**Postcolonial Commentary and the Old Testament** Hemchand Gossai, 2018-11-01 This is the first volume to provide a wide range of postcolonial interpretations of and commentaries upon significant texts in the Hebrew Bible The volume intersects with the work of the key theorists in postcolonial studies such as Fanon Senghor Said and Spivak as well as with scholars such as Sugirtharajah Kwok Pui lan and Segovia who have applied this theory to biblical studies Texts have been chosen specifically for their relevance to postcolonial discourse rather than seeking to cover each biblical document This volume is designed to demonstrate how historical criticism postmodernism and the important concerns of postcolonial readings may be integrated to obtain an informed explanation of the Hebrew Bible and the writings of early Judaism The chapters are written by scholars who represent a spectrum of national indigenous and diasporic contexts Taken together these perspectives and the interpretations they yield represent a continued expansion of the manner in which Old Testament texts are read and interpreted through postcolonial lenses reminding readers that the interpretive trajectories of these texts are almost inexhaustible As such the volume serves as not only an addition to ongoing scholarship on postcolonialism but also as an expansion of the horizon for dialogue

*The Cosmic Journey in the Book of Revelation* Joel M. Rothman,2023-05-18 Joel M Rothman considers the significance of cosmology in biblical and extra biblical texts and the role of the cosmic journey in many apocalyptic narratives He posits that Revelation s narrative likewise takes the hearer on a virtual journey through a cosmic story space of great theological significance While scholarship commonly assumes a three tiered cosmos in Revelation Rothman argues that Revelation s narrative operates in a four tiered cosmos with the hyper heaven sitting above the sky heaven earth and abyssal depths a cosmic story space that is recreated in the imagination of the hearers Beginning with a methodology of visual narrative reading Rothman then discusses the assumptions and existing conceptions regarding heaven and earth He stresses that Revelation does not exhibit tension in its portrayal of heaven between heaven as a site of conflict and heaven as the realm in which God truly reigns but rather shows readers a sky heaven characterised by archetypal conflict between powerful sky beings and a hyper heaven defined by full recognition of the Throne In journeying through the sky structure and God space and by analysing the four cosmic layers in operation the distinct nature of the two sky spaces cosmic change and the ideological import of the cosmic structure Rothman demonstrates that the existence of the hyper heaven in contradistinction with the limited lived cosmos of earth and sky heaven is a present guarantee of the final cosmic transformation that creates a new space for human life exclusive of imperial draconian elements

**The Earth Story in the New Testament** Norman C. Habel, Vicky Balabanski, 2002-10-01 The Earth Bible is an international project including volumes on ecojustice readings of major sections of the Bible The basic aims of the Earth Bible project are to develop ecojustice principles appropriate to an Earth hermeneutic for interpreting the Bible and for promoting justice and healing for Earth to publish these interpretations as contributions to the current debate on ecology ecoethics and ecotheology to provide a responsible forum within which the suppressed voice of Earth may be heard and impulses for healing Earth may be generated The project explores text and tradition from the perspective of Earth employing a set of ecojustice principles developed in consultation with ecologists suspecting that the text and or its interpreters may be anthropocentric and not geocentric but searching to retrieve alternative traditions that hear the voice of Earth and value Earth as more than a human instrument The lead article in Volume V is a reflection in responses to the ecojustice principles employed in the hermeneutic of the project Several articles offer insights into New Testament texts that seem to devalue Earth in favour of heaven The final article by Barbara Rossing challenges the popular apocalyptic notion that in the new age Earth will be terminated A feature of this volume is a dialogue between Norman Habel who argues that John One seems to devalue Earth and two respondents Elaine Wainwright and Vicky Balabanski who is coeditor of this volume with Norman Habel 1
