Public Funding of Higher Education Edward P. St. John, Michael D. Parsons, 2005-09-23 Much of the twentieth century saw broad political support for public funding of American higher education Liberals supported public investment because it encouraged social equity conservatives because it promoted economic development Recently however the politics of higher education have become more contentious Conservatives advocate deep cuts in public financing liberals want to expand enrollment and increase diversity Some public universities have embraced privatization while federal aid for students increasingly emphasizes middle class affordability over universal access In Public Funding of Higher Education scholars and practitioners address the complexities of this new climate and its impact on policy and political advocacy at the federal state and institutional levels Rethinking traditional rationales for public financing contributors to this volume offer alternatives for policymakers administrators faculty students and researchers struggling with this difficult practical dynamic Contributors M Christopher Brown II Pennsylvania State University Jason L Butler University of Illinois Choong Geun Ching Indiana University Clifton F Conrad University of Wisconsin Madison Saran Donahoo University of Illinois James Farmer JA SIG uPortal James C Hearn Vanderbilt University Janet M Holdsworth University of Minnesota Don Hossler Indiana University John R Thelin University of Kentucky Mary Louise Trammell University of Arizona David J Weerts University of Wisconsin Madison William Zumeta University of Washington

Planning and Management in Distance Education Santosh Panda, 2003-12-16 Online distance education and training is being adopted throughout the world as a cost effective flexible answer to widening access for all This enthusiasm has led to many initiatives and policies from governments to encourage online learning at international national regional and institutional levels Also changes in distance learning continue to take place as a result of educational discourse and innovations in ICT Distance learning courses are therefore under pressure to reform and successful management of external policy planning and internal change management is key to the implementation and maintenance of reforms World class leaders researchers and practitioners share their experiences

research and critical reflection in this book providing guidance on how to balance quality management with quality learning Subjects covered include policy and planning institutional management management of processes quality assurance and accreditation and internationalization This book will aid anyone involved in running or wanting to implement distance education to effectively manage an online learning programme *Higher Education Systems Redesigned* Jonathan S. Gagliardi, Jason E. Lane, 2022-04-01 Long an afterthought of the American higher education ecosystem multi campus systems have become more important than ever In recent years leading higher education systems have engaged in transforming the way they work scaling best practices leveraging data and analytics and creating platforms to optimize and personalize these systems for increasingly diverse students In *Higher Education Systems Redesigned* leaders of these efforts share their insights into systemness and how to facilitate sustainable change in a system setting while navigating and leveraging tensions between campus and system priorities Highlighting examples of successful realignment of these priorities with a focus on contextualized design and implementation the book charts a shift in the aim of systems Rather than perpetuating existing norms as they have traditionally done systems are taking measures to spark innovation across campuses and use evidence based practices to foster student access and completion rates better serve communities and drive social mobility and economic growth Each chapter concludes with a list of takeaways to guide other system leaders and administrators One of the few recent examinations of higher education systems *Higher Education Systems Redesigned* offers a theoretical and practical framework for how systems can continually evolve *Two Cheers for Higher Education* Steven Brint, 2020-08-04 Crusing student debt rapidly eroding state funding faculty embroiled in speech controversies a higher education market disrupted by online competition today s headlines suggest that universities power to advance knowledge and shape American society is rapidly declining But after a recent period that witnessed soaring student enrollement and ample research funding author Steven Brint argues that universities are in a better position than ever before Focusing on the years 1980 2015 Brint details the trajectory of American universities which was influenced by evolving standards of disciplinary professionalism market driven partnerships and the goal of social inclusion Today knowledge driven industries generate almost half of U S GDP but students flock increasingly to fields connected to power centers of American life and steer away from the liberal arts And opportunities for economic mobility are expanding even as academic expectations decline In describing how universities can meet such challenges head on especially in improving classroom learning Brint offers not only a clear eyed perspective on the current state of American higher education but also a pragmatically optimistic vision for the future From publisher s description **Inside the “Knowledge Factory”** Heinke Rübken, 2013-06-29 Higher education institutions have proven to be one of the most enduring organizations of the last centuries In recent decades however significant changes in their institutional environment have forced universities to rethink their strategies This is particularly true for management higher education institutions How do universities and specifically business schools deal with these various expectations Are there

different organizational responses in the American German or Swedish higher education systems These and other important questions of higher education management research are examined in this doctoral thesis Taking neo institutionalism theory as its basis the thesis is convincing both conceptually as well as empirically through its multiple case study design The insights gained are most interesting They reveal how a form of organizational schizophrenia can help institutions comply with external demands without compromising the pursuit of academic reputation which is essential for the inner stability of higher education institutions and their continued existence This book is relevant both for students and researchers in higher education management as well as management practitioners and administrators I can say this with conviction as Heinke Robken s doctoral thesis was one of the last that I supervised as a teacher before changing to the president s office of the University of Oldenburg As such I read it both from a theoretical viewpoint as well as that of a practitioner

ManagingNonprofits.org Ben Hecht,Rey Ramsey,2002-02-26 Nonprofit managers have been slow to embrace the digital age Although technology has transformed the face of the for profitsector and how it operates nonprofit use of technology to improveinternal functioning and to change the way services are deliveredis almost nonexistent These limitations actually have opened thedoor for for profits to compete successfully for traditionalnonprofit business such as moving people from welfare towork *ManagingNonprofits.org* is both a call to action and a roadmap forchange Each chapter defines an element of Dynamic Management andidentifies digital hotspots or places within that element andthe nonprofit s implementation of that element where digitalissues will most likely arise and need to be addressed Inaddition at the end of each chapter Maxims of Dynamic Managementor core truths that the authors have found helpful to follow intheir day to day experience as nonprofit leaders in bringingDynamic Management to their organization are provided Finally theauthors highlight the experience of various nonprofit andfor profit organizations that have successfully made elements ofDynamic Management a reality in their organizations
