Readings In Interpretation Holderlin Hegel Heidegger:

Readings in Interpretation Andrzej Warminski, 1987 *Hegel After Derrida* Stuart Barnett, 2002-01-04 Hegel After Derrida provides a much needed insight not only into the importance of Hegel and the importance of Derrida's work on Hegel but also the very foundations of postmodern and deconstructionist thought It will be essential reading for all those engaging with the work of Derrida and Hegel today and anyone seeking insight into some of the basic but neglected themes of deconstruction *Blanchot* Leslie Hill, 2002-01-04 Blanchot provides a compelling insight into one of the key figures in the development of postmodern thought Although Blanchot's work is characterised by a fragmentary and complex style Leslie Hill introduces clearly and accessibly the key themes in his work He shows how Blanchot questions the very existence of philosophy and literature and how we may distinguish between them stresses the importance of his political writings and the relationship between writing and history that characterised Blanchot's later work and considers the relationship between Blanchot and key figures such as Emmanuel Levinas and Georges Bataille and how this impacted on his work Placing Blanchot at the centre stage of writing in the twentieth century Blanchot also sheds new light on Blanchot's political activities before and after the Second World War This accessible introduction to Blanchot's thought also includes one of the most comprehensive bibliographies of his writings of the last twenty years **Essays and Letters** Friedrich Hölderlin, 2009-08-27 One of Germany's greatest poets Johann Christian Friedrich Hölderlin 1770-1843 was also a prose writer of intense feeling intelligence and perception This new translation of selected letters and essays traces the life and thoughts of this extraordinary writer Hölderlin's letters to friends and fellow writers such as Hegel Schiller and Goethe describe his development as a poet while those written to his family speak with great passion of his beliefs and aspirations as well as revealing money worries and finally the tragic unravelling of his sanity These works examine Hölderlin's great preoccupations the unity of existence the relationship between art and nature and above all the spirit of the writer **The Near and Distant God** Ian Cooper, 2017-12-02 Poetry and philosophy from the time of Kant to the mid twentieth century are centrally concerned with the question of how the Spirit or the Holy Spirit is present in the world This book argues that the development of modern poetry in German and English can be seen as a protracted response to the religious crises of post Idealist thought The German tradition develops through poets such as Hölderlin as much as through philosophers such as Hegel and Nietzsche and in England German ideas profoundly influenced the British Idealist school Cooper's compelling study makes parallel readings of German and English writers with deeper historically based affinities than has previously been realised Eduard Morike and Gerard Manley Hopkins both churchmen each studied Idealism as undergraduates in their respective countries each responded to it in his spiritual verse And we find similar parallels in two of the defining works of twentieth century poetry between Rilke's response to Nietzsche in the Duino Elegies and Eliot's response to Bradley in the Four Quartets Ian Cooper is Centenary Research Fellow at Selwyn College Cambridge Material Inscriptions Andrzej

The Oxford Handbook of European Romanticism Paul Hamilton,2016-01-14 TThe Oxford Handbook to European Romanticism brings together leading scholars in the field to examine the intellectual literary philosophical and political elements of European Romanticism The book focuses on the cultural history of the period extending from the French Revolution to the uprisings of 1848 It begins with a series of chapters examining key texts written by major writers in languages including French German Italian Spanish Russian Hungarian Greek and Polish amongst others A second section then explores the naturally inter disciplinary quality of Romanticism exemplified by the different discourses with which writers of the time set up an internal comparative dynamic These chapters highlight the sense a discourse gives of being written knowledgeably against other pretenders to completeness or comprehensiveness of self understanding of the time Discourses typically advance their own claims to resume European culture collaborating with and at the same time trying to assimilate each other in the process The main examples featured here are history geography drama theology language philosophy political theory the sciences and the media Each chapter offers an original and individual interpretation of an inherently comparative world of individual writers and the discursive idioms to which they are historically subject Together the forty one chapters provide a comprehensive and provocative overview of European Romanticism

Exemplarity Jakub Mácha,2022-10-28 This book offers an original philosophical perspective on exemplarity Inspired by Wittgenstein's later work and Derrida's theory of deconstruction it argues that examples are not static entities but rather oscillate between singular and universal moments There is a broad consensus that exemplary cases mediate between singular instances and universal concepts or norms In the first part of the book Mácha contends that there is a kind of difference between singular examples and general exemplars or paradigms Every example is in part also an exemplar and vice versa Furthermore he develops a paracomplete approach to the logic of exemplarity which allows us to say of an exemplar of X neither that it is an X nor that it is not an X This paradox is structurally isomorphic to Russell's paradox and can be addressed in similar ways In the second part of the book Mácha presents four historical studies that exemplify the ideas developed in the first part This part begins with Plato's Forms understood as standards paradigms before considering Kant's theory of reflective judgment as a general epistemological account of exemplarity This is then followed by analyses of Hegel's conceptual moment of particularity and Kuhn's concept of paradigm The book concludes by discussing the speculative hypothesis that all our knowledge is based on paradigms which following the logic of exemplarity are neither true nor false The Philosophy of Exemplarity will be of interest to scholars and advanced students working in philosophy of language logic history of philosophy and literary theory *Madness and Death in Philosophy* Ferit Guven,2012-02-01 Ferit Guven

illuminates the historically constitutive roles of madness and death in philosophy by examining them in the light of contemporary discussions of the intersection of power and knowledge and ethical relations with the other Historically as G ven shows philosophical treatments of madness and death have limited or subdued their disruptive quality Madness and death are linked to the question of how to conceptualize the unthinkable but G ven illustrates how this conceptualization results in a reduction to positivity of the very radical negativity these moments represent Tracing this problematic through Plato Hegel Heidegger and finally in the debate on madness between Foucault and Derrida G ven gestures toward a nonreducible disruptive form of negativity articulated in Heidegger s critique of Hegel and Foucault s engagement with Derrida that might allow for the preservation of real otherness and open the possibility of a true ethics of difference
