Reinventing Technology Policies For Democratic Values:

Reinventing Technology Michael Goldhaber,1986-01-01 **Handbook of Public Policy Evaluation** Stuart S. Nagel,2002 This handbook deals with many aspects of public policy evaluation including methods examples professionalism studies perspectives concepts substance theory applications dispute resolution interdisciplinary interaction *Impure Science* Steven Epstein,1996 Epstein shows the extent to which AIDS research has been a social and political phenomenon and how the AIDS movement has transformed biomedical research practices through its capacity to garner credibility by novel strategies **Policy Creativity** Stuart S. Nagel,2002 Whenever a question of public policy is addressed heated arguments ensue Liberals tout one solution conservatives another and still others appear who are neither liberal nor conservative but have their own desired solution In such a heated political atmosphere legislators and policy makers need to creatively balance competing factions and wants This book looks at the practical application of creativity in a broad set of policy areas The chapters take note of diverse topics like merit treatment technology vouchers and budgeting while also offering theoretical studies of the concept of creativity and its potential in the coming years Concluding the book is a bibliography of books about creativity *International Policy Studies* Stuart S. Nagel,David Rosenblum,2000 The basic elements of this book involve integrating five policy problems and four fields of knowledge The five policy problems are economic technology social political and legal The four developing regions are Africa Asia Eastern Europe and Latin America The four fields of knowledge are natural science social science humanities and law **Knowledge** Nico Stehr,Reiner Grundmann,2005 The increasing investment in scientific knowledge in its production distribution and reproduction is acquiring greater social significance Everything that is regarded as knowledge in society has become a legitimate subject matter for academic investigations from various disciplines and for practitioners **Policy Evaluation** ,2000

Democratising Technology René von Schomberg,1999 Policy Evaluation Stuart S. Nagel,2002 On a high level of generality the question is what constitutes good policy analysis The key criteria relate to validity importance usefulness originality and feasibility This book examines both policy evaluation in general and also presents specific policy problems which shed light on important public policy issues of our times Science, Technology and Society ,1989 Public Policy and Administration Noorjahan Bava,2000 Contributed articles **New Socialist** ,1986 International Journal on the Unity of the Sciences ,1991 **Engendering Technology** Hank Bromley,1995 **Canadian-American Public Policy** ,1991 **Left Curve** ,1994 **Technology's School** Leonard J. Waks,1995 This third supplemental volume in the series Research in Philosophy and Technology deals with technology schools and the challenge they pose to philosophy in this area of thought **The Nigerian Journal of Economic and Management Studies** ,2010 *Nonviolence Speaks* Brian Martin,Wendy Varney,2003 This book addresses the power of popular nonviolent action against repression aggression and oppression A crucial aspect to effective nonviolent action is communication Activists need to be able to contact each other

and to mobilize support from other parts of the world However within the nonviolence literature communication has been almost entirely neglected while within the communication literature nonviolent action is seldom mentioned This is the first major study to focus on the joint dynamics of nonviolence and communication Three case studies are examined the popular action that forced the resignation of Indonesian President Suharto in 1998 the successful people s resistance to the Soviet coup in 1991 and the successful internationally coordinated campaign against the Multilateral Agreement on Investment in 1988 In each case special attention is given to the role of communication in the struggle Attention is then turned to theory Surveys are made of nonviolence and communication theories probing for insights relevant to the nonviolence communication nexus Gradually a model for analyzing people s communication is developed The insights from theory are then used to propose a set of steps by which activist groups can analyze communication and develop effective communication strategies

Science and Technology Management Bibliography, 1993 Thomas E. Clarke, Jean Reavley, 1993 This bibliography is the fourth edition in a series of bibliographies over the past 20 years containing references to articles books conference papers and reports concerned with the management of technological innovation and technical entrepreneurship Previous editions had the title R D Management Bibliography This edition contains over 10 000 references of which 3 000 were contained in the 1981 edition The section on government science and technology policy is one of the largest in the book
