Dawson,Douglas E. Cowan,2013-05-13 Religion Online provides an accessible and comprehensive introduction to this burgeoning new religious reality from cyberpilgrimages to neo pagan chatroom communities A substantial introduction by the editors presenting the main themes and issues is followed by sixteen chapters addressing core issues of concern such as youth religion and the internet new religious movements and recruitment propaganda and the countercult and religious tradition and innovation      **How Prophecy Lives** Diana Tumminia,William H. Swatos,2011-09-20 Taking its inspiration from the 50th anniversary of the publication of Festinger et al s 1956 seminal and controversial volume *When Prophecy Fails* which introduced the notion of cognitive dissonance as an explanation for how a

small group of flying saucer devotees handled the failure of a predicted visit from space aliens this volume looks at both theoretical and empirical studies of religious groups for whom space beings and civilizations provided an inspiration to prepare for the nearness of events that would trigger the end of the world Rather than examining merely the rationales adopted to account for the disappointments associated with such failures the core of the present volume seeks to explore the dynamics that inspire not only such beliefs but also the vigorous participation in activities in which adherents engage to prepare for the coming of or transport to alien civilizations from outer space Contributors include Lorne L Dawson Arthur L Greil Ralph W Hood Jr Benton Johnson Salvador J Murguia Jon R Stone Bradley Whitsel and Stuart A Wright **The SAGE Handbook of Sociolinguistics** Ruth Wodak,Barbara Johnstone,Paul E Kerswill,2011 This Handbook answers a long standing need for an up to date comprehensive international in depth critical survey of the history trajectory data results and key figures involved in sociolinguistics The result is a work of unprecedented coverage and insight It is all here from the foundational contributions to the field to the impact of new media new technologies of communication globalization trans border fluidities and agendas of research *The Publishers Weekly* ,1899 **Professional Journal of the United States Army** ,1999 **Environmental Invasion and Social Response** Douglas M. Fraiser,2019-01-01 As governments corporations and settlers race to take the world s forests for their own what happens to the indigenous peoples who live there Are they at the mercy of overwhelming forces destined to lose livelihood identity and respect as they are dispossessed and assimilated This account of the Dulangan Manobo an indigenous people of the Philippines whose rainforest homeland is being appropriated by loggers and settlers from the country s dominant society explores how one embattled society is changing its social organization to withstand outside forces Environmental Invasion and Social Response examines the evolution of coordinated action among the Manobo from its roots in religious response through the development of numerous civil organizations to its culmination in the emergence of indigenous land rights organizations Despite government favoritism toward loggers and settlers longstanding enemies of natural forests the Manobo have continued to develop new social structures for cooperation in pursuit of rights to their ancestral homeland The success of their efforts will play a large part in determining the forest s future destruction at the hand of outsiders or effective and sustainable management by those who have always lived there **Revisiting Suicide** Kanchan Bharati,Lancy Lobo,Jayesh Shah,2020-11-19 This book provides a socio psychological enquiry of the phenomenon of suicide in the Indian context It addresses the rising trend of suicides across the world and through case studies explores its primary reasons the after effects on survivors and families and measures to prevent them The volume focuses on deciphering the social and psychological meanings associated with suicide Through an examination of psycho social autopsies of numerous cases it highlights the patterns and trends which emerge around mental well being suicide and bereavement It examines the primary roadblocks for robust suicide prevention measures and provides great insights into behavioral and personality categories and their relationship with suicide Offering

**Transforming Economics** Paul Lewis, 2004-08-02 Economics has become polarised On the one hand there is a body of economists who concern themselves with progressing their discipline via an increasing use of mathematical modelling On the other hand there are economists who believe passionately that in order for economics to be useful it needs to take account of its history its impact on society and its real world applications The contributors to this book fix their scholarly glare on the heterodox section of economics and in particular upon critical realist approaches to the subject Experts from a variety of perspectives have come together in these pages to examine the impact and usefulness of critical realism in relation to the different spheres within economics Notable for its contributions from such distinguished figures as Clive Granger Edward J Nell and Peter J Boettke this book deserves to find a ready audience across the economics spectrum
