Wright,Gillian B. Silver,Cyrilla van der Donk,Bas van Lanen,2022-02-01 An invaluable tool for health and social work students and professionals who want to improve their practice through collaborative research with patients clients and colleagues Throughout history some of the most prominent contributors to health and social sciences have been men and women comfortable with both practice and academia But today research in health related fields is increasingly conducted in specialized settings by people who are first and foremost researchers Critics bemoan this loss of practice based research long considered a vital part of the contribution that doctors nurses public health workers and social workers can make both to their field and the communities in which they work Unfortunately the explosion of new discoveries in health related fields along with the exponential increase in the amount of knowledge being produced and the growing demands of

practice have caused both the production and application of knowledge to become highly specialized and increasingly complex. This has resulted in a widening gap between research and practice. Recognizing the need for a guide to this type of research, *Practitioner Research for Social Work Nursing and the Health Professions* is a thoroughly reimagined version of a book originally published in 2011 in the Netherlands. Aimed at American practitioners, it is a highly practical guide for anyone in social work, nursing, and other health care and social welfare settings. Its seven-step Practitioner Research Method offers readers a tried and true approach to conducting research in their own work environments, and the authors use real-world examples to highlight strategies for overcoming barriers and incorporating research. While leading practitioners through each stage of the research process, the authors explain in detail how to apply a variety of field-tested tools and techniques. A unique and indispensable resource for students in undergraduate and graduate research courses as well as for seasoned professionals who seek a practical guide for developing and implementing their own research projects in social work, nursing, and the health professions, this book is also the first textbook to introduce the concept and practice of practitioner research to an American audience.

**Qualitative Methods in Communication and Media** Sandra L. Faulkner, Joshua D. Atkinson, 2023-10-17. *Qualitative Methods in Media and Communication* offers a learning-centered guide to designing, conducting, and evaluating qualitative communication and media research methods. Drawing upon years of teaching qualitative research methods, Sandra L. Faulkner and Joshua D. Atkinson introduce and unpack qualitative communication research, method design, analysis, representation, writing, and evaluation using extended examples and clear discussion. The authors use key terms, extended examples, discussion questions, student-tested writing and research activities, examples of student work, and questions and suggested resources to help readers design, do, and analyze qualitative research. As a textbook, its pedagogical goals for the student include: 1) becoming a critical reader of research studies by understanding the epistemologies and methodological assumptions used by researchers; 2) learning the various methods, strategies, and approaches for doing qualitative research; 3) developing a strong basic vocabulary and understanding of concepts relating to qualitative and humanistic research methods; 4) understanding special concerns related to particular research methods; and 5) designing, executing, and representing original qualitative research projects. With numerous elements intended to engage students and enrich the learning process, the book provides examples of how to do qualitative and critical analyses, including arts-based and media and textual analyses, to understand, describe, and query communication and media research in a variety of communication areas. There is also an extensive discussion of ethics in qualitative research and spotlights with renowned researchers on hot topics in qualitative research.
