Real Godfathers:

Godfathers Roberto Olla, 2012-10-18 *Godfathers* Jim McDowell, 2001 *Godfathers* tells the story of the Northern Ireland drug trade. It names the names and exposes the stories of dealers and their enemies, also revealing that some paramilitary groups are also involved.

Asian Godfathers Joe Studwell, 2008-09-23 The author of *How Asia Works* follows the money. Alarming, enlightening. Joe Studwell should be named chief myth buster for Asian business. Financial Times Hong Kong and Southeast Asia are home to five hundred million people yet their economies are dominated by only fifty families whose interests range from banking to real estate, shipping to sugar, gambling to lumber. At their peak, eight of the world's two dozen richest men were Southeast Asian, but their names would not be familiar to most regular readers of *The Wall Street Journal*. A complex mythology surrounds these billionaires, but in *Asian Godfathers* Joe Studwell finds that the facts are even more remarkable than the myths. Studwell has spent fifteen years as a reporter in the region and he marshals his unprecedented sources to paint intimate and revealing portraits of the men who control Southeast Asia. Studwell also provides us with a rich and deep understanding of the broader historic economic and political influences that have shaped Southeast Asia over the past 150 years. *Asian Godfathers* is a riveting and illuminating book that lifts the curtain on a world of staggering secrecy and hypocrisy and reveals for the first time who the leaders of one of the planet's most important and tumultuous markets really are, why they got to the top and how they keep themselves there. The romp around the region's pleasure domes is a blast. *The Wall Street Journal Asia*.

Fathers and Godfathers Guido Alfani, 2016-04-19 In medieval Europe, baptism did not merely represent a solemn and public recognition of the natural birth of a child but was regarded as a second spiritual birth within a social group, often different from the child's blood relations, a spiritual family composed of godfathers and godmothers. By analyzing the changing theological and social nature of spiritual kinship and godparenthood between 1450 and 1650, this book explores how these medieval concepts were developed and utilised by the Catholic Church in an era of reform and challenge. It demonstrates how such ties continued to be of major social importance throughout the sixteenth and seventeenth centuries but were often used in ways not always coherent with their original religious meaning and which could have unexpected social consequences. In particular, the book analyzes in detail the phase of transition from the traditional model of godparenthood, which allowed for multiple godparents, to the new couple model, one godfather and one godmother imposed by Tridentine law. Drawing upon a large database of archival data taken from parish books of baptisms and marriages, pastoral visitations, diocesan statutes, synods and provincial councils, it is shown how attempts were made to resist or to compromise with the Church, thus providing a better understanding of the often contested meaning given to godparenthood by early modern society. Whilst the Church was ultimately successful in imposing its will, the book concludes that this was to have unexpected results that were to eventually weaken the role of godparents. Rather than persuading parents to choose real spiritual tutors to act as godparents, the choice of godparents became increasingly

influenced with social status so that godparenthood began to resemble a pure clientele system something it had never been before Through this long term exploration of Catholic spiritual kinship much is revealed not only about godparenthood but about the wider social and religious networks Comparison with Protestant reactions to the same issues provides further insight into the importance of this subject to early modern European society [The Dust Of Empire](#) Karl E.

Dougherty,2014-02-25 An insider s account of the downfall of the New York mob profiles organized crime at the height of its influence while recounting the author s participation in several lucrative heists and relating his decision to become a federal informant **[The Wrong Stuff](#)** John Strausbaugh,2024-06-04 A witty deeply researched history of the surprisingly ramshackle Soviet space program and how its success was more spin than science In the wake of World War II with America ascendant and the Soviet Union devastated by the conflict the Space Race should have been over before it started But the

underdog Soviets scored a series of victories starting with the 1957 launch of Sputnik and continuing in the years following that seemed to achieve the impossible. It was proof it seemed that the USSR had manpower and collective will that went beyond America's material advantages. They had asserted themselves as a world power. But in *The Wrong Stuff* John Strausbaugh tells a different story. These achievements were amazing, yes, but they were also PR victories as much as scientific ones. The world saw a Potemkin spaceport; the internal facts were much sloppier, less impressive, more dysfunctional. The Soviet supply chain was a disaster, and many of its machines barely worked. The cosmonauts aboard its iconic launch of the Vostok 1 rocket had to go on a special diet and take off their space suits just to fit inside without causing a failure. Soviet scientists under intense government pressure had essentially made their rocket out of spit and band-aids and hurried to hide their work as soon as their worldwide demonstration was complete. With a witty eye for detail and a gift for storytelling, John Strausbaugh takes us behind the Iron Curtain and shows just how little there was to find there. **Fascists and**

