Relationships A Dialectical Perspective:

Relationships Robert A. Hinde, 1997 This single author volume on close relationships in adulthood discusses the central issues in the field and points the way towards integrating our knowledge about human relationships The self interactions relationships and groups are treated as dynamic processes in dialectical relations with each other and with the socio cultural structure of norms values beliefs and institutions The focus is on current work and current controversy placed against a background of the knowledge that has been built up in recent decades The book is suitable for advanced undergraduates and graduate students and for research workers and clinicians Literature from diverse disciplines is covered in a list of about 1600 titles

Dialectical Approaches to Studying Personal Relationships Barbara M. Montgomery, Leslie A.

Baxter, 2013-09-13 This book describes many different and useful ways of understanding personal relationships from a dialectical perspective It is written for scholars in higher education both faculty and students across many fields within the social sciences and the humanities who seek answers to questions about how people relate to one another The book is valuable for all scholars who pursue new ideas because it models a form of scholarly communication in which multiple voices can be acknowledged as valid the worth of one perspective is not measured by the denigration of another and difference is celebrated as conducive to learning rather than threatening to it The contributors emphasize the characteristics of their dialectical view that set them apart from other dialectical authors and describe their methods of studying relationships from a dialectical perspective Following the Bakhtinian perspective they honor the values of dialogism by respecting different and sometimes contradictory views assuming that these views can be valid and joining in a discussion with the editors and other contributors about their emerging work They also acknowledge that the chapters in this text are part of an ongoing process to frame and reframe emerging ideas and allow the dialogue that occurs within this frame the freedom to express creative unique ideas

The Contemporary American Family Teresa Chandler Sabourin, 2003-04-07 The Contemporary American Family A Dialectical Perspective on Communication and Relationships recognizes that families are both close and distant stable and changing amenable and uncontrollable Teresa Chandler Sabourin employs a dialectical approach acknowledging that a family's contradictions and relational tensions may be the determining factor in its interaction Writing in a direct and simple style Sabourin uses this innovative theoretical position to address four types of family diversity structural cultural developmental and functional Designed as a supplemental text for upper level undergraduate and graduate courses in Family Communication The Contemporary American Family is also an invaluable resource for students in Family Studies and Women's Studies courses

Close Encounters Laura K. Guerrero, Peter A. Andersen, Walid A. Afifi, 2010-11-03 New edition of this popular introduction to interpersonal communication *The Future of Excellence in Public Relations and Communication Management* Elizabeth L. Toth, 2009-03-04 The Future of Excellence in Public Relations and Communication Management brings together a stellar collection of public relations scholars to address the question What will happen to continue the seminal theory building in public relations bolstered by the work of James E Grunig and Larissa A Grunig and the groundbreaking 1992 IABC Excellence Study examining best practices in the field This volume presents a challenge to future researchers encouraging consideration of other theoretical research problems that will lead to improving the management practice of public relations This collection advances scholarly and practitioner understanding of excellence in public relations and communication management and as such public relations and communications scholars in addition to practitioners and graduate students studying these areas will benefit immensely by reading the work in this volume

Blind Spots Melissa J. Frame, 2004 The purpose of this book is to understand the experiences of persons who are visually impaired including those who are invisibly visually impaired Through the use of a survey questionnaire and interviews and employing a cross sectional survey design the study examines the experiences of a large number of visually impaired respondents The research largely examines how visual impairment affects the performance of the visually impaired actor in relationships and social interaction To perform successfully the visually impaired actor must be able to adapt to and perform competently within his or her assigned role establish and maintain mutually satisfying relationships with other social actors and know how to prepare for and manage the potential responses of the audience The author employs a social performance perspective to examine how a visual impairment affects the individual's self concept ability to initiate and maintain satisfying relationships and interact successfully The appendix contains a wealth of supplementary information including the actual survey instrument and its rationale the theoretical model guiding the survey research the interview procedures and protocol and the correlation matrix This unique text will be a valuable resource to visually impaired individuals their families and professionals who work with them It also will serve as a useful text in graduate and undergraduate courses in disability issues

