The Game of Triumphs Laura Powell, 2012 Fifteen year old Cat and three other London teens are drawn into a dangerous game in which Tarot cards open doorways into a different dimension and while there is everything to win losing can be fatal

The Dead City Paul Dobraszczyk, 2017-06-30 The Dead City unearths meanings from such depictions of ruination and decay looking at representations of both thriving cities and ones which are struggling abandoned or simply in transition It reveals that ruination presents a complex opportunity to envision new futures for a city whether that is by rewriting its past or throwing off old assumptions and proposing radical change Seen in a certain light for example urban ruin and decay are a challenge to capitalist narratives of unbounded progress They can equally imply that power structures thought to be deeply ingrained are temporary contingent and even fragile Examining ruins in Chernobyl Detroit London Manchester and Varosha this book demonstrates that how we discuss and depict urban decline is intimately connected to the histories economic forces power structures and communities of a given city as well as to conflicting visions for its future