Conservatives Martin Blinkhorn, 2012-11-12. First published in 1990. During the last twenty years, prodigious scholarly effort has gone into the study of fascism and the right in twentieth-century Europe. Quite apart from the study of particular fascist and national socialist movements and of individual right-wing regimes (Fascist Italy, the Third Reich, Franco's Spain, etc.), scholars have striven to locate the essential nature of fascism to determine what is distinctive about its ideas, programmes, policies, and support to identify what, if anything, differentiates it from other forms of rightism and to decide whether a satisfactory definition of fascism can be arrived at. This volume is intended to assist the further consideration of these and related problems. Failed States Musa Khan Jalalzai, 2020-04-02. Failed or failing states cause concern and spread chaos to their neighbors. They are an unquestionable and authentic source of terrorism, organized crime, drug trafficking, violence, disease, and economic breakdown. Afghanistan is an example of such a troubled state which collapsed in 1992. The Afghan state remained shattered and failed due to the inattention of the international coalition. In modern intellectual forums, most of the failed state discourses are centered on the lack of a state's capacity to carry out the basic services for which it is responsible, such as the rule of law, good governance, and effective border control against external threats. This book is a collection of articles on various issues leading to the Failed States, written by eminent scholars and researchers. A History of Violence Óscar Martínez, 2016-03-08. El Salvador and Honduras have had the highest homicide rates in the world over the past ten years, with Guatemala close behind. Every day more than 1,000 people, men, women, and children, flee these three countries for North America. Oscar Martínez, author of *The Beast*, named one of the best books of the year by the Economist, Mother Jones, and the Financial Times, fleshes out these stark figures with true stories, producing a jarringly beautiful and immersive account of life in deadly locations. Martínez travels to Nicaraguan fishing towns, southern Mexican brothels where Central American women are trafficked, isolated Guatemalan jungle villages, and crime-ridden Salvadoran slums. With his precise and empathetic reporting, he explores the underbelly of these troubled places. He goes undercover to drink with

narcos accompanies police patrols rides in trafficking boats and hides out with a gang informer The result is an unforgettable portrait of a region of fear and a subtle analysis of the North American roots and reach of the crisis helping to explain why this history of violence should matter to all of us

people's government, real democracy and the rule of law are all golden deer in Bangladesh. The religious fanaticism, innumerable superstitions, lack of education, poverty, corruption, immorality have now strongly established the criminality everywhere. Disunity, unfairness, oppression, torture, killing, murder, terror activities of the communal fundamentalists have crashed the people on the ground. Muslims, Hindus, Buddhists, Christians live here. People of all religions unitedly have fought for the independence of Bangladesh and shed blood with enormous sacrifices under the leadership of Bangabondhu, late Sheikh Mujibur Rahman. The nation got one nice secular constitution. After only 4 years after the independence of Bangladesh, father of the nation, Sk Mujibur Rahman was killed brutally with most of his family members. Through a planned way, the following governments of General Ziaur Rahman and General H M Ershad have amended, revised and changed many times the original constitution of Bangladesh and have made it almost a farce. Islam was declared as the State Religion. Although Bangladesh has people from four religions, but such a radical change of the former secular Constitution was a heinous dishonour to the holy constitution. Through these measures, religious fanaticism and communalism were given a state Formulate Contour. In the name of Islam, the religious fundamental militancy has become now the greatest problem of Bangladesh. It is about now about 38 years after the independence, but the war criminals of Al Badr, Al Shams, Rajakars and the murderers who were directly related with the genocide during the struggle for independence have not yet been put into the trial. The Political Party Jammata-e-Islam is regularly igniting the fire of communalism in the name of Islam. Communal politics is not banned in the country. State terror like killings, extra-judicial are going on without end. All devouring corruption is the greatest obstacle for the fulfillment of the basic rights of the people. The afflictions of religious minorities are a day to day affair. In the society, a privileged class is making mountains with money. On the other side, majority people, not less than 95% are becoming poorer everyday. Religious minorities and the indigenous people are deprived of constitutional rights. Including the father of the nation, hundreds of politicians, journalists, lawyers, judges, members and common people have been killed. Different state-controlled armed cadres have created an extreme fearful and inhuman situation by their killings of innocent people, tortures and oppressions. Within 38 years of independence, the country was under the military rulers for long 17 years. People were pushed to the dark wild administration and its persecutions. Torture, murders and planned genocide crime and the incidences of the militancy are never inquired properly and effectively. Of course, after the event, government announces for inquiry and committees are also formed. Whoever is the criminal, he would be definitely punished, such promises are heard from the top label of the government or from the concerned authorities repeatedly with arrogance. But they are
