rendered experiences from her own remarkable life Cole issues a challenge for courageous conversations about race and racism and places unique responsibility and accountability on institutions of higher education in leading these conversations

Race & Class on Campus Jay Rochlin, 1997 Racism Is it alive and well and living on college campuses across the United States Is it a factor in high dropout rates and other crises affecting minority college students and if so how Are controversial programs of affirmative action proving to be a solution or are they part of the problem Here are some

insights into the hot issues sparking debate over equal opportunity and American education In these pages through the use of a fictional character author Jay Rochlin presents more than forty very real African American and Mexican American men and women who struggled to earn degrees at a large nationally recognized university in the west Their goals their gains and their disappointments echo the experiences of millions of others around the country during much of the twentieth century Perhaps most important their true stories will provide inspiration to the many young people who wonder whether pursuing the dream of a college education is possible for them Readers will warm to the words of Carlos V ez Ib ez learning as a toddler from his father that the university represented toda la sabidur a del mundo all the wisdom in the world Their hearts will go out to young Laura Banks barred as a black woman from a whites only pool and the swimming class required for her degree in physical education In the face of open hostility and closed doors these students and many others persevered When they were shunned by Anglo social clubs they created their own When they were assigned back of the room seating because of discrimination they rose above it And when their ultimate goal graduation was threatened by racism they fought it Looking back many in the book remember coming from poor families who nonetheless considered themselves middle class and as such simply expected their children to go to college This family support bolstered by the students own drive ambition and sense of responsibility seemed to be pivotal to their success Thus the book comes out strongly on the side of critical race theorists who emphasize individual effort as a means of combating racism and personal narratives as a way of analyzing the complex issue These pages are filled with the voices of everyday men and women Their language is straightforward and from the heart Their message is timely in the midst of current debates over race class and affirmative action And their words for American education and for the country as a whole carry force and meaning guaranteed to reach far into the future
