His Majesty's Stationery Office,1919 *The Dublin King* John Ashdown-Hill,2015-01-05 A year after Richard III s death a boy claiming to be a Yorkist prince appeared as if from nowhere claiming to be Richard III s heir and the rightful King of England In 1487 in a unique ceremony this boy was crowned in Dublin Cathedral despite the Tudor government insisting that his real name was Lambert Simnel and that he was a mere pretender to the throne Now in *The Dublin King* author and historian John Ashdown Hill questions that official view Using new discoveries little known evidence and insight he seeks the truth behind the 500 year old story of the boy king crowned in Dublin He also presents a link between Lambert Simnel s story and that of George Duke of Clarence the brother of Richard III On the way the book sheds new light on the fate of the Princes in the Tower before raising the possibility of using DNA to clarify the identity of key characters in the story and their relationships *Atlantic Reporter* ,1904 **Tudor Executions** Helene Harrison,2024-09-30 Examines the rise and fall of Tudor nobles and the actions leading to the demise of the Tudor era The Tudors as a dynasty executed many people both high and low But the nobility were the ones consistently involved in treason either deliberately or unconsciously Exploring the long sixteenth century under each of the Tudor monarchs gives a sense of how and why so many were executed for what was considered the worst possible crime and how the definition of treason changed over the period This book examines how and why Tudor nobles like Edward Stafford 3rd Duke of Buckingham Queen Consort Anne Boleyn Henry Howard Earl of Surrey and Robert Devereux 2nd Earl of Essex fell into the trap of treason and ended up on the block under the executioner s axe Treason and the Tudor nobility seem to go hand in hand as by the end of the sixteenth century and the advent of the Stuart dynasty no dukes remained in England How

did this happen and why **Social Attitudes and Political Structures in the Fifteenth Century** Tim Thornton, 2001-02-13 This volume includes papers on political religious social and economic history and the history of ideas during the 15th century The papers challenge existing conceptions and open new avenues of discussion on longstanding debates Themes covered include parliaments and their relationships with the monarchs of the period both in Scotland and in England queens and their role in the 15th century English polity the ideas that lay behind the English claims to the French throne and the rituals of peace making in the Hundred Years War Debates over the importance of lordship and service are also touched upon in a paper which examines Lord Hastings retainers in the defence of Calais while another chapter discusses the local politics of a small Welsh marcher lordship The crucial subject of Lancastrian government finances in the 1450s also receives a fresh examination In religious history papers examine the activity of monastic propagandists and the religious life of cathedrals through the activity of fraternities based in them There are also considerations of a noble widow and of the 15th century rural economy **A Catalogue of Books in the Gibraltar Commercial Library, Established in the Year 1806** Gibraltar Commercial Library, 1823 **Catalogue of the Library of the Boston Athenaeum** Boston Athenaeum, 1876 'The Contending Kingdoms' Glenn Richardson, 2017-03-02 The kingdoms of France and England were for many centuries military economic cultural and colonial rivals This is particularly true of the early modern period which witnessed the rise of French military hegemony and the expansion of English commerce Dealing with the period 1420 1700 this collection offers a snapshot of Anglo French relations across the three centuries from established historians and younger scholars from France Britain and Luxembourg Based broadly on diplomatic history but incorporating wider perspectives from cultural and social or gender history each essay uncovers the fascinating and complex arrangements that characterize Anglo French relations in this period Competition and hostility between the two kingdoms there certainly was but it took a surprising variety of forms and often proved intellectually productive for one side or the other and sometimes for both The chapters mix treatments of broad themes and particular circumstances or individuals and each makes specific comparisons with French and English experience across the early modern period In so doing they elaborate and go beyond the evidence of Anglo French hostility to explore evidence of political co operation and cultural influences highlighting just how close early modern England's connections with France were even at times of crisis *The English Catalogue of Books Published from January, 1835, to January, 1863*, 1864 A List of the Books of Reference in the Reading Room of the British Museum British Museum.
