Global and Local Art Histories Celina Jeffery, Gregory Minissale, 2009-03-26 There are now many books on postcolonial theory yet relatively few of them gather together sustained dynamic and insightful analyses of visuality art and art history outside of hegemonic Euro American themes and concerns Global and Local Art Histories explores what it means to have a global and local experience of art The 15 essays published here suggest ways of interpreting works of art from a

broad range of cultural perspectives many of them transcultural Here are voices contesting concepts of history and culture evaluating and exploring global and local identities in a changing world Because of the variety of different approaches and cultural perspectives that Global and Local Art Histories brings together the book presents a unique opportunity to question what we mean by that dangerously globalising category the work of art and art history exploring g local approaches that challenge such falsely universalising rubrics African Cultures, Visual Arts, and the Museum Tobias Döring, 2002 From the contents Christine MATZKE Comrades in arts and arms stories of wars and watercolours from Eritrea Sabine MARSCHALL Positioning the other reception and interpretation of contemporary black South African artists Kristine ROOME The art of liberating voices contemporary South African art exhibited in New York Jonathan ZILBERG Shona sculpture and documenta 2002 reflections on exclusions **African Art and Agency in the Workshop** Sidney Littlefield Kasfir, Till Förster, 2013 The role of the workshop in the creation of African art is the subject of this revelatory book In the group setting of the workshop innovation and imitation collide artists share ideas and techniques and creative expression flourishes African Art and Agency in the Workshop examines the variety of workshops from those which are politically driven or tourist oriented to those based on historical patronage or allied to current artistic trends Fifteen lively essays explore the impact of the workshop on the production of artists such as Zimbabwean stone sculptors master potters from Cameroon wood carvers from Nigeria and others from across the continent **Thami Mnyele and Medu Art Ensemble Retrospective** Thami Mnyele, 2009 The exhibition and book document a particular chapter in South Africa's struggle for democracy by telling the story of artist and activist Thami Mnyele and a group of cultural workers in exile in Botswana called Medu Art Ensemble This is the first time that their history is being told **The Oxford Handbook of Modern African History** John Parker, Richard Reid, 2013-10-10 The Oxford Handbook of Modern African History represents an invaluable tool for historians and others in the field of African studies This collection of essays produced by some of the finest scholars currently working in the field provides the latest insights into and interpretations of the history of Africa a continent with a rich and complex past An understanding of this past is essential to gain perspective on Africa's current challenges and this accessible and comprehensive volume will allow readers to explore various aspects political economic social and cultural of the continent's history over the last two hundred years Since African history first emerged as a serious academic endeavour in the 1950s and 1960s it has undergone numerous shifts in terms of emphasis and approach changes brought about by political and economic exigencies and by ideological debates This multi faceted Handbook is essential reading for anyone with an interest in those debates and in Africa and its peoples While the focus is determinedly historical anthropology geography literary criticism political science and sociology are all employed in this ground breaking study of Africa's past Heritage, Culture, and Politics in the Postcolony Daniel Herwitz, 2012-09-25 The act of remaking one's history into a heritage a conscientiously crafted narrative placed over the past is a thriving industry in almost every postcolonial culture This is surprising given the

tainted role of heritage in so much of colonialism's history. Yet the postcolonial state like its European predecessor of the eighteenth and nineteenth centuries deploys heritage institutions and instruments: museums, courts of law and universities to empower itself with unity, longevity, exaltation of value, origin and destiny. Bringing the eye of a philosopher, the pen of an essayist and the experience of a public intellectual to the study of heritage, Daniel Herwitz reveals the febrile pitch at which heritage is staked. In this absorbing book, he travels to South Africa and unpacks its controversial and robust confrontations with the colonial and apartheid past. He visits India and reads in its modern art the gesture of a newly minted heritage idealizing the precolonial world as the source of Indian modernity. He traverses the United States and finds in its heritage of incessant invention, small town exceptionalism and settler destiny a key to contemporary American media-driven politics. Showing how destabilizing, ambivalent and potentially dangerous heritage is as a producer of contemporary social, aesthetic and political realities, Herwitz captures its perfect embodiment of the struggle to seize culture and society at moments of profound social change.

*Black Cultural Life in South Africa* Lily Saint, 2018-09-20

Under apartheid, black South Africans experienced severe material and social disadvantages occasioned by the government's policies and they had limited time for entertainment. Still, they closely engaged with an array of textual and visual cultures in ways that shaped their responses to this period of ethical crisis. Marshaling forms of historical evidence that include passbooks, memoirs, American B movies, literary and genre fiction, magazines and photocomics, *Black Cultural Life in South Africa* considers the importance of popular genres and audiences in the relationship between ethical consciousness and aesthetic engagement. This study provocatively posits that states of oppression including colonial and postcolonial rule can elicit ethical responses to imaginative identification through encounters with popular culture and it asks whether and how they carry over into ethical action. Its consideration of how globalized popular culture travels not just in material form but also through the circuits of the imaginary opens a new window for exploring the ethical and liberatory stakes of popular culture. Each chapter focuses on a separate genre, yet the overall interdisciplinary approach to the study of genre and argument for an expansion of ethical theory that draws on texts beyond the Western canon speak to growing concerns about studying genres and disciplines in isolation. Freed from oversimplified treatments of popular forms common to cultural studies and ethical theory alike, this book demonstrates that people can do things with mass culture that reinvigorate ethical life.

Lily Saint's new volume will interest Africanists across the humanities and the social sciences and scholars of Anglophone literary globalization and cultural studies, race, ethical theories and philosophies, film studies, book history and material cultures and the burgeoning field of comics and graphic novels.

**One Hundred Years of the ANC** Arianna Lissoni, Jon Soske, 2012-11-01

An examination of the ANC in its centennial year. On 8 January 2012, the African National Congress (ANC) of South Africa, the oldest African nationalist organisation on the continent, celebrated its one hundredth anniversary. This historic event has generated significant public debate within both the ANC and South African society at large. There is no better time to critically reflect

on the ANC's historical trajectory and struggle against colonialism and apartheid than in its centennial year One Hundred Years of the ANC is a collection of new work by renowned South African and international scholars Covering a broad chronological and geographical spectrum and using a diverse range of sources the contributors build upon but also extend the historiography of the ANC by tapping into marginal spaces in ANC history By moving away from the celebratory mode that has characterised much of the contemporary discussions on the centenary the contributors suggest that the relationship between the histories of earlier struggles and the present needs to be rethought in more complex terms Collectively the book chapters challenge hegemonic narratives that have become an established part of South Africa's national discourse since 1994 By opening up debate around controversial or obscured aspects of the ANC's century long history One hundred years of the ANC sets out an agenda for future research The book is directed at a wide readership with an interest in understanding the historical roots of South Africa's current politics will find this volume informative This book is based on a selection of papers presented at the One Hundred Years of the ANC Debating Liberation Histories and Democracy Today Conference held at the University of Witwatersrand Johannesburg from 20-23 September 2011 [The Elements of Peace](#) J. Frederick Arment, 2014-01-10 This guide to nonviolent conflict resolution presents thirty methods of maintaining or achieving peace each with an in depth case study Methods covered and their real world applications include the art of diplomacy the 1995 Dayton Peace Accords fair trade the 1997 fair trade certification agreement civil disobedience the civil rights movement in the United States humanitarianism the rescue of the Hungarian Jews during the Holocaust the rule of law the International Tribunal for the Former Yugoslavia and peace education the Nobel Peace Prize among many others It concludes with a summary of the methods and the virtues of peace Instructors considering this book for use in a course may request an examination copy [here](#)
