Reading George Steiner Nathan A. Scott, Jr., Ronald A. Sharp, 1994-03-01 No critic no man of letters in our time has surpassed the scope seriousness verbal virtuosity truly he is the Guest of Language and sheer vivacity of mind of George Steiner The various supple often subtle essays of this volume do critical honor to Steiner his fierce poetics of meaning his shocking deed of semantic trust And unlike so much contemporary criticism they all share a tact of the heart Ihab Hassan

No Passion Spent George Steiner, 1996 Spanning a considerable time these essays turn on a central theme what is meant by reading a serious text at a time when theories of language and literature question the very possibility of any agreed meaning and at a time when new technologies seem likely to replace books as we have known them since Gutenberg The question is brought to bear deliberately on the Bible Homer and Shakespeare

Reading and the Victorians Juliet John, 2016-03-03 What did reading mean to the Victorians This question is the key point of departure for *Reading and the Victorians* an examination of the era when reading underwent a swifter and more radical transformation than at any other moment in history With book production handed over to the machines and mass education boosting literacy to unprecedented levels the norms of modern reading were being established Essays examine the impact of tallow candles on Victorian reading the reading practices encouraged by Mudie's Select Library and feminist periodicals the relationship between author and reader as reflected in manuscript revisions and corrections the experience of reading women's diaries models of literacy in *Our Mutual Friend* the implications of reading marks in Victorian texts how computer technology has assisted the study of nineteenth century reading practices how Gladstone read his personal library

and what contemporary non academic readers might owe to Victorian ideals of reading and community Reading forms a genuine meeting place for historians literary scholars theorists librarians and historians of the book and this diverse collection examines nineteenth century reading in all its personal historical literary and material contexts while also asking fundamental questions about how we read the Victorians reading in the present day *The Phenomenology of Love and Reading* Cassandra Falke, 2018-05-31 The current revival of interest in ethics in literary criticism coincides fortuitously with a revival of interest in love in philosophy The literary return to ethics also coincides with a spate of neuroscientific discoveries about cognition and emotion But without a philosophical grounding this new work cannot speak convincingly about literature s relationship to our ethical lives Jean Luc Marion s articulation of a phenomenology of love provides this philosophical grounding The Phenomenology of Love and Reading accepts Jean Luc Marion s argument that love matters for who we are more than anything more than cognition and more than being itself Cassandra Falke shows how reading can strengthen our capacity to love by giving us practice in love s habits attention empathy and a willingness to be overwhelmed Confounding our expectations literature equips us for the confounding events of love which Falke suggests are not rare and fleeting but rather constitute the most meaningful and durable part of our everyday life Errata George Steiner, 1997 This is very much not an academic book though it is as one would expect throughout informed by Steiner s vast and polyglot reading from the classics through to contemporary science across fiction poetry theology and philosophy It is rather in a genre of its own littered with entertaining anecdotes and the closest we will get to an autobiography Stories and Portraits of the Self, 2007-01-01 In contemporary societies privatization has long ceased to be just an economic concept rather it must increasingly be made to refer to the ongoing shrinking of the public space under the impact of the representation of individual lives and images which cuts across all discourses genres and media to become one of the primary means of production of culture This volume is intended to cover such an historical social and intellectual ground where self representation comes to the fore Targeting mostly an academic readership but certainly also of interest to the general educated public it collects a wide range of essays dealing with diverse modes of life writing and portraying from a variety of perspectives and focusing on different historical periods and media It thus offers itself as a major contribution to a better understanding of the world we live in its past legacy and present configuration Reading Vincent Quinn, 2020-06-01 Why do we read and have we always read in the same way Reading A cultural practice uses a rich variety of literary and visual sources to explore how reading has changed and continues to change in response to new technologies and shifting social pressures Drawing on medieval illustrations classic fiction the art and literature of the Bloomsbury Group and contemporary e culture the book shows that there is no single unchanging thing called reading instead it is something that mutates over time Throughout history ways of reading and theories of reading have been shaped by religious and educational institutions This continues to be true but current approaches to reading are also conditioned by debates over digital culture and social

media use Reading A cultural practice re frames these contemporary preoccupations by offering a long view on how our notions of books and reading alter according to social and historical context The Routledge Encyclopedia of Jewish Writers of the Twentieth Century Sorrel Kerbel,2004-11-23 Now available in paperback for the first time Jewish Writers of the Twentieth Century is both a comprehensive reference resource and a springboard for further study This volume examines canonical Jewish writers less well known authors of Yiddish and Hebrew and emerging Israeli writers includes entries on figures as diverse as Marcel Proust Franz Kafka Tristan Tzara Eugene Ionesco Harold Pinter Tom Stoppard Arthur Miller Saul Bellow Nadine Gordimer and Woody Allen contains introductory essays on Jewish American writing Holocaust literature and memoirs Yiddish writing and Anglo Jewish literature provides a chronology of twentieth century Jewish writers Compiled by expert contributors this book contains over 330 entries on individual authors each consisting of a biography a list of selected publications a scholarly essay on their work and suggestions for further reading *Reader in Tragedy* Marcus Nevitt,Tanya Pollard,2019-02-07 This unique anthology presents the important historical essays on tragedy ranging from antiquity to the present divided into historical periods and arranged chronologically Across its span it traces the development of theories and philosophies of tragedy enabling readers to consider the ways in which different varieties of environmentalist feminist leftist and postcolonial thought have transformed the status of tragedy and the idea of the tragic for recent generations of artists critics and thinkers Students of literature and theatre will find this collection an invaluable and accessible guide to writing from Plato and Aristotle through to Freud Nietzsche Schopenhauer and 21st century theorists Ideas of tragedy and the tragic have been central to the understanding of culture for the past two millennia Writers and thinkers from Plato through to Martha Nussbaum have analyzed the genre of tragedy to probe the most fundamental of questions about ethics pleasure and responsibility in the world Does tragedy demand that we enjoy witnessing the pain of others Does it suggest that suffering is inevitable Is human sexuality tragic Is tragedy even possible in a world of rolling news on a digitally connected planet where atrocity and trauma from around the globe are matters of daily information In order to illustrate the different ways that writers have approached the answers to such questions this Reader collects together a comprehensive selection of canonical writings on tragedy from antiquity to the present day arranged in six sections each featuring an introduction providing concise and informed historical and theoretical frameworks for the texts World Literature Reader Theo D'haen,César Domínguez,Mads Rosendahl Thomsen,2012-06 World Literature is an increasingly influential subject in literary studies which has led to the re framing of contemporary ideas of national literatures language and translation World Literature A Reader brings together thirty essential readings which display the theoretical foundations of the subject as well as showing its conceptual development over a two hundred year period The book features an illuminating introduction to the subject with suggested reading paths to help readers navigate through the materials texts exploring key themes such as globalization cosmopolitanism post trans nationalism and translation and nationalism writings
