Real Education Varieties Of Freedom:

Real Education David Gribble, 1998-01-01 Real Education describes schools in Britain Ecuador India Israel Japan New Zealand Switzerland and the U S A Students vary from the children of carefully selected fee paying parents to educational rejects and children of families in extreme poverty Locations include inner city Harlem an Ashram in Delhi an office block in Tokyo and an Alpine valley The variety is astonishing yet each of these schools shows that children do better when they are allowed to think for themselves From an educational point of view it is significant that this theme emerges from so many different cultures Book cover

A. S. Neill Richard Bailey, 2013-07-18 A S Neill was probably the most famous school teacher of the twentieth century His school Summerhill founded in 1921 attracted admiration and criticism from around the world and became an emblem of radical school reform and child centred education Neill claimed that he was a practical man but this book reveals that Summerhill expresses a comprehensive and distinctive set of ideas Whether he wanted to be or not Neill was an important educational thinker with a powerful influence on current educational approaches and philosophy A S Neill is the first book to examine this philosophy of education in detail It begins by showing how Neill s fascinating life story gives clues to the origin of his ideas and why they mattered so much to him It goes on to explore the main themes of his philosophy showing how they relate to the work of other great educational thinkers and how they are novel It also discusses whether there are lessons that could and should be learned by other schools from the original alternative free school of Summerhill

Human-Centred Education Scherto Gill, Garrett Thomson, 2017-01-06 This accessible guide presents human centred education an approach to schooling that radically rethinks the aims of education the nature of learning and the holistic growth of the individual Chapters include a variety of rich pedagogical examples and practical suggestions to show how the approach can be adopted as a whole school initiative or woven into particular aspects of school life including the curriculum classroom culture and feedback for learning The book also provides step by step guidance on how to integrate HCE into teacher training putting into practice the fundamental values of care connection and well being without sacrificing academic standards and accomplishments

The Anarchist Imagination Carl Levy, Saul Newman, 2019-04-09 This is a broad ranging introduction to twenty first century anarchism which includes a wide array of theoretical approaches as well as a variety of empirical and geographical perspectives The book demonstrates how the anarchist imagination has influenced the humanities and social sciences including anthropology art feminism geography international relations political science postcolonialism and sociology Drawing on a long historical narrative that encompasses the waves of anarchist movements from the classical anarchists 1840s to 1940s post war wave of student counter cultural and workers control anarchism of the 1960s and 1970s to the DIY politics and Temporary Autonomous Zones of the 1990s right up to the Occupy Movement and beyond the aim of this volume is to cover the humanities and the social sciences in an era of anarchist revival in academia Anarchist philosophy and anarchistic methodologies have re emerged in a range of disciplines from Organization Studies to

Law to Political Economy to Political Theory and International Relations and Anthropology to Cultural Studies Anarchist approaches to freedom democracy ethics violence authority punishment homelessness and the arbitration of justice have spawned a broad array of academic publications and research projects But this volume remembers an older story in other words the continuous role of the anarchist imagination as muse provocateur goading adversary and catalyst in the stimulation of research and creative activity in the humanities and social sciences from the middle of the nineteenth century to today This work will be essential reading for scholars and students of anarchism the humanities and the social sciences

Radical Education and the Common School Michael Fielding, Peter Moss, 2010-12-16 What is education what is it for and what are its fundamental values How do we understand knowledge and learning What is our image of the child and the school How does the ever more pressing need to develop a more just creative and sustainable democratic society affect our responses to these questions Addressing these fundamental issues Fielding and Moss contest the current mainstream dominated by markets and competition instrumentality and standardisation managerialism and technical practice They argue instead for a radical education with democracy as a fundamental value care as a central ethic a person centred education that is education in the broadest sense and an image of a child rich in potential Radical education they say should be practiced in the common school a school for all children in its local catchment area age integrated human scale focused on depth of learning and based on team working A school understood as a public space for all citizens a collective workshop of many purposes and possibilities and a person centred learning community working closely with other schools and with local authorities The book concludes by examining how we might bring such transformation about Written by two of the leading experts in the fields of early childhood and secondary education the book covers a wide vista of education for children and young people Vivid examples from different stages of education are used to explore the full meaning of radical democratic

