Family and Household Religion Rainer Albertz, Beth Alpert Nakhai, Saul M. Olyan, Rüdiger Schmitt, 2014-06-06 This volume is the most recent collective contribution of a group of biblical scholars and archaeologists who are engaged in an ongoing debate about the nature of family and household religion in ancient Israel and its environment It is intended to complement the volume Household and Family Religion in Antiquity edited by John Bodel and Saul M Olyan which grew out of a conference held at Brown University in 2005 on household and family religion in the ancient Mediterranean world with an emphasis on cross cultural comparison Several meetings after the Brown conference carried the theme forward and a fourth meeting at Westfälische Wilhelms Universität Münster in April 2009 emphasized theoretical and methodological challenges facing scholars of household and family religion e.g. the conceptualization of family household religion the problem of identifying pertinent artifacts and the difficulties inherent in using texts together with material evidence This volume is a direct outgrowth of the Münster meeting For both the meeting and the volume the goal was to bring together a group of specialists in biblical studies epigraphy and archaeology who would utilize a variety of humanistic and social

scientific approaches to the data and would also be willing to engage in dialogue and debate during the conference in Münster there was much vigorous intellectual engagement The essays published here reflect the energy of that conference and will contribute both individually and collectively to the advancement of our knowledge of Israelite family and household religion

The Invention of Ancient Israel Keith W. Whitelam, 2013-11-19 The Invention of Ancient Israel shows how the true history of ancient Palestine has been obscured by the search for Israel Keith W Whitelam shows how ancient Israel has been invented by scholars in the image of a European nation state influenced by the realisation of the state of Israel in 1948 He explores the theological and political assumptions which have shaped research into ancient Israel by Biblical scholars and contributed to the vast network of scholarship which Said identified as Orientalist discourse This study concentrates on two crucial periods from the end of the late Bronze Age to the Iron Age a so called period of the emergence of ancient Israel and the rise of an Israelite state under David It explores the prospects for developing the study of Palestinian history as a subject in its own right divorced from the history of the Bible and argues that Biblical scholars through their traditional view of this area have contributed to dispossession both of a Palestinian land and a Palestinian past This controversial book is important reading for historians Biblical specialists social anthropologists and all those who are interested in the history of ancient Israel and Palestine
