BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Witches, Westerners,**

and HIV Alexander Rödlach, 2016-09-17 A witch's curse, an imperialist conspiracy, a racist plot: HIV/AIDS is a catastrophic health crisis with complex cultural dimensions. From small villages to the international system, explanations of where it comes from, who gets it, and who dies are tied to political agendas, religious beliefs, and the psychology of devastating grief. Frequently, these explanations conflict with science and clash with prevention and treatment programs. In *Witches, Westerners, and HIV*, Alexander Rödlach draws on a decade of research and work in Zimbabwe to compare beliefs about witchcraft and conspiracy theories surrounding HIV/AIDS in Africa. He shows how both types of beliefs are part of a process of blaming others for AIDS, a process that occurs around the globe but takes on local, culturally specific forms. He also demonstrates the impact of these beliefs on public health and advocacy programs, arguing that cultural misunderstandings contribute to the failure of many well-intentioned efforts. This insightful book provides a cultural perspective essential for everyone interested in AIDS and cross-cultural health issues. **Airplanes, the Environment, and the Human Condition**

Hans A. Baer, 2019-07-23 The number of airplane flights worldwide continues to grow and is one of the many drivers of climate change. This book examines the aviation industry from an anthropological perspective, focusing on the sector's environmental impact and the challenges facing attempts to shift to more sustainable solutions. Hans Baer outlines how airplanes have become a key component of modern cultural and social life and how the world system has become increasingly dependent on them to function. He critically examines current efforts to mitigate the climatic impact of the air travel and argues for a significant move away from air transport, suggesting that such a shift may only be achieved through a more fundamental change in the world system. **The Harcourt Brace Guide to Writing in the Disciplines** Robert

Wayne Jones, Patrick Bizzaro, Cynthia L. Selfe, 1997 **Prime-Time Society** Conrad Phillip Kottak, 2016-06-03 A landmark comparative study of U.S. and Brazil of television's social and cultural effects on human behavior. The Updated Edition brings forward the author's research on this topic since the original volume was published in 1990 with an extensive new Introduction. *Hollywood Blockbusters* David Sutton, Peter Wogan, 2020-05-15 Why do *Jaws*, *Field of Dreams*, *The Big*

Lebowski, and *The Godfather* remain strikingly popular in this age of fragmented audiences and ever faster spin cycles? *Hollywood Blockbusters: The Anthropology of Popular Movies* argues that these films continue to captivate audiences because they play upon underlying tensions and problems in American culture much like the myths that anthropologists study in non-Western contexts. In making this argument, the authors employ and extend anthropological theories about ritual, kinship, gift-giving, power, egalitarianism, literacy, metalinguistics, stereotypes, and the mysteries of the Other. The results: original insights into modern film classics. American culture and anthropological theory will appeal to students of Film, Media, Anthropology, Sociology, and Cultural Studies. *Assault on Paradise* Conrad Phillip Kottak, Richard Pace, 2024-09-10 The Fifth Edition of *Assault on Paradise* continues to offer an in-depth exploration of Arembepe, Brazil, through the lens of cultural change and environmental activism. Combining the pioneering ethnographic research of Conrad Kottak with fresh insights from co-author

Richard Pace this seminal ethnographic study provides a comprehensive view of Arembepe's evolution over the past six decades Kottak's original work captures Arembepe's transformation from a serene fishing village to a global cultural hotspot during the 1960s hippie movement His detailed observations offer students a foundational understanding of how cultural social and economic forces interact within a community In this new edition an updated chapter with new co author Richard Pace reflects the current dynamics of the village Contemporary developments in religious practices the expansion of tourism and local environmental activism are addressed Kottak and Pace illustrate how Arembepe continues to navigate its identity amidst ongoing change Assault on Paradise stands out as a valuable case study on cultural adaptation community resilience and the impacts of globalization Kottak and Pace's combined perspectives help students grasp the complexities of cultural transformation and the role of local agency in shaping environmental and social outcomes Perfect for classroom use this book facilitates critical discussions on cultural dynamics and offers a nuanced view of how communities respond to external pressures while preserving their heritage
