Reading Rorty Critical Responses To Philosophy And The Mirror Of Nature And Beyond:

Reading Rorty Alan R. Malachowski, 1990 In *Philosophy and the Mirror of Nature* Richard Rorty presented his provocation and influential vision of the post philosophical culture calling upon professional philosophers to accept that epistemology is dead that the analytic method is a myth and that philosophy and science are merely forms of literature

Postmodern Philosophical Critique and the Pursuit of Knowledge in Higher Education Roger Mourad, 1997-08-30 This work explores the philosophical positions of five postmodern thinkers Lyotard Rorty Schrag Foucault and Derrida to show how their critiques imply that scholars are unduly limited by the belief that inquiry is fundamentally about gaining knowledge of phenomena that are assumed to exist prior to and independent of inquiry and to persist essentially unchanged by inquiry The author argues that there are good reasons why this constraint is both unnecessary and undesirable and he resituates the disciplines within a more flexible foundation that would expand what counts as legitimate inquiry This foundation would emphasize the inquirer as a cause of reality not just an observer who aims to accurately describe and explain phenomena Mourad proposes an intellectual and organizational form which he calls post disciplinary research programs These dynamic programs would be composed of scholars from diverse disciplines who collaborate to juxtapose disparate disciplinary concepts in order to create contexts for post disciplinary inquiries

Reason, Truth, and Theology in Pragmatist Perspective Paul D. Murray, 2004 In this work Paul Murray explores which style of rationality is most appropriate to Christian theology in the contemporary pluralist postfoundationalist postmodern context At its heart is a fresh consideration of the American pragmatist tradition focussing on the writings of Richard Rorty and Nicholas Rescher Where Rorty correctly diagnoses the failures of foundationalist objectivism Rescher's pragmatic idealism is presented as healing the ills in Rorty's own neo pragmatism The significant resonance between Rescher's view of rationality and Christian understanding of the trinity is explored In turn Donald MacKinnon's influential writings are presented as exemplifying just such an approach to theology Murray both articulates an enriched form of Christian postliberalism committed to receiving and learning from other traditions of thought and practice and probes the claim that the dynamics of human rationality can be expected to reflect the Trinitarian dynamics of God's being Paul Murray presents us here with an exhaustive and insightful study of recent pragmatic theory in which he sets up rhythms of healing and completion as well as interrogation particularly remarkable is his exploration of Christianity as the deep and in some sense final interlocutor of pragmatic tradition I strongly recommend this book Olivier Davis Professor of Christian Doctrine King's College London This is a mature wide ranging work that by uniting the intellectual and the practical carries both rational and ethical conviction It does equal justice to the classic teachings of Christianity and to the challenges to rethink them in dialogue with modern and postmodern approaches The result is a conception of Christianity both generously orthodox and deeply engaged with contemporary life and thought It is especially good to see the profound contribution of Donald MacKinnon understood and developed with such perception and

relevance David F Ford Regius Professor of Divinity University of Cambridge Paul Murray is currently Lecturer in Systematic Theology within the Department of Theology at the University of Durham England He has previously held posts at St Cuthbert's Seminary Ushaw College Durham and Newman College of Higher Education Birmingham Essays of his exploring issues in philosophical theology science and theology and contemporary Roman Catholic theology have appeared in leading journals and edited collections This is his first monograph Affective legal analysis Frank Fleerackers, Josef Heinz Müller, Wilfried Burkhardt, 2019 Indeed if the legal field is to be understood as instrumental to democracy's cohabitation of individuals research on dispute resolution remains pre eminent as a means to understand how individual views differ and how different views can be overcome As a central part of conflict analysis such research would assist an interdisciplinary quest for a dynamic understanding of democracy and law It would focus on how different individuals with different conceptions of the good can live together in their community in their world Scientific research in the fields of communication economics psychology history political theory and philosophy to name but a few would side with legal theory in a shared ambition to analyze the way individuals are affected by their views as well as by their institutions in order to provide society with a dynamic means to solve conflicts and enhance citizenship or legal awareness Such research necessarily coincides with empathy oriented education directed towards an understanding of different conflict positions and the related comprehensive or non comprehensive views affecting them An affective education analyzing all affective mechanisms of societal or interpersonal disputes and their legal or alternative resolution A clinical education offering an interactive simulation with regard to these positions and their affective impact demonstrating how individual views continuously affect the positions taken how disputes are affected by the legal or other institutions that attempt to solve them and how the effectiveness of legal or other solutions to the conflict at hand depends on a practice of affective legal analysis Thus legal and civic education by way of affective narration and clinical simulation join affective legal analysis in its endeavor to provide society with a similarly affective and non rationalizing approach of legal awareness

