chapter 🚄

Culturally and Linguistically Diverse Learners

There are so many kinds of voices in the world, and none of them is without significance.

-ST. RAUL

Organizing Principle

Teaching with texts is all the more challenging in today's classroom, where the range of linguistic and cultural diversity has been increasing steadily since the 1960s. The growing diversity in the student population is often reflected in the way learners think about themselves as readers and writers. More often than not, students of diverse backgrounds struggle with reading and writing in academic contexts. Much like the struggling readers and writers we described in Chapter 3, culturally and linguistically diverse learners often are caught in a cycle of school failure that contributes to marginal achievement and high dropout rates. Typically, they are placed in low-ability groups where inTeachers respond to linguistic and cultural differences in their classrooms by scaffolding instruction in the use of vocabulary and comprehension strategies and by creating classroom environments that encourage talking and working together.

struction is based on a limited, watered-down version of the curriculum. As a result, the strengths that diverse learners bring to instructional situations usually go untapped.
