The Pawnee Ghost Dance Hand Game Alexander Lesser, 1996-01-01 The Ghost Dance religion that swept through the Plains Indian tribes in the early 1890s was embraced wholeheartedly by the Pawnees It was a message of hope to a people devastated by the attacks of enemy tribes the encroachment of white settlers and the outbreak of epidemics For the Pawnees who were looking to the U S government and trying unsuccessfully to farm their land the Ghost Dance

movement promised salvation a restoration of the Indian dead the buffalo and the old times Alexander Lesser shows how the Ghost Dance brought about a partial revival of traditional Pawnee culture and its dances and songs The ancient guessing hand game remembered best by a tribe starved for the joy of play became an important part of the Ghost Dance ritual What had been a gambling game a representation of warfare played by men was transformed into a sacred game played by both sexes as an expression of faith or good fortune Lesser surveys the history of the Pawnee Indians and their relations with the federal government and describes in detail the Ghost Dance hand games that were the chief intellectual product of Pawnee culture from the onset of the messianic movement to the original publication of this book in 1933 Citing such authorities as James Mooney and Stewart Culin Lesser produced an enduring classic now introduced by Alice Beck Kehoe a professor of anthropology at Marquette University and the author of *The Ghost Dance Ethnohistory and Revitalization*

Archeology in Cultural Systems Sally R. Binford, Lewis Roberts Binford, Archeology shares with other anthropological sciences the goal of explaining differences and similarities among cultural systems Sally R Binford and Lewis R Binford therefore are concerned with theory and arguments which treat problems of the interrelationship of cultural variables with explanatory value Archeology in Cultural Systems is devoted to four different aspects of archeology This book progresses from theoretical methodological discussions to specific consideration of archeological materials It focuses on the analysis of archeological remains from a single site Its concern is primarily with recognizing measuring and explaining variability in the form and distribution of a site's cultural remains The authors argue that internal variability derives from the composition and distribution of societal segments represented at the site The work then shifts to study of archeological components or their attributes and seeks explanations for observed differences and similarities A final section of the volume comments and discusses materials in the volume Archeology in Cultural Systems is not a monolithic presentation of any particular school of archeological thought There are common interests and many points of agreement among the authors but there is also diversity of opinion on several points These points are the focus of research here Lewis R Binford is professor emeritus of anthropology at the University of New Mexico He is the author of *In Pursuit of the Past Decoding the Archaeological Record and Constructing Frames of Reference An Analytical Method for Archaeological Theory Building Using Hunter Gatherer and Environmental Data Sets* Sally R Binford was professor of anthropology at the University of New Mexico She is the author of *Stone Tools and Human Behavior*

Survey Research in the Social Sciences Charles Y.
