Contributing to modern discussions of Islam and political ethics this book is of interest to scholars and researchers of political philosophy comparative ethical thought and Islamic studies **Professional Journal of the United States Army**, 1996 **Mismanagement and Conflicts of Interest in the Reading First Program** United States. Congress. House. Committee on Education and Labor, 2007 **Ethics and College Student Life** Kenneth A. Strike, Pamela A. Moss, 1997

Kolb, 2018-03-27 Thoroughly revised updated and expanded The SAGE Encyclopedia of Business Ethics and Society Second Edition explores current topics such as mass social media cookies and cyber attacks as well as traditional issues including accounting discrimination environmental concerns and management The new edition also includes an in depth examination of current and recent ethical affairs such as the dangerous work environments of off shore factories for Western retailers the negligence resulting in the 2010 BP oil spill the gender wage gap the minimum wage debate and increasing income disparity and the unparalleled level of debt in the U S and other countries with the challenges it presents to many societies and the considerable impact on the ethics of intergenerational wealth transfers Key Features Include Seven volumes available in both electronic and print formats contain more than 1 200 signed entries by significant figures in the field Cross references and suggestions for further readings to guide students to in depth resources Thematic Reader s Guide groups related entries by general topics Index allows for thorough browse and search capabilities in the electronic edition *Military Review*, 1996 **Applying Ibn Khaldūn** Syed Farid Alatas, 2014-06-05 The writings of Ibn Khald n particularly the Muqaddimah Prolegomenon have rightly been regarded as being sociological in nature For this reason Ibn Khald n has been widely regarded as the founder of sociology or at least a precursor of modern sociology While he was given this recognition however few works went beyond proclaiming him as a founder or precursor to the systematic application of his theoretical perspective to specific historical and contemporary aspects of Muslim societies in North Africa and the Middle East The continuing presence of Eurocentrism in the social sciences has not helped in this regard it often stands in the way of the consideration of non Western sources of theories and concepts This book provides an overview of Ibn Khald n and his sociology discusses reasons for his marginality and suggests ways to bring Ibn Khald n into the mainstream through the systematic application of his theory It moves beyond works that simply state that Ibn Khald n was a founder of sociology or provide descriptive accounts of his works Instead it systematically applies Khald n s theoretical perspective to

specific historical aspects of Muslim societies in North Africa and the Middle East successfully integrating concepts and frameworks from Khald nian sociology into modern social science theories Applying Ibn Khald n will be of interest to students and scholars of sociology and social theory **Artificial Intelligence in Education** Alexandra I.