education and the common school and how they can work in practice It connects rich thinking and experiences from the past and present to offer direction and hope for the future It will be of interest and inspiration to all who care about education teachers and students academics and policy makers parents and politicians **Transforming Education Policy** Philip A. Woods,2011 This topical book argues that a new paradigm is emerging in education in relation to the economic crisis It is part of a more general trend to organisational democracy and the onus for change rests with teachers heads parents community members educational sponsors and partners **Rethinking Citizenship Education** Tristan McCowan,2011-11-03 Rethinking Citizenship Education presents a fundamental reassessment of the field Drawing on empirical research the book argues that attempting to transmit preconceived notions of citizenship through schools is both unviable and undesirable The notion of curricular transposition is introduced a framework for understanding the changes undergone in the passage between the ideals of citizenship the curricular programmes designed to achieve them their implementation in practice and the effects on students The leaps between these different stages make the project of forming students in a mould of predefined citizenship highly problematic Case studies are presented of contrasting initiatives in Brazil a country with high levels of political marginalisation but also significant experiences of participatory democracy These studies indicate that effective citizenship education depends on a harmonisation or seamless enactment of the stages outlined above In contrast provision in countries such as the UK and USA is characterised by disjunctures showing insufficient involvement of teachers in programme design and a lack of space for the construction of students own political understandings Some more promising directions for citizenship education are proposed therefore ones which acknowledge the significance of pedagogical relations and school democratisation and allow students to develop as political agents in their own right **Citizenship Education in Commonwealth Countries** Tristan McCowan,Sonia Gomez,2012 Assesses the role that citizenship education can play in developing respect and understanding It outlines the concept of citizenship its multiple orientations and the complexities of promoting political visions through education **Alternative Education** Yoshiyuki Nagata,2007-03-30 Alternative streams of education have been and remain an important but difficult theme for teachers parents policy makers and scholars By focusing on case studies of six countries Bolivia Thailand Australia USA The Netherlands and Denmark and by comprehensively analysing these by means of international comparative methodologies the author approaches the nuts and bolts issues of alternative and mainstream education systems The case studies include Charter Schools in the USA and Waldorf Schools in Australia The study presents not only an insightful analysis of alternative forms of education with regard to actual issues in societies and also legal and administrative features of education It provides insights into the kind of school development that could be appropriate in the 21st century and the types of educational communities we should seek to create in the age of globalisation **Do It Yourself** Trapese,The Trapese Collective,2007-05-20 Do you really want to change the world If the answer is YES then this book shows you how Ethical

consumerism is now big business But leading a sustainable and truly radical life encompasses a whole variety of things that challenge the mainstream This book shows how we can make real changes to the way we live In simple steps it describes how you can create sustainable and equitable ways of living that can help transform not just your own life but the culture around you The book weaves together analysis stories and experiences It combines in depth analytical chapters followed by easy to follow How to Guides with practical ideas for change Taken together these small steps can move us towards taking back control of our lives from governments and corporations *Learner-centred Education in International Perspective* Michele Schweisfurth,2013 Is learner centred education appropriate for all societies and classrooms Learner centred education LCE is a travelling policy widely promoted by international agencies and national governments Arguments in favour of this pedagogical tradition refer to theories and evidence from cognitive psychology claiming that all learners can benefit equally from its judicious use Beyond the benefits to the individual however lie a set of assumptions about learner centred education as a foundation for the building of democratic citizens and societies suitable for economies of the future These promises have been questioned by critics who doubt that it is appropriate in all cultural and resource contexts and there is considerable evidence in the global South of perennial problems of implementation In the light of these debates is LCE still a good development bet This book provides an authoritative and balanced investigation of these issues exploring the contextual factors from global movements to local resourcing realities which have fuelled it as a discourse and affected its practice In the light of the theoretical underpinnings and research evidence the book addresses pressing questions to what extent is learner centred education a sound choice for policy and practice in developing countries And if it is a sound choice under which conditions is it a viable one The book is divided into three key parts Learner centred Education as a Global Phenomenon Learner centred Education in Lower and Middle income Countries Lessons and Resolutions This book provides a much needed fresh analysis of the concept and practice of LCE It will be valuable reading for academics and post graduates with a focus on comparative and international education along with policy makers in developing countries and development agencies [Doing Qualitative Educational Research](#) Geoffrey Walford,2001-06-01 Geoffrey Walford a renowned and experienced researcher reflects upon the trials and tribulations and the problems and promises of conducting research and also on the links between the idiosyncrasies and circumstances of researchers and what is possible in research Research is revealed as a much more complicated process than is usually recognized sometimes messy and disorganized sometimes constrained in unexpected ways but always challenging to both researcher and reader *Education, Democracy and Development* Clive Harber,Vusi Mncube,2012-05-14 Education is often seen as the key agency in international development and poverty reduction Frequently the emphasis is on the economic and social role of education in development This book on the other hand is unusual in explicitly examining the political role of education in development In particular it sets out the theories evidence and arguments concerning the potential and actual relationships between education and democracy and

critically explores the contradictory role of formal education in both supporting and hindering democratic political development A key theme of the book is the importance of considering the type and nature of the education actually provided and experienced what goes on inside the black box of education Currently in developing countries and elsewhere this is often at odds with democratic principles but the book also provides many examples of successful democratic practice in schools in developing countries as well as discussing a detailed case study of South Africa where democratic change in education is a key aspect of the policy agenda

The Palgrave International Handbook of Alternative Education Helen E. Lees, Nel Noddings, 2016-08-31 This state of the art comprehensive Handbook fully explores the field of alternative education on an international scale Alternatives to mainstream schooling and education are becoming increasingly recognised as pertinent and urgent for better understanding what really works in successfully educating children and adults today especially in light of the increased performance driven and managerially organised economic modelling of education that dominates For too long we have wondered what exactly education done otherwise might look like and here we meet individual examples as well as seeing what alternative education is when a collection becomes greater than the sum of parts The Handbook profiles numerous empirical examples from around the world of education being done in innovative and excitingly democratic and autonomous ways from Forest Schools and Home Education through to new technologies neuroscience and the importance of solitude The book also sets out important theoretical perspectives to inform us why seeing education through an alternative lens is useful as well as urgently needed Global in its perspective and definitive in content this one stop volume will be an indispensable reference resource for a wide range of academics students and researchers in the fields of Education
