Religion And Politics In The Middle East Michael Curtis, 1981-11-16 Examines the reemergence of Islam as a stimulus to political events in the Middle East Faith and Power Bernard Lewis, 2010-05-05 Short collection of previously unpublished in English works by the doyen of Middle Eastern history **Islam and the Myth of Confrontation** Fred Halliday, 1996 The author examines the widely accepted image of confrontation between Islam and the West created largely by the rise of Islamic militancy in the Middle East and the perceived influence of Islam on politics and society Considering the sources of Islamic militancy and the rhetoric of Islamic and anti Muslim leaders he argues that the Middle East is a set of variant societies facing the economic and political problems of the Third World **Religion and Politics in the Middle East** Robert D. Lee, 2018-04-19 This innovative book analyses the relationship between religion and politics in the Middle East through a comparative study of five countries Egypt Israel Turkey Iran and Saudi Arabia Robert D Lee examines each country in terms of four domains in which state and religion necessarily interact national identity ideology institutions and political culture In each domain he considers contradictory hypotheses some of them asserting that religion is a positive force for political development and others identifying it as an obstacle Among the questions the book confronts Is secularization a necessary prerequisite for democratic development How is it and why is it that religion and politics are so deeply entangled in these five countries And why is it that all five countries differ so markedly in the way they identify themselves and use religion for political purposes The book argues that the nature of religious organization and practice in the Middle East must be understood in the context of individual nation states The second edition is updated throughout and includes an entirely new chapter discussing the political and religious climate in Saudi Arabia Earlier introductory analysis has been condensed to make room for new material and chronologies at the end of each chapter have been added to help students understand the broader context The second edition of Religion and Politics in the Middle East is a robust addition to courses on the Middle East **Religion and Politics in Europe, the Middle East and North Africa** Jeffrey Haynes, 2010 *Religion, Democracy, and Politics in the Middle East* Daniel Byman, Marylena Mantas, 2012 Discusses religion democracy and politics in the Middle East in the early 21st century and highlights dilemmas and challenges for the future of the region Provided by publisher **Islam and Democracy** Timothy D. Radicalism and Politics in the Middle East Emmanuel Sivan, Menachem Friedman, 1990-08-29 This book explores in a comparative perspective two fundamentalist waves that have rolled over the Middle East during the last two decades Jewish and Muslim extremism have had a profound impact on the culture and politics of this important region One thinks immediately of the Gush Emunim settlements on the West Bank the Iranian revolution and the assassination of President Sadat The authors highlight various facets of the phenomena such as Haredi Jewish ultra orthodoxy the transformation of secular Israeli nationalism by the Gush Emunim attempts to spread the revolutionary gospel to the Sunni world and fundamentalism as the spearhead of the national uprising in the Gaza The introduction outlines what the extremist movements in both religions have in common where they diverge and how they are shaping the future of the Middle East

Islam and Politics in the Middle East Mark A. Tessler, 2015 Some of the most pressing questions in the Middle East and North Africa today revolve around the proper place of Islamic institutions officials and laws in governance and political affairs This study draws on the results of surveys carried out in fifteen countries representing the opinions of more than 60 000 men and women which sought to discover why some individuals support a central role for Islam in government while others favor a separation of religion and politics Utilizing the Carnegie Middle East Governance and Islam Dataset the book formulates and tests hypotheses about the views held by ordinary citizens offering insights into the individual and country level factors that shape attitudes toward political Islam

Beyond Piety and Politics Sabri Ciftci, F. Michael Wuthrich, Ammar Shamaileh, 2022-05-03 How do ordinary men and women in Muslim majority societies create religion informed views of political topics such as democracy and economics Beyond Piety and Politics provides a groundbreaking approach to understanding the depth and variety of political attitudes held by people who consider themselves to be pious Muslims Using survey data on religious preferences and behavior the authors argue for the relevance and importance of four outlook categories religious individualist social communitarian religious communitarian and post Islamist and use these to explore complex and nuanced attitudes of devout Muslims toward issues like democracy and economic distribution They also reveal how intrafaith variation in political attitudes is not due simply to doctrinal differences but is also a product of the social aspects of religious association operating within political contexts By highlighting the dynamic societal and political implications of religious devotion Beyond Piety and Politics offers a fascinating new theoretical perspective on Islam and politics

