Feminist Readings of Native American Literature Kathleen M. Donovan, 1998-02 Who in a society can speak and under what circumstances These questions are at the heart of both Native American literature and feminist literary and cultural theory Despite the recent explosion of publication in each of these fields almost nothing has been written to date that explores the links between the two With Feminist Readings of Native American Literature Kathleen Donovan takes an important first step in examining how studies in these two fields inform and influence one another Focusing on the works of N Scott Momaday Joy Harjo Paula Gunn Allen and others Donovan analyzes the texts of these well known writers weaving a supporting web of feminist criticism throughout With careful and gracefully offered insights the book explores the reciprocally illuminating nature of culture and gender issues The author demonstrates how Canadian

women of mixed blood ancestry achieve a voice through autobiographies and autobiographical novels Using a framework of feminist reader response theory she considers an underlying misogyny in the writings of N Scott Momaday And in examining commonalities between specific cultures she discusses how two women of color Paula Gunn Allen and Toni Morrison explore representations of femaleness in their respective cultures By synthesizing a broad spectrum of critical writing that overlaps women s voices and Native American literature Donovan expands on the frame of dialogue within feminist literary and cultural theory Drawing on the related fields of ethnography ethnopoetics ecofeminism and post colonialism Feminist Readings of Native American Literature offers the first systematic study of the intersection between two dynamic arenas in literary studies today *Women Ethnographers and Native Women Storytellers* Susan Berry Brill de Ramírez, 2015-11-19 This book focuses on the collaborative work between Native women storytellers and their female ethnographers and or editors but the book is also about what it is that is constitutive of scientific rigor factual accuracy cultural authenticity and storytelling signification and meaning Regardless of discipline academic ethnographers who conducted their field work research during the twentieth century were trained in the accepted scientific methods and theories of the time that prescribed observation objectivity and evaluative distance In contradistinction to such prescribed methods regarding the ethnographic work conducted among Native Americans it turns out that the intersubjectively relational work of women both ethnographers and the Indigenous storytellers with whom they worked has produced far more reliably factual historically accurate and tribally specific Indigenous autobiographies than the more scientifically objective approaches of most of the male ethnographers This volume provides a close lens to the work of a number of women ethnographers and Native American women storytellers to elucidate the effectiveness of their relational methods Through a combined rhetorical and literary analysis of these ethnographies we are able to differentiate the products of the women s working relationships By shifting our focus away from the surface level textual reading that largely approaches the texts as factually informative documents literary analysis provides access into the deeper levels of the storytelling that lies beneath the surface of the edited texts Non Native scholars and editors such as Franc Johnson Newcomb Ruth Underhill Nancy Lurie Julie Cruikshank and No l Bennett and Native storytellers and writers such as Grandma Klah Mar a Chona Mountain Wolf Woman Mrs Angela Sidney Mrs Kitty Smith Mrs Annie Ned and Tiana Bighorse help us to understand that there are ways by which voices and worlds are more and less disclosed for posterity The results vary based upon the range of factors surrounding their production but consistent across each case is the fact that informational accuracy is contingent upon the the degree of mutual respect and collaboration in the women s working relationships And it is in their pioneering intersubjective methodologies that the work of these women deserves far greater attention and approbation **Readings In American Indian Law** Jo Carrillo, 1998 This selection of works many by Native American scholars introduces selected topics in federal Indian law Readings in American Indian Law covers contemporary issues of identity and tribal recognition reparations for

historic harms the valuation of land in land claims the return to tribal owners of human remains sacred items and cultural property tribal governance and issues of gender democracy informed by cultural awareness and religious freedom Courses in federal Indian law are often aimed at understanding rules not cultural conflicts This book expands doctrinal discussions into understandings of culture strategy history identity and hopes for the future Contributions from law history anthropology ethnohistory biography sociology socio legal studies and fiction offer an array of alternative paradigms as strong antidotes to our usual conceptions of federal Indian law Each selection reveals an aspect of how federal Indian law is made interpreted implemented or experienced Throughout the book centers on the ever present and contentious issue of identity At the point where identity and law intersect lies an important new way to contextualize the legal concerns of Native Americans