Human Relationships

Steve Duck, 2007-02-26 The Fourth Edition of this highly successful textbook provides a unique and comprehensive introduction to the study and understanding of human relationships. Fresh insights from family studies, developmental psychology, occupational and organizational psychology also combine to bring new perspectives to this thorough survey of the field. Thoroughly updated with new chapters on relating difficulty, small media technology and relationships and practical applications, the Fourth Edition offers a fully up to date and authoritative review of the field. *Personal Relationships and Personal Networks* Malcolm R. Parks, 2017-09-25 The effort to understand personal relationships has traditionally focused on the individual characteristics of participants. *Personal Relationships and Personal Networks* takes this analysis a step further, focusing on research linking participants' feelings and actions within a given personal relationship to the larger social context surrounding it. Author Malcolm R. Parks expands on the idea that the initiation, development, maintenance and dissolution of relationships are inextricably connected to each participant's social network, a perspective that allows for a better appreciation of our connection to the world and a greater understanding of our significant power as social actors. This book offers a new way to consider basic notions about how relationships form, such as how particular people meet and how relationships are started. Among many findings, the volume demonstrates that individuals in relationships feel closer and generally more connected when they also have a greater amount of contact with the members of each other's personal networks and when they believe that network members support their relationship. Additional topics discussed include how this social context model is applicable to different types of relationships, how participants interact with network members, how social networks are involved in the deterioration of personal relationships and what drives change in relationships. Students, researchers and professionals in a wide variety of disciplines such as communication, psychology, sociology, anthropology, family studies, clinical psychology, public health, nursing, education and social work will find this book useful, as will anyone seeking to better understand their own personal relationships. **Explaining Communication** Bryan B. Whaley, Wendy Samter, 2007 Offering a direct sightline into communication theory, *Explaining Communication* provides in-depth discussions of communication theories by some of the foremost scholars working in communication today. With contributions from the original theorists and scholars known for their work in specific theoretical perspectives, this distinctive text breaks new ground in giving these scholars the opportunity to address students firsthand, speaking directly to the coming generations of communication scholars. Covering a wide range of interpersonal communication theories, the scope of this exceptional volume includes the nature of theory and fundamental concepts in interpersonal communication theories, accounting for individual differences in message production, explanations of human communication from dyadic, relational and/or cultural levels and a history of communication theory. Chapter authors offer their own views of the core ideas and findings of specific theoretical perspectives, discussing the phenomena those perspectives are best positioned to explain, how the theories fit into the field and where future research efforts are best placed. While by no means comprehensive, *Explaining*

Communication includes those theories that rank among those most often used in today's work that have generated a substantial body of knowledge over time and that have not been articulated in detail in other publications. With detailed explorations and first hand discussions of major communication theories this volume is essential for students in communication studies, interpersonal communication and advanced theory courses as well as for scholars needing a thorough reference to some of the most salient theories in communication today.

Classroom Communication and Diversity Robert G. Powell, Dana Caseau, Dana Powell, 2004-04-14 This volume addresses ways in which culture influences communication in the classroom, provides teachers with information they need to meet the needs of students in multicultural classrooms. For students, scholars in instructional communication.

Sourcebook of Family Theory and Research Vern L. Bengtson, 2005 Now available in paperback for classroom use. This comprehensive text provides a rich source of perspectives on theorising about the family for scholars, researchers and students. Another of the book's strengths is the emphasis on multimethod approaches in family research. The book covers an impressive range of topics and issues: marital happiness, adjustment of children in divorce, marriages, gay marriage, sibling ties, ethnic families of colour, stepfamilies, aggression, culture, work and family, religion and social policy, to name a few. In summary, this superb volume is highly recommended and amply reflects the many contemporary perspectives on the family.

Philip Siebler, Monash University Victoria. Sponsored by the National Council on Family Relations, the Sourcebook of Family Theory and Research is the reference work on theory and methods for family scholars and students around the world. This volume provides a diverse, eclectic and paradoxically mature approach to theorizing and demonstrates how the development of theory is crucial to the future of family research. The Sourcebook reflects an interactive approach that focuses on the process of theory building and designing research, thereby engaging readers in doing theory rather than simply reading about it. An accompanying website offers additional participation and interaction in the process of doing theory and making science.

