Kingdom of Children Mitchell Stevens, 2009-02-09 More than one million American children are schooled by their parents As their ranks grow home schoolers are making headlines by winning national spelling bees and excelling at elite universities The few studies conducted suggest that homeschooled children are academically successful and remarkably well socialized Yet we still know little about this alternative to one of society s most fundamental institutions Beyond a vague notion of children reading around the kitchen table we don t know what home schooling looks like from the inside Sociologist Mitchell Stevens goes behind the scenes of the homeschool movement and into the homes and meetings of home schoolers What he finds are two very different kinds of home education one rooted in the liberal alternative school movement of the 1960s and 1970s and one stemming from the Christian day school movement of the same era Stevens explains how this dual history shapes the meaning and practice of home schooling today In the process he introduces us to an unlikely mix of parents including fundamentalist Protestants pagans naturalists and educational radicals and notes the core values on which they agree the sanctity of childhood and the primacy of family in the face of a highly competitive bureaucratized society *Kingdom of Children* aptly places home schoolers within longer traditions of American social activism It reveals that home schooling is not a random collection of individuals but an elaborate social movement with its own celebrities networks and characteristic lifeways Stevens shows how home schoolers have built their philosophical and religious convictions into the practical structure of the cause and documents the political consequences of their success at doing so Ultimately the history of home schooling serves as a parable about the organizational strategies of the progressive left and the religious right since the 1960s *Kingdom of Children* shows what happens when progressive ideals meet conventional politics demonstrates the extraordinary political capacity of conservative Protestantism and explains the subtle ways in which cultural sensibility

shapes social movement outcomes more generally A Sense of Self Susannah Sheffer,1997 Recent research has shown that many adolescent girls come to distrust their own perceptions This book shows that homeschooled adolescent girls have a much stronger sense of self **No More Prisons** William Upski Wimsatt,2008-11-01 A truly remarkable collection of activist writings across all topics and perspectives all while recounting a personal evolution from idealistic urban wanderer to community organizer from graffiti writer to renowned essayist Author William Upski Wimsatt delivers stories strategies suggestions straight talk and conversations with maverick activists He advocates youth taking charge of their own education whether it s in or out of school and promotes the power of young people engaging in philanthropy A truly original treatise from the paradigm flipping theorist of youth activism No More Prisons goes beyond pinpointing problems to hone in on solutions and declares that today s youth is poised to surpass the activist efforts of the 1960s generation
