Reinventing Political Science A Feminist Approach:

Reinventing Political Science Jill Vickers, 1996-12-31 An alternate vision of political science for students who want to make space for themselves and for political studies this framework for analysis builds bridges between political science and feminism allowing for a women centred analysis of both formal and informal politics *Gender, Race, and Nation* Vanaja Dhruvarajan, Jill Vickers, 2002-01-01 Dhruvarajan and Vickers call into question feminism's presumed universality of gender analysis and bring to the foreground the voices of marginalized women in Western society and of women outside of the western world *Gender Innovation in Political Science* Marian Sawer, Kerry Baker, 2018-06-16 In this book leading gender scholars survey the contribution of feminist scholarship to new norms and knowledge in diverse areas of political science and related political practice They provide new evidence of the breadth of this contribution and its policy impact Rather than offering another account of the problem of gender inequality in the discipline the book focuses on the positive contribution of gender innovation It highlights in a systematic and in depth way how gender innovation has contributed to sharpening the conceptual tools available in different subfields including international relations and public policy At the same time the authors show the limits of impact in core areas of an increasingly pluralised discipline This volume will appeal to scholars and students of political science and international relations *Feminizing in Political Science* Alana Cattapan, Ethel Tungohan, Nisha Nath, Fiona MacDonald, Stephanie Paterson, 2024-06-06 Feminizing in Political Science examines what is at stake in contesting the boundaries of the contemporary university This critique of mainstream Canadian political science pushes beyond typical studies of institutions and political life Instead the collection draws together personal essays pedagogical interventions dialogues and original research to reflect on how feminizing as an orientation and as an analytic can centre experiential knowledge and reshape our understandings of political science Collectively these contributions lay bare the ways that power moves in and through the academy naming the impacts on those who are most structurally precarious all while pointing to futures available to us through refusal solidarity and hope Contributors Yasmeen Abu Laban Julianne M Acker Verney Kelly Aguirre Jeanette Ashe Nicole S Bernhardt Amanda Bittner Alana Cattapan Elaine Coburn Jamilah A Y Dei Sharpe Rita Kaur Dhamoon Alexandra Dobrowolsky Nick Dorzweiler Tammy Findlay Mariam Georgis Emily Grafton Joyce Green Genevieve Fuji Johnson Kiera L Ladner Lindsay Larios Manon Laurent Fiona MacDonald April Mandrona Kimberley Ens Manning Sarah Munawar Nisha Nath Michael Orsini Stephanie Paterson Tka C Pinnock David Semaan Gina Starblanket Heidi Kiiwetinepinesiiik Stark Melanee Thomas Reeta Chowdhari Tremblay Ethel Tungohan Nadia Verrelli Leah F Vosko and Chamindra Weerawardhana **Federalism, Feminism and Multilevel Governance** Marian Sawer, 2016-04-15 Until recently few gender scholars took notice of the impact of state architecture on women's representation political opportunities and policy achievements Likewise scholars of federalism devolution and multilevel governance have largely ignored their gender impact For the first time this book explores how women's politics is affected by and affects federalism

