The Dictator's Dictation Robert Boyers, 2005-10-26 In these elegant essays many of them originally written for The New Republic and Harper s Robert Boyers examines the role of the political imagination in shaping the works of such important contemporary writers as W G Sebald and Philip Roth Nadine Gordimer and Mario Vargas Llosa Natalia Ginzburg and Pat Barker J M Coetzee and John Updike V S Naipaul and Anita Desai Occasionally he finds that politics actually figures very little in works that only pretend to be interested in politics Elsewhere he discovers that certain writers are not equal to the political issues they take on or that their work is fatally compromised by complacency or wishful thinking In the main though Boyers writes as a lover of great literature who wishes to understand how the best writers do justice to their own political obsessions without suggesting that everything is reducible to politics Resisting the notion that novels can be effectively translated into ideas or positions he resists as well the notion that art and politics must be held apart lest works of fiction somehow be contaminated by their association with real life or public issues The essays offer a combination of close reading argument and assessment What Boyers asks is the relationship between form and substance in a work whose formal properties are particularly striking Is it reasonable to think of a particular writer as reactionary merely because he presents an unflattering portrait of revolutionary activists or because he is less than optimistic about the future of newly independent societies What is the status of private life in works set in politically tumultuous times Can the novelist be responsible if he consistently refuses to engage the conditions that affect even the intimate lives of his characters Such questions inform these essays which strive to be true to the essential spirit of the works they discuss and to interrogate as sympathetically as possible the imagination of writers who negotiate the unstable relationships between society and the individual art and ideas

Celebrations and Connections in Hispanic Literature Andrea Morris, Margaret Parker, 2009-03-26 The volume *Celebrations and Connections in Hispanic Literature* is itself a celebration of a tradition of scholarly dialogue in a relaxed festive atmosphere The articles included here began as papers presented at the 25th Anniversary Edition of the Biennial Louisiana Conference on Hispanic Languages and Literatures held in Baton Rouge Louisiana February 23-24 2006 Each of the authors responds in innovative ways to the idea of connecting texts contexts and genres as well as to the disconnect that is often present between what we perceive as Hispanic identity and the experience of those left on the margin Topics include Celebrating and Rewriting Difference De colonized Identities Word and Image in the Spanish Golden Age and Latin American Literature and Politics among others The collection is demonstrative of current trends in Hispanic literary and cultural criticism which are increasingly less bound by traditional regional and temporal constructs While each author's research is rooted in a specific socio-historic context their combined contributions to the present volume provide a far-reaching perspective that expands the notion of text to go beyond the literary and engage a multitude of disciplines it emphasizes the often illuminating connections among literary and cultural texts which can be drawn when one conceives of Hispanism and its literary and cultural fields as shaped by trends and issues rather than divided by periods and regions What strikes me most is the newness of each piece While each is very well informed none rehearses old historical or theoretical ground more than is absolutely necessary but rather presents either a new or overlooked text or offers a new approach Leslie Bary University of Louisiana Lafayette An impressive array of well-established and younger scholars has produced a volume whose scope is the entire Hispanic world extending from the Golden Age to the contemporary era This volume will be of interest to all scholars and critics of Hispanic literature as well as to historians and political scientists Many of the essays challenge traditional assumptions about the colonization of the Hispanic world as well as the motivations for the revolutions for independence whose influence is still strongly alive in contemporary treatments of fundamental questions of national identity race class and gender C Chris Soufas Jr Tulane University
