The Idea of North Peter Davidson, 2005-04-15 While a compass might tell us which direction we are going there is really only one direction to which it ever points north North is the ultimate point of orientation but it is also a celebrated destination for the adventurous the curious the solitary and the foolhardy In this fascinating book updated in this accessible pocket edition Peter Davidson explores the concept of north through its many manifestations in painting legend and literature Arctic bound Davidson takes the reader on a journey from the heart of society to the most far flung outposts of human geography packing in our rucksacks a treasure trove of stories and artworks from the Icelandic Sagas to Nabokov's snowy kingdom of Zembla from Hans Christian Andersen's forbidding Snow Queen to the works of artists such as Eric Ravilious Ian Hamilton Finlay and Andy Goldsworthy He celebrates the different ways our artists and writers have illuminated our relationship with the earth's most dangerous and austere terrain Through Davidson's astonishing but inviting erudition we ultimately come to see north as a permanent goal frozen forever on a horizon we never seem to quite reach

Panurge, 1996 *The Penniless Press*, **DAWN OF THE APOCALYPSE** Edgar Allan Poe, William Hope Hodgson, Jack London, Ernest Bramah, Jonathan Swift, Cleveland Moffett, Anthony Trollope, Richard Jefferies, William Dean Howells, Ayn Rand, Samuel Butler, Milo Hastings, Edward Bellamy, Fritz Leiber, Irving E. Cox, Philip Francis Nowlan, Richard Stockham, Ignatius Donnelly, Owen Gregory, H. G. Wells, E. M. Forster, Fred M. White, Mary Shelley, Edward Bulwer-Lytton, Rokeya Sakhawat Hossain, George Griffith, Edwin A. Abbott, Arthur Dudley Vinton, Gertrude Barrows Bennett, Hugh Benson, 2023-11-19 DAWN OF THE APOCALYPSE gathers the pinnacle of speculative fiction to explore end times across diverse landscapes from the desolate to the dystopian It stitches a rich tapestry of literary approaches ranging from the classic gothic horror of Edgar Allan Poe to the socio political dystopias envisioned by Ayn Rand and H G Wells and the unique utopian perspective of Edward Bellamy The anthology thrives on its variety not just in the cataclysmic events it portrays but also in the myriad ways these events are perceived and interpreted by its characters Key pieces within this collection stand as milestones in the science fiction genre framing apocalyptic and post apocalyptic narratives as lenses through which we critique and comprehend contemporary societal fears The authors both pioneers and craftsmen of their

time come from a broad spectrum of backgrounds each contributing to the anthology's overarching theme with their unique flavor of apocalypse. These writers are not just storytellers but visionaries who collectively paint a multifaceted picture of humanity at the brink. They belonged to and were influenced by a range of historical, cultural, and literary movements from the romanticism and transcendentalism of the 19th century to the early 20th century's modernism and the budding science fiction genre. Their combined works offer a historical capsule of societal anxieties and hopes reflecting on themes of human resilience, the abuse of technology, and the moral dilemmas of progress. *DAWN OF THE APOCALYPSE* is an essential collection for readers eager to dive into the depths of human imagination faced with its own end. It offers an unparalleled opportunity to traverse the vast landscapes of apocalyptic fiction through the eyes of some of the most influential authors in literary history. This anthology not only serves as an academic goldmine for those studying the evolution of speculative fiction and its impact on society but also provides a timeless reflection on humanity's perennial concerns with its own survival and legacy. Readers are invited to witness the end of worlds not just as an exercise in literary exploration but as a mirror to our collective psyche across generations.

Apocalyptic Winds Marcus Lynn Dean, 2021-04-16 The world has changed. V.1 no longer threatens humanity. Or so it seems. Twenty years since the great dying, survivors and their descendants are immune to the virus that killed so many. Or are they? Small communities are scattered from the Blue River in Kansas to the Blue River in Colorado. All face an even greater threat than V.1. The survivors' offspring are all girls. In a world sorely lacking in scientific and medical technology, only a genetic cure can ensure the continued survival of humanity. The lack of male offspring isn't the only problem for the Blue River communities. There are others who survived the great dying. To the south and the east, the New Army of God is on the move, expanding New Dixie to the north and the west. Because of language, violence, and mature themes, the author recommends this book for readers aged 17 and older.