whether in Australia Canada India Mexico Nigeria Russia or the US Equally it assesses the gender implications of devolution and multilevel governance in the European Union including case studies of the UK and Germany Globally multilevel governance is providing new arenas for women's politics For example CEDAW the UN Convention for the Elimination of All Forms of Discrimination against Women has led most governments to adopt gender equality norms while other UN instruments have supported Aboriginal self government Gender scholars will find especially valuable what is revealed about the impact of political architecture on a broad range of policy issues including gay marriage reproductive rights and childcare Federalism scholars will benefit from the book's wide range of cases comparative themes and combination of gender and federalism perspectives Written by leading experts this book fills an important gap in both literatures Minds of Our Own Wendy Robbins, Meg Luxton, Margrit Eichler, Francine Descarries, 2009-08-02 This book of personal essays by over forty women and men who founded women's studies in Canada and Quebec explores feminist activism on campus in the pivotal decade of 1966-76 The essays document the emergence of women's studies as a new way of understanding women men and society and they challenge some current preconceptions about second wave feminist academics The contributors explain how the intellectual and political revolution begun by small groups of academics often young untenured women at universities across Canada contributed to social progress and profoundly affected the way we think speak behave understand equality and conceptualize the academy and an academic career A contextualizing essay documents the social economic political and educational climate of the time and a concluding chapter highlights the essays' recurring themes and assesses the intellectual and social transformation that their authors helped set in motion The essays document the appalling sexism and racism some women encounter in seeking admission to doctoral studies in hiring in pay and in establishing the legitimacy of feminist perspectives in the academy They reveal sources of resistance too not only from colleagues and administrators but from family members and from within the self In so doing they provide inspiring examples of sisterly support and lifelong friendship *New Reproductive Technologies and Disembodiment* Carla Lam, 2016-04-22 With attention to the ways in which new reproductive technologies facilitate the gradual disembodiment of reproduction this book reveals the paradox of women's reproductive experience in patriarchal cultures as being both and often simultaneously empowering and disempowering A rich exploration of birth appropriation in the West *New Reproductive Technologies and Disembodiment* investigates the assimilation of women's embodied power into patriarchal systems of symbolism culture and politics through the inversion of women's and men's reproductive roles Contending that new reproductive technologies represent another world historical moment both in their forging of novel social relations and material processes of reproduction and their manner of disembodiment of women in unprecedented ways a disembodiment evident in recent visual and literary popular and academic texts this volume locates the roots of this disembodiment in western political discourse A call to feminist political theory to re-remember the material dimensions of bodies and their philosophical significance New

Reproductive Technologies and Disembodiment will appeal to scholars of sociology gender studies political and social theory and the study of science technology and health *The Politics of Women's Interests* Louise Chappell, Lisa Hill, 2006-09-27 This new study reveals how institutional practices and discourses shape the way men and women are conceived of and how through this process gender stereotypes and expectations are created Informed by the latest research and trends these expert authors examine the way in which domestic and global institutions shape and reflect gender interests and the extent to which feminists can challenge gender norms through political institutions They examine regional national and international institutions including the EU ICC and UN and take a broad view of political institutions to include bureaucracy federalism legal structures parliaments voting and electoral institutions and media coverage of women s involvement in such institutions Drawing on experiences in the US UK Australia Canada and New Zealand this book will be of great interest to students and scholars of gender studies political science and comparative politics **Women and Politics around the World** Joyce Gelb, Marian Lief Palley, 2009-03-30 A unique two volume examination of the progress women have made in achieving political equality Women and Politics around the World addresses both transnational and gender related issues as well as specific conditions in more than 20 countries Women and Politics around the World A Comparative History and Survey is an exploration of the role of women in political systems worldwide as well as an examination of how government actions in various countries have an impact on the lives of the female population Women and Politics around the World divides its coverage into two volumes The first looks at such crucial issues facing women today as health policy civil rights and education comparing conditions around the world The second volume profiles 22 different countries representing a broad range of governments economies and cultures Each profile looks at the history and current state of women s political and economic participation in a particular country and includes an in depth look at a representative policy The result is a resource unlike any other one that gives students researchers and other interested readers a fresh new way of investigating a truly global issue **Gender, Politics and Institutions** M. Krook, F. Mackay, 2010-12-07 Political institutions profoundly shape political life and are also gendered This groundbreaking collection synthesises new institutionalism and gendered analysis using a new approach feminist institutionalism in order to answer crucial questions about power inequalities mechanisms of continuity and the gendered limits of change *Feminist Identity Development and Activism in Revolutionary Movements* T. O'Keefe, 2013-10-24 This book examines how many women active in revolutionary movements develop feminist identities and how this identity simultaneously contributes to and conflicts with the struggle for women s emancipation *Routledge Handbook of Religion and Politics* Jeffrey Haynes, 2008-11-19 From the United States to the Middle East Asia and Africa religion has become an increasingly important factor in political activity and organisation This Handbook provides a definitive global survey of the interaction of religion and politics Featuring contributions from an international team of experts it examines the political aspects of all the world s major religions including such crucial

