The Challenge of History Christophe Chalamet, 2020-04-07 The advent of the modern historical and critical methods of reading Scripture is one of the most significant events in the last five hundred years of Christian history and theology New questions arose in the course of that history that led to new sometimes troubling answers New ways of considering Scripture were articulated The crisis in which academic Christian theology has found itself for approximately two hundred years is directly related to the emergence of new ways of studying and criticizing the Bible The Challenge of History traces the trajectory of these developments presenting key readings from over thirty five theologians from Erasmus to Pannenberg whose writings relate to the birth of modern historical and critical exegesis and more broadly to the emergence among theologians and biblical scholars of a certain historical consciousness that characterizes vast segments of modernity How did the historical and critical methods arise How did they impact the study of Scripture What are their implications for Christian theology Scripture is read and needs to be read differently in a parish in a monastery and in an academic setting But the various ways of approaching Scripture should not be cordoned off from one another This volume is an ideal textbook for in depth study of one of the most important topics in modern theology

*A New Reading of Jacques Ellul* Jacob Marques Rollison, 2020-09-10 This book presents an original and dynamic reading of the twentieth century French sociologist and theological ethicist Jacques Ellul Adopting Ellul s use of presence as a hermeneutical key to understanding his work it examines the origins of Ellul s approach to presence in his readings of Kierkegaard and the biblical book of Ecclesiastes highlights the central structural role of presence in Ellul s theological ethics and elucidates a crucial turning

point in Ellul's theology following a personal crisis in Ellul's faith and life Drawing from numerous unpublished and untranslated texts Jacob Marques Rollison argues that this crisis involves confrontation with a critique of presence manifest in Ellul's reading of and engagement with Michel Foucault Marques Rollison distills Ellul's sociological critiques and theological responses to this crisis presenting Ellul's evolving theology against the background of major shifts in French intellectual life In doing so the author simultaneously calls for renewed engagement with Ellul's prophetic thought critically appraises Ellul's dialectical theology and Marxist inheritances and develops a robustly Protestant approach to theological communication ethics for our time

**Reading the Way to Heaven** Steven Joe Koskie Jr., 2014-11-04 The proliferation of work on the theological hermeneutics of Scripture in recent years has challenged and reimagined the divisions between systematic theology and biblical studies on the one hand and academy and church on the other Also notable however has been the absence of a full length treatment of theological interpretation from a Wesleyan perspective This monograph develops a Wesleyan theological hermeneutic of Scripture approached as a craft learned from a tradition constituted appropriation of John Wesley's hermeneutics This hermeneutic requires a descriptive analysis of the context grammar and ruled reading of the literal sense in Wesley's interpretive practices as well as critical interaction with the analysis in light of contemporary issues As a result of this interaction continuity and discontinuity between Wesley's and Wesleyan interpretation emerges and is accounted for The Wesleyan theological hermeneutic developed here defines the church as Spirit formed context within the larger divine economy of salvation in contrast with Wesley's emphasis on individual soteriology and underdeveloped ecclesiology Within this community context Wesleyan theological interpretation is a means of grace whereby the Holy Spirit reinterprets the identity of readers into children of God Theological interpretation invites readers on a Wesleyan account to participate in the textually mediated identity of Jesus Christ through the gracious work of the Holy Spirit Wesleyan identity is therefore a figurally created identity based on the literal sense of Scripture Wesley's analogy of faith which rules his reading of Scripture thus gives way to a more explicitly trinitarian rule of faith