Ethics, Justice and International Relations

Peter Sutch, 2013-04-15 This topical and timely book critically explores contemporary liberal international relations theory In the fifty years since the declaration of human rights the language of international relations has come to incorporate the language of justice and injustice The book argues that if justice is to become the governing principle of international politics then liberals must recognise that their political preferences cannot be the preconditions of global ethics The hierarchy of international political ethics must be constructed afresh so that the first principles of justice are accessible to all agents as political and ethical equals This book will be essential reading for students and scholars in politics international relations political theory and ethics *Beyond Realism and Antirealism* David L. Hildebrand, 2021-04-30 Perhaps the most significant development in American philosophy in recent times has been the extraordinary renaissance of Pragmatism marked most notably by the reformulations of the so called Neopragmatists Richard Rorty and Hilary Putnam With Pragmatism offering

the allure of potentially resolving the impasse between epistemological realists and antirealists analytic and continental philosophers as well as thinkers across the disciplines have been energized and engaged by this movement In *Beyond Realism and Antirealism* John Dewey and the Neopragmatists David L Hildebrand asks two important questions first how faithful are the Neopragmatists reformulations of Classical Pragmatism particularly Deweyan Pragmatism Second and more significantly can their Neopragmatisms work In assessing Neopragmatism Hildebrand advances a number of historical and critical points Current debates between realists and antirealists as well as objectivists and relativists are similar to early twentieth century debates between realists and idealists that Pragmatism addressed extensively Despite their debts to Dewey the Neopragmatists are reenacting realist and idealist stands in their debate over realism thus giving life to something shown fruitless by earlier Pragmatists What is absent from the Neopragmatist s position is precisely what makes Pragmatism enduring namely its metaphysical conception of experience and a practical starting point for philosophical inquiry that such experience dictates Pragmatism cannot take the linguistic turn insofar as that turn mandates a theoretical starting point While Pragmatism s view of truth is perspectival it is nevertheless not a relativism Pace Rorty Pragmatism need not be hostile to metaphysics indeed it demonstrates how pragmatic instrumentalism and metaphysics are complementary In examining these and other difficulties in Neopragmatism Hildebrand is able to propose some distinct directions for Pragmatism *Beyond Realism and Antirealism* will provoke specialists and non specialists alike to rethink not only the definition of Pragmatism but its very purpose

Pragmatist Egalitarianism David Rondel,2018 Pragmatist Egalitarianism argues that a deep impasse plagues philosophical egalitarianism It sets forth a conception of equality rooted in American pragmatist thought specifically William James John Dewey and Richard Rorty that successfully mediates that impasse

Rorty's Elective Affinities Marek Kwiek,1996-04-01 The present book is devoted to European connections of Richard Rorty s neopragmatism Rorty can be connected to numerous controversies polemics and discussions with European philosophy and within its framework from Plato to Kant to Hegel to Habermas to Derrida Rorty gets into European discussions with American freshness and intellectual breadth and therefore he was listened to carefully and read with great interest His connections with European philosophical tradition are manifold complicated and diversified with a part of it he remains in a serious deep controversy Plato Kant with another part of it he remains in a cheerful agreement young Hegel from Phenomenology Nietzsche the early Heidegger the late Wittgenstein It is also the case with his connections with contemporary European philosophy apart from favorites Derrida Habermas there are those he dislikes the late Heidegger Foucault Rorty as a philosopher of the unprecedented erudition in his philosophizing takes a stance towards the whole philosophy which from our perspective of more than twenty five hundred years and Greek origins of philosophical conceptuality is European first and foremost We refer here to a polemical context of Rorty s writing it gives us the possibility of showing him from the perspective of others and in