contemporary issues as religious fundamentalism terrorism the war on terror the clash of civilizations and science and religion Four main themes addressed include the World religions and politics religion and governance religion and international relations religion security and development References at the end of each chapter guide the reader towards the most up to date information on various topics In addition large amounts of information make this book an indispensable source of information for students academics and the wider public interested in the dynamic relationship between politics and religion *The Challenge of Cultural Pluralism* Stephen Brooks,2002-10-30 Many believe that we are passing through a period during which due largely to globalization s challenge to the idea and sovereignty of nation states there is now the intellectual and political space for the construction of new models of citizenship involving new relations between individuals and their governments These new relations may be mediated through individuals membership in communities that are recognized within states In various ways the resurgence of ethnic nationalism the rise of multiculturalism the ideas associated with communitarianism and the apparent erosion of national sovereignty have all contributed to the creation of this interest in new ways of conceptualizing citizenship and carrying out the tasks of governance Brooks and his colleagues examine various aspects of the challenge of cultural pluralism Together they cover a wide range of national cases theoretical issues and empirical research The collection is intended for all scholars students and researchers who have an interest in cultural pluralism consociationalism and inter community relations in societies divided by language ethnicity and culture

Gendering the Nation-State Yasmeen Abu-Laban,2009-01-01 Serious study of social and political life must attend to gender as a category of analysis Gendering the Nation State explores the gendered dimensions of a fundamental organizational unit in social and political science the nation state Yasmeen Abu Laban has drawn together work by both high profile and emerging scholars to rescue gender from the margins of theoretical discussions on the nation the state public policy and citizenship Contributors bring the insights of feminist analysis to bear on three relationships central to popular and policy discussions in contemporary Canada and beyond gender and nation gender and state processes and gender and citizenship Gendering the Nation State employs a comparative framework and builds on three decades of multidisciplinary work Nuanced and wide ranging the collection crosses and challenges physical theoretical and disciplinary borders It will appeal to scholars in political science gender studies and sociology *Women and Political Representation in Canada* Manon Tremblay,Caroline Andrew,1998-02-13 This collection of essays explores the often antagonistic relationship between women and political life in Canada While women make up little over half of the total population in Canada they are in many ways conspicuous by their absence from the Canadian political scene Published in English **Identity and Belonging** B. Singh Bolaria,Sean Patrick Hier,2006 As Canada s ethno racial composition becomes more complex critical understandings of race ethnicity identity and belonging are increasingly important goals for social justice fairness and inclusion This edition addresses these concerns The Palgrave Handbook of Gender, Sexuality, and Canadian Politics Manon Tremblay,Joanna

Everitt,2020-11-20 The Palgrave Handbook of Gender Sexuality and Canadian Politics offers the first and only handbook in the field of Canadian politics that uses gender which it interprets broadly as inclusive of sex sexualities and other intersecting identities as its category of analysis Its premise is that political actors identities frame how Canadian politics is thought told and done in turn Canadian politics as a set of ideas state institutions and decision making processes and civil society mobilizations does and redoes gender Following the standard structure of mainstream introductory Canadian politics textbooks this handbook is divided into four sections ideologies institutions civil society and public policy each of which contains several chapters on topics commonly taught in Canadian politics classes The originality of the handbook lies in its approach each chapter reviews the basics of a given topic from the perspective of gendered sexualized and other intersectional identities Such an approach makes the handbook the only one of its kind in Canadian Politics Feminist Studies ,1997 *Speaking For The People* Sawyer, Marian,Zappal, Gianni,2013-05-09 At a time when there is major change taking place in Australian politics as old loyalties are eroded and there is increasing evidence of alienation of some sections of the electorate from perceived elites this analysis of the weaknesses in existing methods of representation is most timely Dr Dennis Woodward Monash University Without the belief that others can represent their interests citizens will withdraw their trust from parliamentary institutions Today this trust is fragile Politicians appear to have a different set of policy priorities from those of the people they represent We are now witnessing demands for citizen initiated referenda a popularly elected president and other means of bypassing the role of elected representatives Speaking for the People explores for the first time the distinctive ways in which Australians have thought about and practised representation incorporating a ground breaking analysis of non parliamentary institutions of representation Whether and how meaningful a voice can be given to all groups within our society is one of the many questions this book addresses Marian Sawyer and Gianni Zappal bring together old and new concepts of political representation and highlight what is distinctively Australian in our practices of representation