Religion and International Relations in the Middle East Sotiris Roussos, 2020 The volume has a twofold purpose first to question main presuppositions and perceptions regarding religion and international politics in the Middle East and second to reflect on the role s of religion in the regional order The first part deals with the contribution of religion to a post Western turn in International Relations in the Middle East and beyond It discusses the postsecular conceptual framework in order to expand their approaches to the analysis of the Middle East and addresses the search for religion s suitable place within International Relations taking as a starting point the social changes in the world and the postulated Mesopotamian turn in International Relations The second part focuses on the role of state like non state actors ISIS challenged the international order because contrary to revolutionary states in the past it negates the foundations of the Westphalian system At the same time the rise of ISIS had a tremendous impact on the jihadi sub system The third part studies the impact of religion on foreign and security policy Israel UAE UK and Saudi Arabia It explores how religion has been shaping each stage of the decision making process the position that religion holds in perceptions of stability in the post 2011 era and the politics of moderate Islam arguing that even though moderate Islam has been devised for creating soft power it serves sharp power as well

Shaw Ph.D., 2019-09-19 With respect to the countries of the world this work addresses two basic questions How does religion affect politics in this country and How does politics affect religion in this country Although there are many books on the topics of religion and politics reference works that consider the two together are few with those that do exist primarily addressing theory rather than trends The present work does the latter contextualizing them within regional and national boundaries In so doing it recognizes the power of political and religious ideas and movements on individuals communities and nations making the work a valuable resource for several disciplines among them political science international relations religion and sociology The work focuses on the interplay of religion and politics in countries around the world with an emphasis on the post 2000s It is organized by global geographic regions including Africa Central and South America and the Middle East and presents countries alphabetically within those sections Each region has a brief overview of the political religious dynamics of the area so readers can compare and contrast the dynamics between and among countries in a region The work also includes an introduction sidebars and a bibliography

Sectarianization Nader Hashemi, Danny Postel, 2017-03-15 As the Middle East descends ever deeper into violence and chaos sectarianism has become a catch all explanation for the region's troubles The turmoil is attributed to ancient sectarian differences putatively primordial forces that make violent conflict intractable In media and policy discussions sectarianism has come to possess trans historical causal power This book trenchantly challenges the lazy use of sectarianism as a magic bullet explanation for the region's ills focusing on how various conflicts in the Middle East have morphed from non sectarian or cross sectarian and nonviolent movements into sectarian wars Through multiple case studies including Syria Iraq Lebanon Saudi Arabia Bahrain Yemen and Kuwait this book maps the dynamics of sectarianisation exploring not only how but also why it has taken hold The contributors examine the constellation of forces from those within societies to external factors such as the Saudi Iran rivalry that drive the sectarianisation process and explore how the region's politics can be de sectarianised Featuring leading scholars and including historians anthropologists

political scientists and international relations theorists this book will redefine the terms of debate on one of the most critical issues in international affairs today Christians and the Middle East Conflict Paul Rowe, John Dyck, Jens Zimmermann, 2014-06-20 Christians and the Middle East Conflict deals with the relationship of Christians and Christian theology to the various conflicts in the Middle East a topic that is often sensationalized but still insufficiently understood Political developments over the last two decades however have prompted observers to rediscover and examine the central role religious motivations play in shaping public discourses This book proceeds on the assumption that neither a focus on the eschatological nor a narrow understanding of the plight of Christians in the Middle East is sufficient Instead it is necessary to understand Christians in context and to explore the ways that Christian theology applies through the actions of Christians who have lived and continue to live through conflict in the region either as native inhabitants or interested foreign observers This volume addresses issues of concern to Christians from a theological perspective from the perspective of Christian responses to conflict throughout history and in reflection on the contemporary realities of Christians in the Middle East The essays in this volume combine contextual political and theological reflections written by both scholars and Christian activists and will be of interest to students and scholars of Politics Religion and Middle East Studies **Islam and Secularism in the Middle East** Azzam Tamimi, John L. Esposito, 2000-10 Western civilization tends to view secularism as a positive achievement From this perspective benefits of secularizing trends include the separation of church and state the rule of law and freedom from organized religion In the Arab Middle East however Islamist intellectuals increasingly cite Western inspired secularism as the source of the region's social dislocation and political instability While secularism in the West led to the spread of democratic values in the Muslim world it has been associated with dictatorship the violation of human rights and the abrogation of civil liberties Islam and Secularism in the Middle East examines the origins and growth of the movement to abolish the secularizing reforms of the past century by creating a political order guided by Shariah law Contributors explain the Islamic rejection of secularism as a failed Western Christian ideal and also discuss how secularization was pioneered by those who thought Muslims could only advance politically by emulating Western practices including the renunciation of religion