comparison with others The present book never had monographic intentions it does not want to tell a complete story of its philosophical protagonist in the manner of a German Bildungsroman that presents its hero from the perspective of passing time nor does it want to present the whole of Rorty's work from a unifying viewpoint or to present particular stages of Rorty's development particular books starting with the early Rorty with the medium one to the late Rorty if the first would be supposed to be Rorty until *Philosophy and the Mirror of Nature* the second Rorty from this book and the latest Rorty from *Contingency Irony and Solidarity* onwards The book presented here intentionally is not a monograph hence its poetics and architecture are different Rorty is a philosopher who is still writing and we intended to provide his past writings with a new dimension presenting recontextualizations and redescriptions of them in the light of what he is thinking at the moment We have assumed here the following principle the work consists of chapters followed by philosophical excursions The former are focused on Rorty's philosophy the latter show his philosophy in struggles with other contemporary and past philosophers providing a more general philosophical background Philosophers from excursions as well as Rorty's polemics with them throw as much light to his philosophy as chapters themselves But they show it in a slightly different wider perspective necessary in my view for a more general and culturally significant understanding of importance of his philosophy Thus heroes of the excursions presented here are Jacques Derrida Jean-François Lyotard Michel Foucault Jürgen Habermas and Zygmunt Bauman as well as such great past philosophical figures as G.W.F. Hegel and Plato Why these philosophers rather than others First of all due to their importance to the development of Rorty's philosophy by means of defining its position with reference to their philosophical settlements or by means of philosophical tensions born between them Two factors were decisive the role played in Rorty's philosophy as he can see it and the role played in it as we can see it It is rather excursions that provide most contextual material to Rorty's work it is them that trace in detail his European connections The picture that emerges from them is fascinating due to Rorty's versatility because it is something totally different that is at stake in Rorty's struggles for fame and immortality with Derrida as I am trying to outline the debate here something else it is at stake in his political discussions with Lyotard and something still else in merely philosophical as he calls them debates with Habermas Without these contextual pieces I might be afraid that the book would be dry and devoid of the cultural surrounding of postmodernity in which Rorty's work has been written If Rorty's philosophy takes its life juice from controversies with European philosophy it is hard to imagine for me to cut them off in the present work and they are essential in my view to show the significance of Rorty's neopragmatism they are in tune I hope with the Rortyan way of practising philosophy

philosophers at all levels of their professional development the goal of the collection is to offer a glimpse at the current state of Kantian scholarship in the US The essays collected here cover some of the most important and controversial themes in Kant's philosophy questions of freedom the relation between anthropology and morality the notion of the highest good and Kant's teleology radical evil and revolution The last section places Kant in the context of German Idealism and contemporary discussions in analytic philosophy and liberal political theory Some critical other exegetical or apologetic all these essays show a sustained effort to Rethinking Kant and indicate his importance for current philosophical debates On Truth and Meaning Christopher Norris, 2006-08-15 Examining key issues in the philosophy of logic mind and language this book proposes grounds for a different era of cooperation and mutual interrogative exchange between the two schools of thought It explores both traditions alongside one another in order to point up certain contrasts or communities of interest