Antebellum American Women Writers and the Road Susan L. Roberson, 2012-07-26 A study of American women's narratives of mobility and travel this book examines how geographic movement opened up other movements or mobilities for antebellum women at a time of great national expansion Concerned with issues of personal and national identity the study demonstrates how women not only went out on the open road but participated in public discussions of nationhood in the texts they wrote Roberson examines a variety of narratives and subjects including not only traditional travel narratives of voyages to the West or to foreign locales but also the ways travel and movement figured in autobiography spiritual and political narratives and domestic novels by women as they constructed their own politics of mobility These narratives by such women as Margaret Fuller Susan Warner and Harriet Beecher Stowe destabilize the male dominated stories of American travel and nation building as women claimed the public road as a domain in which they belonged bringing with them their own ideas about mobility self and nation The many women's stories of mobility also destabilize a singular view of women's history and broaden our outlook on geographic movement and its repercussions for other movements Looking at texts not usually labeled travel writing like the domestic novel brings to light social relations enacted on the road and the relation between story location and mobility

The Oxford Handbook of Feminist Philosophy Ásta, Kim Q. Hall, 2021-05-07 This exciting new Handbook offers a comprehensive overview of the contemporary state of the field in feminist philosophy. The editors' introduction and forty-five essays cover feminist critical engagements with philosophy and adjacent scholarly fields as well as feminist approaches to current debates and crises across the world. Authors cover topics ranging from the ways in which feminist philosophy attends to other systems of oppression and the gendered, racialized, and classed assumptions embedded in philosophical concepts to feminist perspectives on prominent subfields of philosophy. The first section contains chapters that explore feminist philosophical engagement with mainstream and marginalized histories and traditions, while the second section parses feminist philosophy's contributions to numerous philosophical subfields, for example, metaphysics and bioethics. A third section explores what feminist philosophy can illuminate about crucial moral and political issues of identity, gender, the body, autonomy, prisons, and numerous others. The Handbook concludes with the field's engagement with other theories and movements, including trans studies, queer theory, critical race theory, postcolonial theory, and decolonial theory. The volume provides a rigorous but accessible resource for students and scholars who are interested in feminist philosophy and how feminist philosophers situate their work in relation to the philosophical mainstream and other disciplines. Above all, it aims to showcase the rich diversity of subject matter, approach, and method among feminist philosophers.

The Feminist Bookstore Movement Kristen Hogan, 2016-03-10 From the 1970s through the 1990s, more than one hundred feminist bookstores built a transnational network that helped shape some of feminism's most complex conversations. Kristen Hogan traces the feminist bookstore movement's rise and eventual fall, restoring its radical work to public feminist memory. The bookwomen at the heart of this story, mostly lesbians and including women of color, measured their success not by profit but by developing theories and practices of lesbian antiracism and feminist accountability. At bookstores like BookWoman in Austin, the Toronto Women's Bookstore, and Old Wives Tales in San

Francisco and in the essential Feminist Bookstore News bookwomen changed people's lives and the world. In retelling their stories, Hogan not only shares the movement's tools with contemporary queer antiracist feminist activists and theorists; she gives us a vocabulary, strategy, and legacy for thinking through today's feminisms.

Native American Women's Studies

Stephanie A. Sellers, 2008. This introduction to the fundamentals of Native American women's studies first looks at several definitive topics created by the western cultural notion of feminism and western historical and religious perspectives on women. These include ecofeminism, gender roles and work, notions of power, essentialism, women's leadership, sexualities, and spirituality in light of gender. The book then discusses these concepts and their history from a traditional Native American point of view. Foremost among the questions that Native American Women's Studies addresses are: How have Native American women governed their nations? How was the divine creatrix expressed in Native American social systems? Most significantly, this book sheds light on the radical differences between the indigenous understanding of human experience in terms of gender and that held and created by western culture.
