Empowering Children R. Brian Howe, Katherine Covell, 2007-06-09 Approved by the General Assembly of the United Nations in 1989 the United Nations Convention on the Rights of the Child affirms that children in all countries have fundamental rights including rights to education To date 192 states are signatories to or have in some form ratified the accord Children are still imperilled in many countries however and are often not made aware of their guaranteed rights In Empowering Children R Brian Howe and Katherine Covell assert that educating children about their basic rights is a necessary means not only of fulfilling a country's legal obligations but also of advancing education about democratic principles and the practice of citizenship The authors contend that children's rights education empowers children as persons and as rights respecting citizens in democratic societies Such education has a contagion effect that brings about a general social knowledge on human rights and social responsibility Although there remain obstacles to the implementation of children's rights in many countries Howe and Covell argue that reforming schools and enhancing teacher education are absolutely essential to the creation of a new culture of respect toward children as citizens Their thorough and passionate work marks a significant advance in the field Winners and Losers Irving Louis Horowitz, 1984 Leading sociologist Irving Louis Horowitz examines the response social science has made to contemporary subjects and issues the so called new class of the intelligentsia the ecology movement social planning alienation privatization anomie the threat of nuclear war Horowitz evaluates as a social scientist the question of values those disclosed through analysis and those threatened by it and discusses the overall political and moral impact of knowledge and methodology in social science **National Library of Medicine Current Catalog** National Library of Medicine (U.S.),1971 Adult Personality Development Lawrence S. Wrightsman, 1994-03-15 This stimulating book and its companion volume Adult Personality Development Theories and Concepts reflect an expansion of the coverage of Wrightsman's initial book Personality Development in Adulthood The luxury of greater length has permitted an exploration of new topics including the use of a wider variety of sources including

scholarly articles and books biographies and case studies Increased attention is devoted to creativity in adulthood to learning and memory to marriage stability and other topics The book provides a focus for a Psychology of Adulthood course that encourages students to look at the evolving nature of their own lives Particular attention is given to developing an extensive set of references over 700 in this volume as an aid to scholars Publisher description **Becoming A Family Rena** D. Harold, Patricia Stow Bolea, Lisa G. Colarossi, Lucy R. Mercier, Carol R. Freedman-Doan, 2014-04-08 The movement from young adulthood through coupling and the transition to parenthood may be among the most universal adult developmental transitions These passages hold interest for all of us but especially for those who study the psychological familial and sociocultural components of development all of which interact and influence each other This book enhances understanding of family life development by shedding light on the meanings that family members ascribe to the developmental process of becoming a family This is achieved through qualitative analysis of narratives through which individuals and families explain themselves their thinking and their behavior These family narratives are windows into individual and family identity as well as descriptions of connections to others The book addresses issues including identity child characteristics social support and work Each chapter includes a review of seminal literature parents comments and ideas about the topic and a discussion of practice policy and research implications Coming of Age in Times of Uncertainty Harry Blatterer, 2009-07 Adulthood is taken for granted It connotes the end of childhood the resolution to the storm and stress period of adolescence This conception is strongly entrenched in the sociology of youth and the sociology of the life course as well as in the policy arena At the same time adulthood itself remains unarticulated journey s end remains conceptually fixed and theoretically uncontested Adulthood then is both central to the social imagination and neglected as an area of sociological investigation something that has been noted by sociologists over the last four decades Going beyond the overwhelmingly psychological literature this book draws on original qualitative research and theories of social recognition and thus presents a first step towards filling an important gap in our understanding of the meaning of adulthood Clinical Gerontology T.L. Brink, 2014-04-04 Here is a major text in psychogeriatrics for all professionals in the field of aging and mental health Leading authorities provide valuable insights into assessment and intervention techniques for use with the mentally impaired elderly Topics include a depression scale for use in later life family therapy therapy in later life and various issues concerning mental 300 Ways to Make the Best Christmas Ever! The author has retained the constructivist approach that made previous editions so engaging and relevant to student teachers and content has been constructed around the new Australian Profession Standards for Teachers Moral Development and Politics Richard W. Wilson, Gordon J. Schochet, 1980 Comprehensive Handbook of Psychopathology Henry E. Adams, 2013-12-18 The major purpose of this handbook is to provide a comprehensive review of current clinical descriptions research and theories of psychopathology Descrip tive psychopathology is a field that is the foundation of clinical practice and re search in clinical psychology psychiatry psychiatric social work psychiatric nursing and allied professions in mental health Psychopathology is often per ceived as a stepchild of the more glamorous areas of diagnosis or assessment and therapy or behavioral change Nevertheless it is doubtful that any meaningful advancements in these areas will occur until there is a thorough understanding of the behavioral disorders. The purpose of the present project was to devise a handbook that covered both general and specific topics in psychopathology and that would be useful to re searchers practitioners and graduate or other advanced students in the mental health professions In order to implement this plan we selected very carefully colleagues whom we respect for their expertise in particular fields These include both clinicians and researchers with outstanding national reputations as well as more junior behavioral scientists and clinicians who in our opinion will achieve similar recognition in the future The chapters in this book lead us to believe that we have chosen wisely We would like to express our appreciation to these authors for their outstanding contributions and cooperation

Unmasking Masculinity (Routledge Revivals) David Jackson,2015-08-11 In this detailed investigation of masculine gendered identity first published in 1990 David Jackson uses his own personal history to look at the specific ways in which men become masculine In doing so he examines but also offers some positive challenges to the assumed qualities and values

of growing up manly Jackson looks closely at the psychological and social forces active in his own development relations with his father violence at school male banter and joking sporting activities boys comics and sexual relations The title is a deliberate blend between life story and critical commentary that makes use of some areas of post structuralist theory to make visible the social and emotional processes that contribute to one man's life history. With an innovative theoretical approach this reissue will be of particular value to those interested in the social psychological and cultural forces that have gone into the historical shaping of men and masculinities Nature and Nurture Cynthia Garcia Coll, Elaine L.