Overcoming Law Richard A. Posner, 1995 Legal theory must become more factual and empirical and less conceptual and polemical Richard Posner argues in this wide ranging new book The topics covered include the structure and behavior of the legal profession constitutional theory gender sex and race theories interdisciplinary approaches to law the nature of legal reasoning and legal pragmatism Posner analyzes in witty and passionate prose schools of thought as different as social constructionism and institutional economics and scholars and judges as different as Bruce Ackerman Robert Bork Ronald Dworkin Catharine MacKinnon Richard Rorty and Patricia Williams He also engages challenging issues in legal theory that range from the motivations and behavior of judges and the role of rhetoric and analogy in law to the rationale for privacy and blackmail law and the regulation of employment contracts Although written by a sitting judge the book does not avoid controversy it contains frank appraisals of radical feminist and race theories the behavior of the German and British judiciaries in wartime and the excesses of social constructionist theories of sexual behavior Throughout the book is unified by Posner's distinctive stance which is pragmatist in philosophy economic in methodology and liberal in the sense of John Stuart Mill's liberalism in politics Brilliantly written eschewing jargon and technicalities it will make a major contribution to the debate about the role of law in our society The Nature of Confession George A. Lindbeck, 1996-01-01 Voted one of Christianity Today's 1997 Books of the Year Ours is an age of profound cultural change in which new categories and alliances are bound to arise In theology the liberal strategy has lost support having degenerated into mere anthropology and succumbed to the political agendas of its proponents And while the evangelical movement appears to be gaining ground it is simultaneously suffering an acute identity crisis Currently the postliberal or Yale school movement has found a strong resonance in some mainline denominational circles Its emphasis on the biblical text and Jesus Christ through which all other reality needs to be construed may turn out to be the most significant theological realignment in more than a century Are we witnessing a paradigm shift Can evangelicals and postliberals make common confession Might they even combine forces to reinvigorate the church its theology and its mission for a new era In this groundbreaking book creative evangelical and

postliberal thinkers explore exactly how they agree and disagree along a range of issues from epistemology and theological method to doctrinal concerns Evangelical contributors include such significant theologians as Alister McGrath and Gabriel Fackre Postliberal contributors include George Lindbeck a founding father of postliberalism and George Hunsinger the former student and major interpreter of the late Hans Frei another founder of postliberalism In *The Nature of Confession* we are presented with the beginnings of a robust discussion of real importance to both the academy and the church

The Pragmatic Mind Mark Bauerlein, 1997 English professor Mark Bauerlein studies the pragmatism of Emerson James and Peirce and its overlooked relevance for the neopragmatism of later thinkers Bauerlein argues that those original pragmatists are often cited casually and imprecisely as mere precursors to contemporary intellectuals but in fact many broad social and academic reforms hailed by new pragmatists were actually grounded in the old school

Democratic Problem-Solving Justin Cruickshank, Raphael Sassower, 2017-04-05 To what extent is neoliberalism undermining democracy and distorting the values of science Can and should science be treated as an exemplar for a more dialogic democracy Are universities and public intellectuals able to develop a more dialogically engaged public What role should there be for experts in a more dialogic democracy Does information and communications technology present a potential to enhance democracy or increase the control and manipulation of knowledge and the public by corporations This timely volume explores these pressing questions in a dialogue based on developing and applying the recovery of the critical Popper which highlights his contemporary relevance to the critique of neoliberal political economy in the age of technocapitalism This book will be discussed in an online roundtable on the Social Epistemology Review and Reply Collective Information about the SERRC can be found here <https://social.epistemology.com>

Derrida Madeleine Fagan, 2007-04-18 death of Jacques Derrida in 2004 represented a major interruption in contemporary intellectual life This death calls for an engagement with Derrida's work and an attempt to understand his legacy Such a discussion is fraught with tension between remaining faithful after death and putting Derrida's writing to work in new directions posing challenges and exposing limitations In short this legacy is necessarily a negotiation The aim of this book is to grapple with this specific theme and to explore the implications of Derrida's death for the future of critical thought itself The authors demonstrate that there is no single way to adopt or inherit Derrida's thought Rather through their engagement with contemporary themes within Politics and International Studies Philosophy Literary Studies and Postcolonial Studies each chapter illuminates the degree to which on going reflection radical critique and above all radical self critique are demanded by deconstruction This book provides the key st
