Reading Otherways:

Reading Otherways Lissa Paul, 1998 Lissa Paul writes with insight and authority about a matter all English teachers will find compelling how the ways we analyze and teach literature shape our views and expectations of the world This accessible book will sharpen literary sensibilities and enhance our teaching *Literature as a Heritage: or Reading other Ways (Inaugural Lecture)* Marilyn Butler, 1988-04-21 **Children's Literature as Communication** Roger D. Sell, 2002-01-01 In this book members of the ChiLPA Project explore the children's literature of several different cultures ranging from ancient India nineteenth century Russia and the Soviet Union to twentieth century Britain America Australia Sweden and Finland The research covers not only the form and content of books for children but also their potential social functions especially within education These two perspectives are brought together within a theory of children's literature as one among other forms of communication an approach that sees the role of literary scholars critics and teachers as one of mediation Part I deals with the way children's writers and picturebook makers draw on a culture's available resources of orality literacy intertextuality and image Part II examines their negotiation of major issues such as the child/adult distinction gender politics and the Holocaust Part III discusses children's books as used within language education programmes with particular attention to young readers pragmatic processing of differences between the context of writing and their own context of reading *The Writings of Hesba Stretton* Elaine Lomax, 2016-12-05 Highly respected as a writer by critics and commentators Hesba Stretton 1832-1911 was a vigorous campaigner for the rights of oppressed minorities and a founding member of the London Society for the Prevention of Cruelty to Children Though she is known today primarily as a writer of evangelical fiction for young people including Jessica's First Prayer this characterization fails to acknowledge the extensive range of her writings and social activism Elaine Lomax re-examines Stretton's writing for children and adults situating her body of work within the broad social and cultural context of its production to expose the depth and complexity of Stretton's engagement with contemporary ideas debates and discourses Mining nineteenth century periodicals archival materials and the minutes of the Religious Tract Society as well as Stretton's own revealing log books Lomax demonstrates Stretton's preoccupation with those at the bottom or on the margins of society At the same time she advances our understanding of the intersection of cultural and literary representations of the child and childhood with wider images of the colonized or excluded and our knowledge of the history and development of juvenile literature and women's writing **Keywords for Children's Literature, Second Edition** Philip Nel, Lissa Paul, Nina Christensen, 2021-01-12 Introduces key terms global concepts debates and histories for Children's Literature in an updated edition Over the past decade there has been a proliferation of exciting new work across many areas of children's literature and culture Mapping this vibrant scholarship the Second Edition of **Keywords for Children's Literature** presents original essays on essential terms and concepts in the field Covering ideas from Aesthetics to Voice an impressive multidisciplinary cast of scholars explores and expands on the vocabulary central to the study of

Trites, 1998-04-01 The Young Adult novel is ordinarily characterized as a coming of age story in which the narrative revolves around the individual growth and maturation of a character but Roberta Trites expands this notion by chronicling the dynamics of power and repression that weave their way through YA books Characters in these novels must learn to negotiate the levels of power that exist in the myriad social institutions within which they function including family church government and school Trites argues that the development of the genre over the past thirty years is an outgrowth of postmodernism since YA novels are by definition

texts that interrogate the social construction of individuals Drawing on such nineteenth century precursors as *Little Women* and *Adventures of Huckleberry Finn* *Disturbing the Universe* demonstrates how important it is to employ poststructuralist methodologies in analyzing adolescent literature both in critical studies and in the classroom Among the twentieth century authors discussed are Blume Hamilton Hinton Le Guin L Engle and Zindel Trites work has applications for a broad range of readers including scholars of children s literature and theorists of post modernity as well as librarians and secondary school teachers *Disturbing the Universe* *Power and Repression in Adolescent Literature* by Roberta Seelinger Trites is the winner of the 2002 Children s Literature Association s Book Award The award is given annually in order to promote and recognize outstanding contributions to children s literature history scholarship and criticism it is one of the highest academic honors that can accrue to an author of children s literary criticism
