Readings In Sexology:

Sexology Uncensored Lucy Bland, Laura Doan, 1998-02-15 Sexology Uncensored brings together for the first time many of the key documents of the modern science of sexuality that emerged in the late nineteenth century. The early pioneers of the new field of sexology examined and classified sexual behaviors, identities, and relations. For years, much of the material here has been censored in the sense that it is difficult to obtain, subject to restrictive circulation or available only in medical archives. The extracts, which date from the 1880s to the 1940s, cover a variety of topics including gender and sexual difference, homosexuality, transsexuality, and bisexuality, heterosexuality, marriage, and sex manuals, reproductive control, eugenics, race, and various sexual proclivities. Offering readers access to the primary materials on which contemporary sexology is founded, Sexology Uncensored is an invaluable record for all those interested in how we have come to think about sex and sexuality over the last hundred years. Sexology in Culture and its companion Sexology Uncensored will interest all those concerned with understanding modern sexual discourse in its historical context.

Queer Reading Practices and Sexology in

Fin-de-Siècle Literature Zsolt Bojti, 2025-07-28 This book scrutinises the production and transnational distribution of sexological knowledge at the turn of the century. The works of three transnationally mobile authors are in the focus: The Picture of Dorian Gray (1890, 1891) and Teleny (1893) by and attributed to Oscar Wilde; The True Story of a Vampire (1894) by Count Stanislaus Eric Stenbock; and Imre A Memorandum (1906) by Edward Prime Stevenson. The textual analysis is governed by references in all four works to Hungarian culture to demonstrate how they conceptualised Hungarianness and same-sex desire simultaneously in the light of the new classificatory science of sexualities coming from German-speaking Central Europe. By foregrounding a timely literary angle and a culturalist approach, this book offers non-Anglocentric insights not bound by either language or nationality to shed new light on the interdisciplinary reading practices of late Victorian subjects and the ways they contributed to the emergence of fin de siècle queer fiction.

Sexology and Translation Heike Bauer, 2015-10 Examines the shape and shaping of sexual ideas and related scientific practices and cultural representations in parts of Europe, Asia, the Middle East, and South America between the late 19th century and the years leading up to World War II, offering insights on the intersections between sexuality and modernity in a range of disciplinary, cultural, and transnational contexts.

Sex between Body and Mind Katie Sutton, 2019-11-25 Ideas about human sexuality and sexual development changed dramatically across the first half of the 20th century As scholars such as Magnus Hirschfeld Iwan Bloch Albert Moll and Karen Horney in Berlin and Sigmund Freud Wilhelm Stekel and Helene Deutsch in Vienna were recognized as leaders in their fields the German speaking world quickly became the international center of medical scientific sex research and the birthplace of two new and distinct professional disciplines sexology and psychoanalysis This is the first book to closely examine vital encounters among this era s German speaking researchers across their emerging professional and disciplinary boundaries Although psychoanalysis was often considered part of a broader sexual science sexologists increasingly distanced themselves from its mysterious concepts and clinical methods Instead they turned to more pragmatic interventionist therapies in particular to the burgeoning field of hormone research which they saw as crucial to establishing their own professional relevance As sexology and psychoanalysis diverged heated debates arose around concerns such as the sexual life of the child the origins and treatment of homosexuality and transgender phenomena and female frigidity This new story of the emergence of two separate approaches to the study of sex demonstrates that the distinctions between them were

always part of a dialogic and competitive process It fundamentally revises our understanding of the production of modern sexual subjects