Editors: Vern L. Bengtson, Alan C. Acock, Katherine R. Allen, Peggye Dilworth Anderson and David M. Klein have brought together a prominent group of diverse contributors ranging in race and ethnicity, age and seniority and gender and sexual orientation. The Sourcebook begins with a section that sets the context for future family research. The subsequent sections explore changing family patterns, changing family interactions within and across generations and families and larger social forces. A concluding section discusses issues of teaching family theories and research.

Key Features: Focuses on the process rather than the outcomes of family theory and research methods. Emphasizes the value of multi methods approaches in family research by integrating theory development with the development of research methods. Differs from many other publications on family research by describing the development of new ideas rather than just summarizing existing findings. The interactive Web site and the special feature boxes within the chapters engage readers with theory and methodology. Boxed features include Case Studies, Spotlights on Theory, Spotlights on Methods and a Discussion and Extension sections. Represents a Who's Who of family researchers with contributions from

many of the best researchers in the family realm The Sourcebook will be an excellent addition to any academic library It is an authoritative reference for scholars and researchers in Human Development and Family Studies Sociology Social Work and Psychology In addition the Sourcebook can also be used in graduate courses on family theory and methodology

Maintaining Relationships Through Communication Daniel J. Canary, Marianne Dainton, 2003-01-30 Relational maintenance provides a rallying point for those seeking to discover the behaviors that individuals utilize to sustain their personal relationships Theoretical models research programs and specific studies have examined how people in a variety of close relationships choose to define and maintain those relationships In addition relational maintenance turns our attention to communicative processes that help people sustain their close relationships In this collection editors Daniel J Canary and Marianne Dainton focus on the communicative processes critical to the maintenance and enhancement of personal relationships The volume considers variations in maintaining different types of personal relationships structural constraints on relationship maintenance and cultural variations in relational maintenance Contributions to the volume cover a broad range of relational types including romantic relationships family relationships long distance relationships workplace relationships and Gay and Lesbian relationships among others Maintaining Relationships Through Communication Relational Contextual and Cultural Variations synthesizes current research in relationship maintenance emphasizes the ways that behaviors vary in their maintenance functions across relational contexts discusses alternative explanations for maintaining relationships and presents avenues for future research As such it is intended for students and scholars studying interpersonal communication and personal relationships Communication Yearbook 23 Michael Roloff, 2012-03-22 Communication Yearbook 23 originally published in 2000 includes discussions about the relationship between communication and the emotional processes The authors do not confine the reviews to research conducted in a single context but instead draw upon scholarship that informs about shame and guilt in intimate family organizational and public discourse Also explored is literature on compliance resistance and the emotional reactions that accompany resistance Other reviews address issues involving communication about sexual harassment in the workplace cross cultural influences on management styles and the mass media's role in encouraging change in body shape Offering a tremendous variety of in depth analyses of communication scholarship in a broad array of research areas this is a vital sourcebook for researchers teachers and students alike

Indirect Parenting Interventions, Neuroscience and the Parent-Child Relationship Thomas W. Roberts, 2024-10-21 This volume explores indirect parenting behavior that changes the structure of the parent child relationship examining the ecological dimension of parenting in addition to nurturance and control Drawing on neuroscientific research in parenting it provides a model for how children learn implicitly and how parents can relate to children through indirect means Roberts argues that first order parenting techniques teaching specific behaviors to reduce unwanted child behaviors are overused He examines and offers guidance on how indirect interventions that place emphasis on the interactional components of the

parent child relationship such as modelling storytelling reframing humor and paradox can support parents and children in developing positive relationships Addresses the latest brain research and its application to parent child interactions Introduces the student to aspects of the parent child relationship that are not covered in most courses Useful to clinicians who work directly with parents Offers a perspective on parenting that differs from most parenting models Facilitates awareness of how unconscious and nonverbal communication affects parenting Serves to deepen the relationship with the child and curb unwanted behavior Indirect Parenting Interventions Neuroscience and the Parent Child Relationship will be thought provoking reading for students and scholars of parenting and family systems as well as clinicians who work directly with parents giving them a broader perspective in dealing with parent child interactions Satisfaction in Close Relationships Robert J.
