DAVIS,2011-01-13 With its wealth of information on how technique can be tastefully applied Back Up Banjo is the definitive book on the subject of banjo accompaniment Since a banjo player in a band plays accompaniment at least 75% of the time it is extremely important to master playing in this style Janet Davis offers specific suggestions for accompanying a vocalist or instrumentalist in a variety of styles and then provides musical examples illustrating her points Janet breaks her concepts down into their basic components making them crystal clear in lay terms the various back up techniques are separated into categories determined by song tempo by lead instrument being accompanied and by the area of the fingerboard in which the chords are being played In notation and tablature This set includes a companion 2 CD set which demonstrates the examples in the book The American Musical Landscape Richard Crawford,2000-06-30 This book reflects a breakthrough in American music studies an unrecognized field among traditional musicologists until the past few decades during which enormous progress has been made in documenting three centuries of American musical activities and figures Time and effort had to be expended exclusively on the development of basic historical studies The time has come for a new phase one that can take a creative interpretive approach Professor Crawford s study will introduce this higher level of scholarship into the field of American music studies Vivian Perlis author of Charles Ives Remembered A major statement by a senior scholar on what American musicology is all about These themes are also topical they come at a time when much more research is being done in American music but little thought is being given to the big picture the vision the philosophy and the implications of historical research Now is the time for a synthesis and there are few scholars better equipped to do that in American music than Richard Crawford Michael Broyles author of Music of the Highest Class **Crossing Bar Lines** James Gordon Williams,2021-03-01 In Crossing Bar Lines The Politics and Practices of Black Musical Space James Gordon Williams reframes the nature and purpose of jazz improvisation to illuminate the cultural work being done by five creative musicians between 2005 and 2019 The political thought of five African American improvisers trumpeters Terence Blanchard and Ambrose Akinmusire drummers Billy Higgins and Terri Lyne Carrington and pianist Andrew Hill is documented through insightful multilayered case studies that make explicit how these musicians articulate their positionality in broader society Informed by Black feminist thought these case studies unite around the theory of Black musical space that comes from the

lived experiences of African Americans as they improvise through daily life The central argument builds upon the idea of space making and the geographic imagination in Black Geographies theory Williams considers how these musicians interface with contemporary social movements like Black Lives Matter build alternative institutional models that challenge gender imbalance in improvisation culture and practice improvisation as joyful affirmation of Black value and mobility Both Terence Blanchard and Ambrose Akinmusire innovate musical strategies to address systemic violence Billy Higgins s performance is discussed through the framework of breath to understand his politics of inclusive space Terri Lyne Carrington confronts patriarchy in jazz culture through her Social Science music project The work of Andrew Hill is examined through the context of his street theory revealing his political stance on performance and pedagogy All readers will be elevated by this innovative and timely book that speaks to issues that continue to shape the lives of African Americans today
